A shipment of 2500 trees is due to arrive in Sisters the last of this week. They are being shipped here by the forest service for use in their reforestation experiment work.

The trees, which are Yellow and Scotch pine, will be taken to the burned district west of the head of the Metolius river where they will be planted and protected in order to give them a fair chance and determine whether reforestation will prove a success. The work of planting will be done under the direction of H. E. Vincent, who will spend next week in the task.

Reforestation has been under way by the forest service for a number of years, the result so far being favorable for success.

EASTER OBSERVANCE. Easter was observed in the different Bend churches by special services and extra music, large congregations attending in nearly every case. At the Catholic church in the morning a special choir rendered music and there was hardly standing room in the building. Many also attended the Baptist services in the forenoon. At the Presbyterian church in the evening a well arranged musical program was given under the leadership of Mrs. Ashley Forrest and at the Methodist church the evening service was well attended. In the afternoon Rev.

Newham conducted a service at Deschutes, the school house being well filled.

Just received a dandy line of candies, such as chocolate dipped caramels, chocolate almonds, chocolate creams put up in 5 and 10 cent cartons. This makes them perfectly sanitary, free from dust and flies. The Metropolitan.—Adv.
