BEND, OREGON, WEDNESDAY AFTERNOON, APRIL 22, 1914.

NO. 7.

ROAD WORK TO BE DONE FRIDAY

TO PUT CINDERS ON OREGON STREET

In Addition New Plan Contemplates Betterment of All Business Streets in the City—Council Votes to Co-Operate in Doing Work

Friday, the 24th will be observed here as Good Roads Day. All volunteer workers are to meet on Oregon street Friday morning at 7:30 and be taken to the points where work is to be done. All auto owners are urged to be on hand at that time to assist in distributing the workers. Bring picks and shovels.

Out of the confusion which has surrounded the plans for good roads day there has developed a far reaching scheme for road work in this vicinity, which if carried through, will mean a decided improvement in the streets in the business district of the city, the construction of a road connecting Wall street with the new Laidlaw road and work on the other roads leading from the town into the country to make them more passable for traffic.

The plan as now outlined is the result of several causes, including the general agitation for good roads day and the feeling that with the county road workers busy on the outskirts of the city some arrangement should be made to co-operate with them in connecting the city with the roads they have been improving. The public spirited work being done by J. A. Eastes and the co-operation pledged by the city council at its meeting last night seem to assure the complete carrying out of the whole idea.

At the Commercial Club luncheon Saturday it was left with the committee formerly appointed to make all plans for the good roads day and at a meeting Monday night it was decided that the work should be done on Friday and that the chief efforts of the day should be put on Oregon street between Wall and Bond, using cinders from the pit at Pilot Butte. Sub-committees were appointed to arrange for the details.

The ready response in pledges to provide teams to do the hauling led J. A. Eastes, who circulated the paper, to conceive the idea that a still larger number might be obtained and with the aid of the council, that all the business streets of the city might be treated with cinders. He presented the proposition to the council last night and a vote was passed to the effect that the city would duplicate the yardage of cinders hauled by private subscription if not less than 125 teams were pledged. In addition the city will build a hopper at the pit and furnish the loading of the material and supervision of the work.

Today Mr. Eastes had obtained further pledges and now has over 50 teams signed up for the work if the full 125 can be secured. In view of the ready response found so far he is confident that the plan will be carried through. If the full number is secured it is hoped that arrangements

PROCLAMATION!
Saturday, April 25, has been declared by the Governor of Oregon as "Good Roads Day." All citizens of the state are urged to work upon roads. In Bend, special plans have been made for organized road improvement. This to be done Friday, April 24, as to interfere with business as little as possible. Therefore I earnestly request all merchants to close their places of business on Friday and to co-operate in the work, declaring it for the City of Bend a "Good Roads Holiday."
H. A. MILLER, Mayor.

can be made with the county for the use of the county road roller on the streets.

For Friday the plan, as outlined above, is to concentrate the work on Oregon street. All workers are to meet on Oregon street at 7:30 a. m. and from there be distributed over the job. Some will go out to the pit to load teams, some will work on that street and others, in small parties, will visit different points on the roads in the surrounding country and remove rocks and make fills wherever necessary. M. J. Danielson is to have charge of all crews and under him there will be captains to oversee the work in the outlying districts.

To Connect With Laidlaw Road.
Besides taking this action the council directed the streets committee to take steps to have Wall street connected with the improved Laidlaw road over the lines as laid out, discontinuing the road now in use. The committee is to confer with county commissioner Bayley and obtain his co-operation on this and other routes into town and, it is expected, will get out the city's drilling outfit for the joint use of the city and the county. If arrangements can be made the Wall street work will be done at once and later the county crews will be moved out to the Burns road.

BREWER GIVES TALK AT CLUB LUNCHEON SATURDAY

Describes Plan For Land Listings, Tells How to Increase Membership and Asks Help in Investigation.

In addition to the subjects of creamery and good roads discussion at the Commercial Club luncheon Saturday the meeting heard a talk from J. W. Brewer, of the farm lands bureau of the Oregon Immigration Commission, describing the plan to list all farms which are for sale, suggesting ways of increasing the membership of the club and asking for assistance in the investigation of the eliminated lands to the south which he was about to make.

The matter of the land listings as described by Mr. Brewer was explained in The Bulletin last week. He urged that a special effort be made to have all lands for sale in this neighborhood listed and stated that new blanks had been furnished Robert H. Gould for this purpose.

The plan for increasing the membership was one, Mr. Brewer said that had been tried with great success in both Prineville and Redmond. Two captains were appointed who chose assistants and the teams then made a general canvass for new members. At the end of a stated time the side which had obtained the fewest members gave a dinner to the other side.

In the matter of the eliminated lands, opinions as to their value differed to such an extent that the Immigration Commission had sent him, he said, to make a thorough investigation with the idea of publishing his conclusions for the benefit of an intending settlers. Mr. Brewer left for La Pine Monday morning.

16 CANDIDATES FILE IN COUNTY

WOMAN OUT FOR OFFICE OF CLERK

Of The Sixteen, Eleven Hail From Prineville—Surveyor Rice Does Not Run Again—New Man In Sheriff Race Is From Madras.

(Special to The Bulletin.)
PRINEVILLE, April 21.—Last Wednesday was the last day upon which candidates could file their petitions with the county clerk. In all, 16 office seekers have filed. Among them is one woman, Miss Caludia Wonderly, who aspires to become county clerk.

The list of candidates is as follows. Those marked * are in office and are up for re-election.

For clerk: Warren Brown*, Claudie Wonderly and J. E. Adamson.
For treasurer: Ralph Jordan* and John W. Morgan.

For sheriff: Frank Elkins*, E. B. Knox and E. L. Milner.
For surveyor: R. L. Brewster, H. A. Kelly and Wade Huston.

For commissioner: R. H. Bayley*, J. F. Blanchard and E. W. Richardson.

For coroner: P. B. Poindexter*.

It will be noted that 11 of the 16 are Prineville men.

In addition to the feminine candidacy, with its possible line-up on woman's suffrage, the only other surprise is that F. A. Rice, the present county surveyor, has not entered the race again.

The third candidate for sheriff, who entered the running at the last minute, E. L. Milner, hails from Madras. In writing to this paper of his candidacy, he says:

"I came to this country from Portland four years ago, and have been with the Madras Flour Mills as a miller. Recently I have purchased a farm and am improving it. In the race I am not supported by any ring or clique, but am just a peoples' candidate."

Mr. Elkins, the present incumbent, stands on his record for re-election.

Mr. Knox, a Democrat, runs on the assurance of strict and economical administration of his office. He writes: "If elected I shall not retain Elkins' deputies."

ASSESSOR HERE AGAIN

Deputy For Bend Will Be Z. N. Brown, Who Did Work Before.

Z. N. Brown of Redmond, who acted as assessor Foster's deputy last year in the assessment of Prineville, Redmond and Bend, arrived yesterday morning and will begin the work of assessment here for the year 1914 immediately. This season Mr. Brown will handle only Redmond and Bend. It is understood that Mr. Foster may handle Prineville himself.

Mr. Brown asks that all who have complaint concerning last years assessments, or who have found mistakes, come to him at once so that corrections can be made. He will be found at Hunter & Staats' office, and will be here probably a couple of weeks.

ODD FELLOWS TO CELEBRATE

TO OBSERVE ORDER'S ANNIVERSARY

Program Includes Attendance at Church, Dinner and Special Anniversary Services—Many From Out of Town to Be Present.

On Sunday the local lodge of Odd Fellows will celebrate the 95th anniversary of the order in America with special services which all members of the order in the surrounding country are invited to attend as well as all the general public. A special invitation has been given to the lodges in the neighboring towns and it is expected that many will be present from Prineville, Redmond, Laidlaw and Culver, and other points along the railroad. The events of the day include attendance at two church services and a dinner.

In the morning the members of the order with their wives and the Rebekahs will meet at 10 o'clock at the lodge rooms in Sather's Hall and at 10:30 march to the Presbyterian church where services will be begun at 11. The sermon will be preached by the pastor, Rev. G. H. Wilkins on the subject, "Friendship."

From the church the march will be taken up to the Wright Hotel where dinner will be served after which, at 2 o'clock, the order will return to the church for the anniversary services consisting of the following program:

Singing by the choir, hymn No. 188 in Westminster Hymnal. Prayer by the Chaplain. Solo by Sister Wingate. Reading of Proclamation by the Secretary. Song Anniversary Hymn. Ceremony by the Noble Grand and the Vice Grand, Song, Thanksgiving Hymn. Prayer by the Chaplain. Address by Rev. G. H. Wilkins. Solo by Miss Black. Address by Rev. O. A. Walker. Remarks by Brother A. L. Gove. Remarks by the Noble Grand. Song, Our Flag. Closing with benediction by the Chaplain.

The committee on arrangements consists of N. P. Weider, C. W. Thornthwaite, J. W. Goucher, Bert Shuey and N. W. Caldwell and the musical program at the church will be in charge of Mrs. Ashley Forrest.

SON IS IN MARINE CORPS
Byrd Lowell is Now on American War Vessel on Coast of Mexico.

George Lowell, who lives 7 miles out on the Bend-Burns road, is especially interested in the recent developments in the Mexican trouble by reason of the fact that one of his sons is in the United States marine corps now stationed on an American war vessel in Mexican waters. This son, Byrd Lowell, went up to Walla Walla for the harvest last fall and while there enlisted.

According to Mr. Lowell the family has been represented on the American side in every war the United States has been engaged in. He himself was in the Civil war and another son was in the hospital corps in the Philippines during the war with Spain.

TO REDUCE WATER RATES.

With the completion of the work of laying pipe to connect the city mains with the Kenwood system manager Foley of the Bend Water Light & Power Co. announces that in view of the expected increase in their business the company has decided to lower its rates for water service. The flat rate for residences will hereafter be \$1.10 instead of \$1.50 per month and material reductions are also made in the rate for fixtures.

FIRST WOOL ARRIVES.

The first shipment of wool to be received at the local warehouse this season came in this morning. It comes from Fitzpatrick & Cronin of Paisley and consists of 25 sacks weighing about 7500 pounds.

FIND BODY OF JESSE POUCH.

The body of Jesse Pouch, who disappeared from his homestead last winter, was found last week at the foot of a cliff in the neighboring country. It is supposed that he wandered from his cabin and fell over the cliff.

THE ROAD FROM BEND TO LAKEVIEW IN GOOD SHAPE

George S. Young Reports Road Which Prineville Hopes Will Be Open Year Round In Bad Shape

Friends of George S. Young here have received letters from him containing interesting information concerning the Lakeview country, where he is at present doing engineering work.

Mr. Young points out that the roads from Bend to within 25 miles of Lakeview are in excellent shape. Beyond that point they have much sticky "gumbo." While Prineville people have been attempting to establish what they call "an all the year round" road from Prineville to Lakeview, Mr. Young says that such is an impossibility, as the roads are practically impassable for a couple of winter months. North and South roads from Bend, on the contrary, are reasonably dry and passable for 12 months.

With the exception of the immediate Lakeview country, Mr. Young says Northern Lake county has admirable roads. He reports finding a very friendly feeling toward Bend in that territory.

TWO FIRES IN PAST WEEK
Triplet House Scorched on Saturday—Slight Damage at Wright Hotel.

The first fire for several months occurred on Saturday about 1:20 in the afternoon, when a blaze started from the chimney in the Triplet house on Ohio street. It was discovered promptly and assistance obtained at once with the result that the fire was confined to the kitchen and the roof above it. The damage amounted to about \$150.

Monday night about 10 o'clock fire was discovered in the basement below the sample room at the Wright Hotel, having started apparently from the furnace. Before it was put out it damaged that room somewhat and injured a number of pieces of furniture stored in the basement which were to go toward furnishing the new home of Joe Bozell and Miss Goldie Hoke, who are to be married next Wednesday. The fireproof walls of the building prevented much additional damage. The loss was some what over \$100 covered by insurance.

TO MAKE SEEPAGE STUDY
John Dubuis Arrives From Salem to Begin Summer's Work.

John Dubuis, inspector for the Desert Land Board, arrived in town this morning with Mrs. Dubuis. They will be here all summer and have taken the Robertson cottage on Front street, formerly occupied by the Overturs.

Mr. Dubuis will devote the summer to a study of the Central Oregon Irrigation Company system, with especial reference to the matter of canal capacity and seepage. In an effort to procure sufficient data for the board to enable it to take intelligent action on matters that come before it. To aid him in his work Mr. Dubuis asks that farmers who are willing to keep records of the water delivered through their laterals communicate with him. In connection with this Mr. Dubuis will make a survey of the reporting farms and at the end of the season furnish this to the owner with a complete water record.

Keep Your Valuable Papers In Our Vault

The best and safest place in the world to keep fire and life insurance policies, notes coming due, mortgages, deeds—in fact all valuable papers—is in a fire-proof vault.

Every one cannot afford to have a steel vault, or even a fire-proof safe in his home, but every one can afford to keep his valuable papers in our vault because the rental charged is as nothing compared with the protection afforded.

You can lease a steel box with a non-pickable, Yale lock—big enough to contain all your valuable papers inside our vault, for only \$2.00 a year.

Drop in next time you're passing.
