# Stop the Loss===Fires are Unnecessary

Brick is absolutely fire proof in any ordinary conflagration. Brick Buildings never burn, although they are sometimes injured by falling timbers or combustible interior woodwork.

A brick building is absolutely fire proof if wire glass is used in the windows and if burned clay floors are used.

An interior fire in such a building is confined to the room in which it originates; no outside fire can attack it,

The proportion of burned clay in a building construction measures its fire proof qualities.

Burned clay is the only building material that has been through the fire before you get it, in such a manner that it will resist fire. All combustible material is burned out of the brick before you get it.

WHEN YOU BUILD USE BRICK.

#### her home by illness.

The Hallowe'en party given by the Ladies' Civic Club at the home of Mrs. Smith Friday was a jolly and well attended affair, the spirit of Hallowe'en being carried out in decorations and costumes. The evening was spent at cards, Tom McCord win-ning first prize, while Tom Hyskell won a favor for the least number of games. A novel lunch was served at a late hour and before the party dispersed some growsome ghost stories were told by a number of the guests.

HELD \*

(Special to The Bullctin)

HELD, Oct. 27 .- Mr. and Mrs. P. Held have retarded from Princylle where they scent a few days with friends and relatives.

Mr. Durkey and son have been spending a few days with the Martine

Jack Rivers returned from Bend Sunday morning with a load of groceries for his store.

All the homesteaders are busy burning, grabbing and plowing ange-brush, getting ready for their spring crons.

Frank Carpenter is working on his new house. He will make a trip to Bend in a few days.

Frank Mickils returned to his homestead last week. He had a splendid crop of potatoes waiting for him.

Charles H. Genung's new cottage will soon be ready to move into,

1.

Martin Hallmeyer has been on the sick list for the past five or six weeks. Clyde A. Bandey is husy picking

sagebrush out of a 20-acre plowed field.

3. Mrs. William Wiggam left for Bend Monday.

The Pringle Flats school is get-ting along nicely under the supervis-ion of Max Nelson.

As soon as the well-drillers are through drilling at Mr. Davis' they will drill for H, R. Martin.

Charles Houston. Miss Ida Hous-ton and brother Elmer from Bear creek paid a visit to this neighbor-hood Sunday.

zig building on Oregon street at the end of the week and will be prepared to show you a larger and more complete and up-to-date line of furniture and house furnishings. My endeavor will be to merit a continuance of your patronage by good service and square dealing.

A SQUARE DEAL TO EVERY CUSTOMER.

## **Fall Painting** Economy

The wood is thoroughly dry. ummer's sun has removed all moisture.

Paint penetrates deeper into dry wood. The deeper it goes the better it holds.

Fall weather is warm, dry and dependable. Little danger of cold, damp, rainy days, which endanger the durability of the paint.

Wet weather decays and destroys unprotected surfaces.

Lack of paint means unsightly and less valuable property.

Fall painting keeps out winter moisture. 5. The greatest enemy to the life and beauty of all structures.

If it's a surface to be painted, enameled, stained, varnished or finished in any way, there's an Acme Quality Kind to fit the purpose. BEND HARDWARE COMPANY

hy Should Everyone

Because, the man who owns a home or is trying to pay for one bought on the installment plan makes a better citizen, and is entitled to more credit and respect than the one who has no home, nor is making the necessary effort to get one. A home speaks to the heart, enlists the sentiments, ennobles the possessor. If one buys right, he will know that his property is steadily increasing in value while he occupies it. This is especially true ANYWHERE IN BEND.

You can buy **RIGHT** from us because we have nearly every addition in town and can show you lots anywhere you might wish to look. Here is our list:
