## CLUB GETS 182 NEW MEMBERS

### LUNCHEON FOR ALL ON SATURDAY

Gould's Team Beats Eastes' Team by 10 Members—Many Farmers Join Organization—Contest Creates Fun—Luncheon on Saturday.

As a result of the member-getting contest, which closed Saturday, the Bend Commercial Club has 182 new members. Announcement of the outcome of the contest for new members in which two teams have been working for a week, was made by President Keyes at the luncheon held last week at the Pilot Butte Hotel. The team captained by H. B. Gould won over the J. A. Eastes' team, securing 96 members to their opponent's 86.

A great deal of interest centered on the contest, and both sides worked hard as is indicated by the excellent results. The list of new members, given below, shows that most everyone in town was lined up by the solicitors. A very few declined, but practically everyone with a business or a steady position came through in good style and paid their monthly subscription of \$1.00. That no one may feel offended by being overlooked the Club workers will do all they can from now on toward getting still more new members, and anyone who feels willing to contribute toward community work may feel at perfect liberty to become a member and pay the dues, says Manager De Armond.

By agreement of the two teams, the old members will be hosts to the new members at a luncheon to be held next Saturday in the Pulk's building on Wall street, recently occupied by the roller skating rink. It is hoped that a big gathering will attend, and all farmers are especially invited to be present.

**Some Wagers Laid.**

Just before the results were announced a few bets were made by members of the two teams, and as a result of one wager at least three men are due to have their heads shaved some time soon. The three losers state positively they intend to live up to their obligation, but as time was not the essence of their contract, they may delay patronizing the barber for a couple of weeks.

The personnel of the two teams was given last week. Here are the names of the new members:

Gould's team—J. H. Connors, D. T. Carmody, C. W. Thornthwait, J. B. Godfrey, N. P. Smith, H. Latham, H. Palmer, J. M. Judd, O. A. Thorson, Henkle & Ryan, R. R. Henkle, C. J. Leverett, M. L. Mezzitt, L. D. Fox, Metropolitan Barber Shop, E. A. Bennett, C. L. Rozell, Walter Combs, H. A. Gosner, G. W. Shiner, Fred Huey, J. B. Minor, L. M. Foss, R. G. Lamberson, J. F. Nacker, W. B. Crawford, J. H. Williams, M. D. Knutsen, R. P. Minter, R. H. Loven, B. Ferrell, Hugh O'Kane, H. J. Overtruff, Mrs. R. McIntosh, J. J. Ryan, Elmer Ward, H. C. Ruppel, G. W. Horner, M. S. Bullard, J. B. Wimer, P. W. Beasley, Thurman Cave, T. C. Merchant, Ram Blakeley, Edward F. Greene, H. B. Ford, J. J. Cohn, S. M.

(Continued on last page.)

**CREAMERY MACHINERY.**

At a meeting of the Creamery directors here last night all machinery for the plant was ordered. Purchase was made from Monroe & Crissell of Portland. The cost of the equipment totals about \$900. Shipment will be made immediately and Monday the buttermaker, H. R. Morgenstern will be here to commence installation. Every effort will be made to get the creamery in operation as speedily as possible, and already many who have been holding back, waiting until the plant actually was going before they went in with it, have signified their intention of "signing up."

### FORESTRY MAN KILLED

J. F. Pernot is Dashed to Death Against Tree.

J. F. Pernot, forest examiner, had one side of his head crushed to a pulp while on his way to Prineville last Wednesday from the Ochoco ranger station.

The accident happened near Starr's place, 18 miles east of Prineville. Mr. Pernot had charge of the insect control camp that has been conducting operations in the Badger creek country. Apparently Pernot was thrown from his horse, his head striking a tree trunk, upon which his brains were dashed. The body was taken to Portland, where Dr. Pernot, the deceased's brother, is City Bacteriologist.

### PRINEVILLE WINS BASEBALL

By 16 to 2 Score County Seat Defeats Local Nine.

Prineville won the baseball game played here Sunday by the decisive score of 16 to 2. The excellent county seat team with the redoubtable Jesse Tetherow in the box, had all the best of the game and deserved victory by a big margin, but nevertheless, player for player, Bend did not show up so ill in comparison, and had it not been for wooden headed baserunning, sleepy coaching and a couple of "blow ups" Bend might well have tallied a few more and Prineville a few less.

Storer and Van Matre, pitcher and catcher for Bend, did good work. A dozen or so less errors by the infield, and Storer would have shown up really well. The Prineville infield backed Tetherow to the Queen's taste and showed in all departments careful training. If one weakness in Bend's play showed up more than another, it was inability to run bases with any degree of intelligence. More team practice, snapper coaching, and a little brushing up all around will, however, put the local nine in respectable shape, and there is no reason why next time they should not give good account of themselves.

A good crowd saw the game, and the receipts were quite satisfactory. Before the next game the boys expect to wet down the field thoroughly and have the steam-roller pack it down.

The lineup was as follows: (Bend) Storer p, Van Matre c, Chet Springer 1b, McKay and Hunter 2b, Stover, ss, Steidl 3b, Paul rf, N. Springer cf, Hughes lf. (Prineville) Tetherow p, Hinkle c, Brewster 1b, Ellis 2b, Esterline, Decker 3b, Bowman rf, Dohy cf, Bristow lf.

## SHEEP BEGIN TO PASS THROUGH

### FIRST TRAINLOAD IN ON FRIDAY

Up to Tuesday Afternoon Four Trainloads Had Arrived From Coleman Bringing 15,000 Sheep—Bound for Summer Range Up River.

Trains whistling in in the middle of the afternoon, clouds of dust on the roads leading from the stock yards down to the Bend Company bridge and the baling of sheep have marked the beginning of the annual passage of sheep through town on their way out to the summer range.

The sheep began to come in on Friday and since then many hands have gone through town and on their way up river. For the most part these first arrivals go out to range on private property, those who spend the season on the forest range coming later when the snow is fully gone from the mountain sides.

Up to yesterday afternoon four trains had come in with a total of 69 cars. One car on each train is given over to the horses and equipment of the herders who accompany the sheep so that the net arrival to date has been 65 cars. As each car carries about 225 sheep the whole number to pass through town in the past four days has been in the neighborhood of 15,000.

All four trains came up from Coleman, about 60 miles north on the Oregon Trunk, the sheep having been driven in to that point from the winter quarters to the east and west. The shippers have been J. W. Fisher, J. V. Connell and Ewan McClennan.

### DIDN'T DRINK, GETS \$50

George Luckey of Prineville Gives Temperance Reward.

EUGENE, June 19.—Charles Croner, of Eugene, received a check for \$50 today because he had not touched whisky for a quarter of a century. The money was unexpected.

George Luckey, of Prineville, arrived today in Eugene. When he met Croner he handed him a check. "Charley, don't you remember when you were a little fellow and used to drive cattle with me," replied the cattleman, "I told you that if you would never touch whisky until you were 25 years old I would give you \$50? That was 50 years ago, but I'm good for my word."

**REGISTRATION ON AGAIN.**

Registration for the November election has now begun and the registration officers, J. A. Eastes and H. C. Ellis, are prepared to enroll voters. Those who had their names put on the lists before the primary need not register again, but all others should go before the officers to register and thereby avoid the difficulties of swearing in on election day.

## PLENTY OF FUN ON JULY FOURTH

### BABY SHOW ADDED TO PROGRAM

Two Baseball Games, Trap Shooting, Fine Feed, Unique Dance, Lots of Music Among Attractions—Care for Ladies and Children.

Two baseball games, a baby show, a trap shoot, plenty of athletic events, a parade, a fine feed, a unique dance and plenty of music are among the attractions that will be encountered by those who come to Bend on the Fourth of July.

The general program was given last week. Tonight, Wednesday, all the committees meet in the City Council room, and the final schedule will be figured out and will be printed next week, together with a list of prizes, names of contributors and other matters of interest.

The ladies on the auxiliary committee have been busy and have arranged most of their work. The big feed will be on the lawn beside Wall street, between The Bend Company office and Thompson's former location. Lumber for the tables is being loaned by the Bend Company, and the B. W. L. & P. Co. is loaning electric heaters upon which coffee will be warmed. All ladies in town and folks living near town are being solicited to make contributions of cake, bread, pie, milk, butter, etc. Already enough is lined up to insure the finest kind of lunch.

The old Thompson room, from which Thompson's furniture store has just moved, has been secured as a rest room for ladies. It has modern conveniences, and a lady will be in charge all day to assist visitors. Children may be left there, so that the mothers will be free to have a good time.

A baby show is another feature that the ladies have decided upon. The plan has met with an enthusiastic reception and a great many entries are assured. Prizes will be awarded the handsomest, healthiest and best natured babies between the ages of one and two years.

The sports committee has arranged for two baseball games, to be played with the Alfalfa team, one Saturday and the other on Sunday.

As its team is coming in, most of the folks out Alfalfa way are expected to be on hand, too. Word from Laidlaw is that practically every man on the segregation will make Bend his headquarters for the holidays. Many are expected up from Redmond, from which town tennis players will come to cross racquets with Bend men. The Burns trap shooting team and the gunners from Laidlaw are scheduled to contest for marksmanship honors with the Rod & Gun Club and this feature will attract much interest.

A new feature which probably will be added to the athletic program is a horsecart race. Two teams are to be formed, and their respective speed tried out on a race with the horse carts to a make-believe fire. The team covering a given distance, coupling up and getting water on the place fire was.

Generous prizes are promised for all events. The finance committee all

**PAYROLL OUT FOR FOURTH.**

Through the cooperation of Engineer Laurgaard and the First National Bank of Bend all employees on the Tumalo Project will have their monthly checks on July 3rd and will be able to cash them here on the Fourth.

Of course the Fourth is a legal holiday and the banks will not be open, but Cashier Hudson, by arrangement with Mr. Laurgaard, is able to honor all these checks in advance of the usual time, just as the Tumalo office has hurried up getting out the payroll so as to insure all employees plenty of cash for the Fourth and fifth. The payroll now amounts to between \$11000 and \$12000.

ready has garnered in about \$250, and more is expected. In addition to many contributions for prizes in trade, etc.

The band is getting into good shape, and as the streets will be in fine condition the open-air masked dance-carnival at night is expected to make a hit. Masks and confetti are being laid in for the occasion.

The Bend Glee Club quartet is preparing a number of new songs for the luncheon time. Two teams for the canoe tilting have announced their intention of trying conclusions on the water. Among the attractions of the day will be the performance at the Dream Theatre, which will be open most of the time. In the parade a feature is expected to be the department formed by Ford autos.

### HELD ON ARSON CHARGE

B. H. McMickle Accused of Firing Warehouse at Redmond.

B. H. McMickle of the Redmond Warehouse & Produce Company, was arrested last Thursday at Redmond by Deputy Sheriff McClay and Detective R. F. Beatty of Portland, on a charge of arson. McMickle is accused of burning the warehouse of the Redmond Union Warehouse Company early on the morning of February 6.

McMickle was taken before Justice of the Peace Bowman of Prineville, waived preliminary examination and was placed under \$5,000 bond.

McMickle and the Farmer's Union Warehouse at Redmond were competitors for the warehouse and storage business at Redmond. Detective Beatty has been employed on the case for almost a month. It will be tried at the September term of court.

According to friends, McMickle's reputation is above reproach, and they maintain that there is no substantial evidence against him.

### MORE WOOL CONTRACTED

Wenandy Company to Bring in Two Hundred Thousand Pounds.

Preparations for beginning the star route mail service to La Pine, Fremont, Fort Rock and Silver Lake are rapidly being completed by the Wenandy Livery Company. One of the trucks to be used in this service is already here and J. H. Wenandy expects to arrange for the delivery of a second on his present trip to Portland.

The benefits of the quick auto service to Bend are being realized by the ranchers on the road, and already a number are arranging to have their cream brought in to the new creamery in this manner. The company are being built at the hot springs. The interior country 120,000 pounds of wool in addition to the 20,000 pounds already arranged for.

## RATE DECISION BENEFITS BEND

### OLD SPOKANE CASE IS SETTLED

Supreme Court Rules Inter-Mountain Points Need Not Pay Water Terminal Rate Plus Back Haul on Through Shipments from East.

The Spokane rate case, contested since 1889, terminated Monday when the Supreme Court announced a unanimous decision favoring the Spokane contention. In effect this means that hereafter shipments from the east to points in the inter-mountain territory will not have to pay the through terminal rate to Coast cities and on top of that the local rate from tidewater to the inland destination.

The commission held that from St. Paul to Spokane the rate could not exceed the coast rate; from Mississippi river (Chicago territory) it could exceed the coast rate by 7 per cent; from zone three 15 per cent and from Atlantic coast points it could exceed the coast rate by 25 per cent.

This means a tremendous betterment for the inter-mountain points over their previous situation on the rate map. So far as Bend is concerned, not being on a through continental road, it means, almost certainly, a saving in freight rates on goods from the east of the one way rate from the connecting point at the mouth of the Deschutes to Portland. From Sherman, for instance, this rate is 63 cents on first class freight. The Portland-Bend rate is \$1.01. The saving on shipments from the east, then, will be 39 cents a hundred on first class freight, and proportionately on other classes.

As merchandising and distributing from here increases this will prove an important factor. In effect, unless water transportation is developed extensively via Panama, Bend will be able to buy from the east as advantageously as Portland, so far as transportation cost is concerned. When a direct rail connection is in operation from here to the east, Bend's situation will be identical as advantageous as Spokane's.

### FIRST AUTO TO EAST LAKE

Party of Bend Men Make the Trip on Sunday—Road is Hard.

East Lake, in the Paulina mountains, was reached by auto for the first time on Sunday when a party drove in from Bend. One car made the trip carrying R. M. Smith, E. M. Thompson, Paul Garrison, H. B. Ford, Earl Houston, O. C. Henkle and Calvin Smith.

Members of the party say that the road to Paulina lake is in very good condition but the five miles between Paulina and East Lake is hard to travel. At East Lake, bath houses are being built at the hot springs. Both lakes are in the state game reservation and there are evidences of much game all about.

## When You Go Away From Home

where you are not known, avoid all trouble in regard to your funds by carrying

### AMERICAN BANKERS ASSOCIATION TRAVELERS' CHEQUES

These cheques are equally useful for travelers in America or abroad. They identify the holder to hotels, ticket agents and merchants, who accept them at face value in payment of accounts. They are not available to finder or thief, if lost or stolen. Let us explain the system.

### Deschutes State Bank

Successor to the

Deschutes Banking & Trust Company
