VOL. XI.

BEND, OREGON, WEDNESDAY, NOV. 5, 1913.

NO. 35

ROAD BONDING BADLY BEATEN

DEFEAT AT POLLS EXPECTED

County Attorney Bill Rumps in a Winner—All Referenced Measures Carry in Crook County—Returns From 16 Important Precincts.

With returns in from 16 of Crook county's 34 precincts, it is certain that the road bond issue was defeated in yesterday's election by about a 4 to 5 vote, and perhaps by even a bigger margin. The totals for the 16 precincts include all the towns, and practically all the territory adjoining the route of the proposed road, and it can be safely estimated that the other precincts, which are mostly remote and in the eastern portion of the county, will be practically unanimous against the issue.

On the referendum measures the vote in the county fairly mirrored that of the state. All of the bills received a big endorsement except the sterilization measure, which won in the county by a small majority but was defeated in the state.

The county attorney bill proved very popular. The vote in the 16 precincts stood 702 for it and 141 against it. It is evident that the people of Crook county are content, to a tune of at least 7 to 1, to have Willard H. Wirtz as "County Attorney" on his stationery.

The result of the bond issue election was expected ever since the Good Roads Association and those chiefly working for the project refused to exert further effort in its behalf after alleged "double crossing" of the association and the project by County Judge Springer.

Springer's critics assert that on the tombstone of the good roads measure should be placed an epitaph to the effect that "here lies a progressive project slaughtered by a moss-back official who wouldn't play fair."

In Bend precinct the returns were as follows: University building, yes 121, no 16; new building, yes 112, no 32; sterilization, yes 54, no 41; county attorney, yes 134, no 13; compensation act, yes 131, no 13; road bonds, yes 103, no 44. Of the 150 votes cast, 31 were women's. The judges were S. C. Caldwell, C. M. McKay and M. J. Kelley. F. O. Minor, Ross Farnham and H. H. Davies acted as clerks. Caldwell took returns to Prineville. At the last general election 281 votes were cast in the precinct.

Deschutes Precinct. Fifty votes were cast in Deschutes precinct, whose voting place is in Lyle, and which includes much of the rural district east and north of Bend, together with the town of Deschutes or Central. Of these, 13 were women's votes. In the last general election 184 votes were cast. The results are as follows: University building, yes 28, no 14; new building, yes 20, no 21; sterilization, yes 26, no 19; county attorney, yes 35, no 11; compensation, yes 44, no 4; bonds, yes 37, no 13. The judges were J. E. Reed, Thomas Tweet and

KUTCHER SLAMS BONDS.
Four p. m.—A message just received gives returns from Kutchers precinct, near Madras. The average vote on the measures is similar to other precincts. The vote on the road bonds is 4 in favor of them and 117 against them. Proportionately to the total vote, this precinct polled more than any other in the county.

O. E. Haneline. The clerks were W. W. Orent and Steve Steidl.

HISTERS AGAINST BONDS.
The only returns received from Sisters concern the road bond issue, which was swamped. Those favoring it numbered 4, while 88 balloted against it.

REDMOND IS ALL "YES."
REDMOND, Nov. 5.—A majority of Redmond voters went "yes" on all the measures. In all, 94 votes were cast, a few of which were by women. The returns stand: university building, yes 65, no 31; new building, yes 56, no 36; sterilization, yes 56, no 32; county attorney, yes 80, no 14; compensation, yes 76, no 16; bonds, yes 76, no 18.

BONDS CLOSE AT LAIDLAW.
LAIDLAW, Nov. 5.—Twenty women voted here yesterday. Laidlaw showed itself in favor of all the measures, even the bonding carrying by a small margin, 47 to 39. The judges were C. P. Becker, Fred Wilson and W. H. May. Floyd Scott, W. D. Barnes and Fred Wallace served as clerks. The vote follows: university building, yes 51, no 18; new building, yes 47, no 29; sterilization, yes 42, no 29; county attorney, yes 62, no 19; compensation, yes 75, no 11; bonds, yes 47, no 29.

WOMEN DON'T VOTE IN LAVA.
ALLEN'S RANCH, Nov. 5.—No women voted at the election in Lava precinct here yesterday. The vote stands: university building, yes 5, no 4; new building, yes 6, no 2; sterilization, yes 6, no 10; attorney, yes 9, no 1; compensation, yes 5, no 4; bonds, yes 5, no 5.

MADRAS DOWNS BONDS HARD.
MADRAS, Nov. 5.—Evidently the farmers in this section, which comes nearer to being Springer territory than any other, were pretty well stirred up against the bond issue, as they turned it down in Madras precinct 65 to 10. Madras was on the proposed road, too. The other returns are: university building, yes 58, no 16; new building, yes 37, no 16; sterilization, yes 21, no 41; attorney, yes 63, no 14; compensation, yes 59, no 15; bonds, yes 16, no 65.

POWELL BUTTE AGAINST BONDS.
POWELL BUTTE, Nov. 5.—With 20 voting, at the Shepherd school house, all the referenced measures except the university building appropriation were endorsed, while the road bonds were turned down. A few women voted. Mrs. C. M. Charlton was a clerk, being the first woman to officiate on an election board as well as the first to cast a ballot in this district. The judges were Earl Saunders, Joe Elliott and Ora Foster. The clerks were Mr. and Mrs. C. M. Charlton and Allen Wilcoxson. The vote was as follows: University building, yes 11, no 7; university new building, yes 2, no 6; sterilization, yes 10, no 9; county attorney, yes 15, no 3; compensation, yes 13, no 6; road bonds, yes 6, no 14.

BALLOTS LATE AT LA PINE.
LA PINE, Nov. 5.—With only 15 votes cast, the La Pine ladies showed they are on the political job by rep-

(continued on page four)

TAMMANY YOKE OFF NEW YORK

FUSION TICKET AND SULZER WIN

Democrats Are Victorious in Massachusetts, Maryland, New Jersey and Virginia in Yesterday's Elections in Those States.

(Special to The Bulletin)
NEW YORK, Nov. 5.—A landslide of fusion ballots struck the Tammany tiger yesterday, mutilating that political beast so severely that its enemies claim that it is out of the running for many moons to come.

John Purroy Mitchell is next mayor of New York City, and with him his entire ticket will go into office. Also, Sulzer, the deposed Governor, is elected to the assembly by a big majority. "Chief" Murphy of Tammany Hall has been hard hit by the Sulzer boomerang, for even a great portion of the faithful east side wards deserted the Tammany colors after the fierce attacks delivered against its boss by Sulzer and his lieutenants.

In Massachusetts, Maryland, New Jersey and Virginia the Democratic party has come out on top handsomely. In the Bay State David L. Walsh, Democrat, won from the Progressive, Bird, for Governor, by a comfortable margin. In Maryland Blair Lee, Democrat, was elected United States Senator, defeating a Republican and a Progressive. Harry C. Stuart, another Democrat, was chosen Governor of Virginia. In New Jersey the Democratic gubernatorial candidate, James T. Fieider, won.

STAPLETON-EASTES WEDDING.
This afternoon about 5:30 will occur the wedding of Miss Edith Eastes, daughter of Mr. and Mrs. J. A. Eastes, to George Stapleton of San Francisco. Father Butler will perform the ceremony, which will be very quiet. From 6 to 7:30 there will be a reception at the Altamont, a feature of which will be chorus singing by the girl friends of the bride. It is understood that Mr. and Mrs. Stapleton will leave for Portland on tonight's train.

MISS EASTES ENTERTAINED.
Mrs. H. W. Skuse and Mrs. R. B. Gould were hostesses at a shower given Miss Edith Eastes Saturday. Monday the bridal party dined at the home of Mr. and Mrs. Pringle. Yesterday Miss Eastes and her fiancé, George Stapleton, together with Miss Sara Perry and D. M. Davis, were guests at a bridal luncheon given by Mrs. G. P. Putnam.

SMALL DAMAGE BY FOREST FIRES

RECENT SEASON WAS A GOOD ONE

Many Minor Fires Occurred But All Were Easily Checked—Loss Slightly Over \$1000—Few Set by Campers During the Summer.

With the close of the fire season, the local forestry officers and the Deschutes Valley Fire Patrol Association have taken a reckoning of work done and results accomplished during the past summer. Although the number of fires has been somewhat larger than during the season of 1912, the organization has been such that all have been quickly reached by the fighters and easily extinguished before doing much damage.

The forest service had the largest territory to cover this year and to a great extent the least accessible as the timber land nearer at hand is all privately owned. In all about one million acres have been under the forest service patrol and 13 men have been employed in the work. These have also been of assistance in the watching of private lands, of which the amount under supervision was 175,000 acres. Two men have been regularly employed by the Deschutes association and others occasionally when fires have occurred.

In all, the forest service, according to Supervisor Merritt, has had 108 fires, of which 93 were under a fourth of an acre. Only 11 burned over more than 10 acres, while the total acreage burned amounted to 1061 at a total loss of \$1216. On private lands there were only four fires and 56 acres were burned over. The cost of extinguishing the fires in the national forests was about \$10 each, while the total cost of maintenance of the fire patrol system is estimated at about \$1500. This does not include the expense of building new telephone lines which have been of the greatest value in fire fighting by providing a means of quickly reporting blazes and summoning assistance. Some 64 miles of line and trail have been built this year and 32 are planned for next year, which will furnish complete inter-communication between headquarters and the different stations in the forest.

Most of the fires for which a cause could be ascertained started either from lightning or campers' carelessness. Speaking of the latter, Mr. Merritt said that he regarded it as a very encouraging sign that only 17 fires were started by campers when probably as many as 5000 were in the woods during the summer at different times. The record was even more remarkable when it is considered that these 17 a large proportion was not started by sportmen but by travelers who built fires by the roadside.

The total cost per acre of the fire patrol was about one-fourth of a cent in the case of the national forests and slightly more for the private acreage, the difference in the two amounts arising from the fact that in the latter case the costs are spread over a much larger acreage. With the trails and telephone lines that have been put in this year and are

planned for next year, and with the organization that has been built up, the local forests will have a protection in the coming years that will go far toward minimizing losses.

BRICK BUILDING WILL HAVE TWO STORIES

Masonic Hall and Four Offices Are Planned For Second Floor of New Structure That is Being Built.

The brick building being erected at the corner of Wall and Oregon streets by the Deschutes Investment Co. will be of two stories instead of one, as originally planned, thus adding another substantial modern building to the list of local structures. The upper floor of the building will have a 50 foot frontage on Wall street and a depth of 90 feet for half of the width, the southerly 25 feet being only 30 feet deep. The room in the rear, 25 by 60 feet, has been leased by the Bend Lodge of Masons, who will move in as soon as the building is completed. In addition to the Masons' hall there will be four offices.

Entrance to the upper floor will be from the rear of the structure, the stairs coming out on Oregon street.

KLAMATH BONDS ASSURED

Crescent Meeting Endorses Road Building Scheme.

(Special to The Bulletin)
CRESCENT, Nov. 4.—An enthusiastic good roads meeting was held here Saturday night at which Judge W. B. Worden and Commissioner John Hagelstein were the chief speakers. Local Supervisor John Knott and H. P. Hoy were also in evidence. The move to bond Klamath county for \$220,000 for road construction was unanimously endorsed. Judge Worden explained that the route would include a through road from the Crook county line near La Pine to California, and a side road from Crescent to Odell lake. The road will be 30 feet wide, with an additional 15-foot clearing on each side. The petitions will be circulated commencing November 15; the County Court will act December 1, and the election will be called for December 20. Judge Worden stated that the county assessment will total close to \$17,000,000 this year. Reports from all parts of the county indicate a big majority for the bond issue.

SASH FACTORY BURNED.

The plant of the Bend Sash & Door Co. was destroyed by fire Monday night. The origin of the fire is unknown. The blaze was discovered by R. Struble, one of the proprietors, who lives in the neighborhood, about 11 o'clock. It had apparently started in a corner of the shop and had spread so rapidly that there was no hope of extinguishing it. The plant including machinery and stock on hand, both rough and finished, was a total loss. The total damage runs up to about \$6000, of which about half was covered by insurance. It is expected that the factory will be rebuilt as the business was just developing with many orders ahead.

CHENEY HERE SUNDAY.

W. D. Cheney of Seattle, president of the Bend Park Company, was here Sunday. Dr. U. C. Coe, who had been in Portland for a week, came in with Mr. Cheney, and with them were Dr. Edward Allen Pierce, the noted physician of Portland, and F. T. Watson, a publicity man of large experience who has served as manager of several large commercial organizations throughout the Northwest. Sunday evening Mr. Cheney entertained the Emblem Club at a dinner at Corbett's.

APPROPRIATIONS ARE UPHELD

STERILIZATION IS ONLY DEFEATED BILL

Multnomah County Bridge Bond Issue Carries—Salem, Oregon City and Other Towns Go Dry—Clatsop County Votes For Bonds.

(Special to The Bulletin)
PORTLAND, Nov. 5.—2 p. m.—

With the exception of the sterilization act, all the referenced measures put up to the people yesterday were sustained by overwhelming majorities. The sterilization act was defeated by what promises to be a rather small margin, when all the returns are in. A comparatively tight vote was cast throughout the state.

The Multnomah bridge bond issue carried comfortably, as did the road bond issue in Clatsop county. In Salem, and many smaller towns where local option elections were held prohibition won, and next year the capital will be a dry town. Incomplete reports from The Dalles indicate that that town will remain wet. Oregon City joins the ranks of the drys.

The most notable vote was that on the university appropriations act, which carried by more than two to one. These seemed to evoke more interest than any of the others.

CITY REGISTRATION IS 284

Six Candidates File Nominating Petitions With Recorder.

The city registration books closed Saturday night, and those not registered will be obliged to be sworn in by six freeholders at the polls December 2. In all 284 registered, of whom 197 are men and 87 women. At last year's municipal election 363 votes were cast, 112 of them being women's. In 1911 the total vote was 297, at a hot election when a far larger proportion of voters went to the polls than exercised the franchise last year.

Thus far but six candidates have filed petitions of nomination with the recorder, a step which is required in order to have their names placed on the candidates in the field are H. A. Miller for mayor; J. D. Davidson, Ralph Polindexter, H. J. Overturn and Theodore Aune for councilmen, and Miss Mary E. Coleman for treasurer.

COUNCIL MEETING.

At the council meeting last night bills were ordered paid and the street committee was directed to take up with the city attorney the matter of preparing an ordinance to regulate the style and manner of erection of lamp posts on the streets. Hereafter no bills will be paid unless they are accompanied by the order under which the work was done or the material furnished.

We are now occupying temporary quarters on Wall Street, south of the Bean Building. We expect to move into our new building at the old location, corner of Wall and Oregon Streets, about the first of the year. We are working under disadvantages and we will ask our friends to bear with us during this time. We shall continue to serve them to the best of our ability.
