## ANNOUNCE RULES OF SETTLEMENT

Description of Tracts Open to Settlement in Deschutes and Paulina Forests is Sent Out—Prospective Settlers Already Here.

Although the opening of the Deschutes and Paulina lands is still six weeks away forerunners of the expected body of settlers are arriving and making their preparations to take up lands when the time comes.

The Dalles Land Office announces that the lands will be open for settlement under the homestead laws at 9 a. m. on May 9, 1914, and to enter on June 8. The statement from the Dalles says further that "no persons who go upon any of the lands and perform any act of settlement thereon from and including the date of the President's Proclamation until 9 o'clock a. m., May 9, 1914, or who are on or occupying any part of such lands at said hour, except those having valid subsisting settlement rights initiated prior to reclamation and since maintained, will be considered and dealt with as trespassers and preference will be given the prior legal applicant, notwithstanding such unlawful settlement or occupancy."

Reliable—Foley's Honey and Tar Compound.

Just be sure that you buy Foley's Honey and Tar Compound—it is a reliable medicine for coughs, colds, croup, whooping coughs, bronchial and la grippe coughs, which are weakening to the system. It also gives prompt and definite results for hoarseness, tickling throat and stuffy wheezy breathing. Patterson Drug Co.—Adv.

Some Lands Withdrawn.

Of the lands eliminated from the forests as shown above, large tracts have been withdrawn from entry in connection with reclamation investigations now being carried on. The largest of these covers much of the land along the river in the Deschutes forest which is withdrawn in connection with the Benham Falls project and survey. In addition, according to word received in Bend this week, about two thirds of the eliminated area near Crescent has been re-withdrawn for reclamation purposes. Verification of this last statement has not yet been received.

## A Concrete SKYSCRAPER IN BEND

In 1914 would be out of place. It would be a few years ahead of the times. Not so however with concrete FLOORS, SIDEWALKS, STEPS, CISTERNS, ROOFS, ROADS, Etc., Etc. No material is cheaper or more durable for these purposes than CONCRETE.

And when you build of CONCRETE, use only the best cement, sand and gravel. It is cheaper in the end.

We can supply you with the proper sizes of washed sand and screened gravel for your particular purpose. Ask for quotations.

## MEASURING STREAM FLOW

Geological Survey Bureau Takes Annual Gage of Deschutes.

The Deschutes river is just now going through the annual process of having its measure taken. Paul V. Hodges of the water resources branch of the United States Geological survey began work on the river in this connection on Monday. This work is done by the survey every year and records are now available showing the amount of water in the river at Bend at stated periods for the past 11 years.

In addition to the measurements taken here the work is done also in

the various canals which take water from the river and a number of different points on the stream.

Before coming to Bend Monday Mr. Hodges measured the rivers at Prineville.

## DON'T KNOW THEY HAVE APPENDICITIS

Many Bend people have chronic appendicitis (which is not very painful) and think it is just bowel or stomach trouble. Some have doctor for years for gas on the stomach, sour stomach or constipation and the Patterano Drug Co. states if they will try simple buckthorn bark, glycerine, etc., as compounded in Adlerika, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE stops these troubles INSTANTLY.—Adv.

A few hours at a nice classy, clean, up-to-date place especially prepared for gentlemen, will remove all worry and troubles. The Metropolitan.—Adv.
