## Digester Tankage

Made by the Union Meat Co., North Portland, Ore.  
**NOW on Sale in BEND**

WHETHER YOU RAISE THREE HOGS OR THREE HUNDRED, YOU CANNOT AFFORD TO OVERLOOK THIS FAMOUS HOG FOOD. READ WHAT J. M. FRUITTS, OF JOSEPH, OREGON, SAYS ABOUT DIGESTER TANKAGE.

Union Meat Company, Joseph, Oregon, North Portland, Oregon. March 25th, 1914.

Dear Sirs:—  
 In reference to the results obtained from your Digester Tankage, I have found it to be a profitable and satisfactory feed. It has no superior as a feed for brood sows. Its high percentage of protein makes it a great developer for the unborn pig.

It makes strong boned pigs with nice glossy coats. In the show ring it has no equal to my judgment. During the past winter I have fed tankage to my young pigs and have never met with greater success.

Very truly yours,  
 (Signed) J. M. FRUITTS.

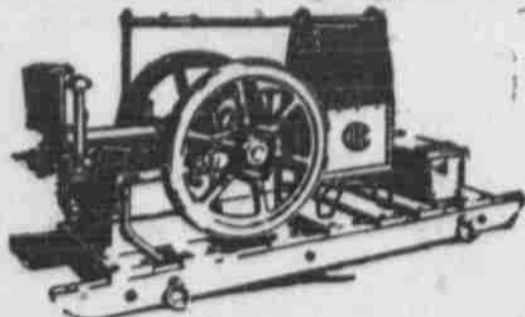

DIGESTER TANKAGE is made from fresh, wholesome pieces of meat. It develops bone and muscle and makes pigs GROW. Endorsed by all leading Agricultural Experiment Stations and by the best breeders and feeders in every state. It's a meal in form, fed wet or dry, mixed with other foods.

DIGESTER TANKAGE can be purchased in Bend at our warehouse. We have purchased this hog food in a carload lot and can give you the benefit of this saving in freight.

If you want your pigs to grow into fat, healthy hogs, send in your order now to

 GENERAL LINE  
 Oil and Gas Engines, Oil Tractors, Mower Separators, Cream Separators, Farm Wagon, Motor Trucks, Turbines, Grain Drills, Feed Grinders, Kalle Grinders, Binder Tines

**SUCCESSFUL farmers are no longer asking, "Shall I buy an engine?"**

They have passed that point and now inquire, "Which engine shall I buy?"

A little careful observation will show that International Harvester engines are the most satisfactory. No doubt is left when features like the following are studied: Detachable valve guides, offset cylinder head, fuel pump, split-hub fly-wheels, extra large intake and exhaust valves, etc.

Ask the men who have used IHC engines. That is the best test. They will explain the excellence of IHC construction, simplicity, strength and durability. Study the engines yourself at the nearest dealer's where International Harvester engines are sold. They are made in all styles, and range in size from 3 to 50-H. P. They operate on low and high grade fuels.

Write for our interesting and instructive catalogues, and when we send them we will tell you where the engines may be seen. A postal will do.

## Stop the Loss—Fires are Unnecessary

BRICK IS ABSOLUTELY FIRE PROOF IN ANY ORDINARY CONFLAGRATION.

BRICK BUILDINGS NEVER BURN, ALTHOUGH THEY ARE SOMETIMES INJURED BY FALLING TIMBERS OR COMBUSTIBLE INTERIOR WOODWORK.

A BRICK BUILDING IS ABSOLUTELY FIRE PROOF IF WIRE GLASS IS USED IN THE WINDOWS AND IF BURNED CLAY FLOORS ARE USED.

AN INTERIOR FIRE IN SUCH A BUILDING IS CONFINED TO THE ROOM IN WHICH IT ORIGINATES; NO OUTSIDE FIRE CAN ATTACK IT.

THE PROPORTION OF BURNED CLAY IN BUILDING CONSTRUCTION MEASURES ITS FIRE PROOF QUALITIES.

BURNED CLAY IS THE ONLY BUILDING MATERIAL THAT HAS BEEN THROUGH THE FIRE BEFORE YOU GET IT. IN SUCH A MANNER THAT IT WILL RESIST FIRE. ALL COMBUSTIBLE MATERIAL IS BURNED OUT OF THE BRICK BEFORE YOU GET IT.

WHEN YOU BUILD USE BRICK.
