

# RESIDENCES ARE GOING UP

## CENTER ADDITION SHOWS GROWTH

Three New Buildings Now Under Construction and Several More Planned—Sidewalks and Telephone Lines Are Extended.

To the resident of the town who follows a beaten path each day from his home to his work and back it is a revelation to take a stroll through those districts and additions which he does not regularly see. Hardly a month passes which does not find some change in every part of the town in the form of new residences, sidewalks or improvements to buildings already up.

Just at present the greatest activity in the building line is to be found in Center Addition, on Greenwood avenue and the side streets from it. Within a radius of 300 yards in this locality three new residences are now going up, all of a substantial character; two more are planned, the foundations being already in, and but a short distance away are several more built within the past few months and materially adding to the character of the neighborhood.

Of the three under construction the one which E. W. Richardson is building for his own occupancy is nearest completion. Mr. Richardson plans to move in at once. He has a residence of the cottage type 26 by 35 feet, with four rooms and bath on the first floor and three rooms on the floor above. Under the house is a cellar 14 by 26. The house will be heated by hot water from a heater in the cellar. Mr. Richardson has done most of the work on the house himself. He also has a cellar dug and foundation built for a house of practically the same dimensions on an adjoining lot, which he will begin on as soon as possible. Both houses are on Greenwood avenue between Ninth and Tenth streets. Next to these lots on the west C. R. Kurrle has the cellar dug and the foundation laid for a five-room house which he expects to begin on shortly. Lumber for the construction being already on the ground.

On the opposite side of Greenwood avenue there is going up what will be one of the largest houses in the neighborhood, it being a two-apartment house of two stories and an attic for George A. Hoover. The frame is already up and the finish has been begun. The building will be divided through the middle, affording apartments for a family on each side. A feature will be a large porch on the second story in front.

To the north of Greenwood avenue on Ninth street E. P. Luthy is erecting a large house for himself, doing all the work with the assistance of his brother. The house as planned contains six rooms and a bathroom on the first floor and three rooms on the second floor. Mr. Luthy has also provided a cellar, though not without some difficulty, having had to remove a big pine and then blast to get the excavation that he wanted. The house will have unusually large windows in all the first floor rooms, Mr. Luthy having planned these to take up nearly one side of each room. They will all be of a special design, following plans that Mr. Luthy has made himself.

In addition to this present activity in the building line, there has been considerable in the last few months, including a bungalow by W. E. Scott, a store and residence on Fir avenue occupied for a time by the Pilot Butte grocery and a bungalow on Eighth street built by Mrs. D. C. Hamilton of Los Angeles. There are also several new cabins in the colony built by W. B. Leeb, as well as the grocery store adjoining put up by Mr. Leeb last spring.

Improvements of a public nature to be seen in the locality are considerable sidewalk, especially on Eighth street, and an extension of the telephone line. New poles for this line have been erected along Eighth street and the crossarms put on, and it is expected that the wire will be strung shortly.

Having as it did many substantial residences before these later improvements were begun, Center Addition is now showing more clearly than ever its position as one of the attractive home centers of the city.

### PORTLAND MARKET REPORT.

NORTH PORTLAND, Oct. 11.—Receipts for the week have been: Cattle 954, calves 30, hogs 4740, sheep 8582, horses 10. Beef liquidation this week has fallen off considerably and prices are a shade steadier. Prime steers sold in bulk at \$7.50 to \$7.65 and cows \$6.50 to \$6.75. Swine trade conditions are an uncertain quantity at present and values fluctuated easily. Tops were from \$5.70 to \$5.80, with tendency downward. Outlet is fair for good light hogs and smooth heavy weights, but size of receipts during the next six days will be the most influential factor on the market. Sheep house transactions gave the impression of a steady to weaker tone in lambs. Some choice yearlings in small lots sold at \$4.50 and prime ewes \$3.75 to \$4. Lambs failed to reach over \$5 at week's close, but the number offered for sale was so small and the quality so ordinary the trade could not settle on a substantial price. Generally mutton and lambs are steady if quality is choice. Outlet of course would be clogged but it has absorbed each day's receipts for a week without effort.
