## CREAMERY TO BE OPERATED SOON

### MACHINERY IS BEING SET UP

Butter Making to Begin Next Week—Plant is Completely Equipped and Can Produce over 1200 Pounds Daily—To Buy Produce Later.

With the concrete floor already laid in its quarters in the ice plant of the Bend Water Light & Power Company, and the machinery now being set up it is expected that the creamery will begin to make butter by the middle of next week.

As already announced the machinery for the creamery arrived last week and since that time every effort has been made to hasten its installation. J. E. Engstrom is assisting H. A. Morgenstern, the butter maker in the work.

The plant will start out with a complete equipment, including a starter, a 400 gallon ripener, a 150 pound churn, butter cutters, printer, worker and the necessary cream cans, jars and pails. With this outfit, the plant running full capacity, will produce from 1200 to 1500 pounds of butter daily.

For the present the creamery company will devote itself to the production of butter alone. Later, when the business is on a firm footing, it expects to take care of the eggs and other produce raised by the farmers.

H. A. Morgenstern, the butter maker, who with the directors will have charge of the plant, had four years experience in the creamery business in Illinois before coming to Oregon. Following that he took a special course in buttermaking at Corvallis, finishing in 1912.

## RESERVOIR OF CONCRETE

Company Begins Extension of Pipe Lane to New Site.

Work on the new water tank to be erected by the Bend Water Light & Power Company on the Bend View property has begun and will be hurried along with the expectation, according to Manager Foley, of completing the whole work by the first of August.

On Monday a crew under M. J. Danielson began digging a trench in which pipe will be laid from the present mains in Kenwood to the reservoir site. About 20 men are expected to be employed in this work and as soon as the pipe is laid so that water can be delivered at the site, construction of the reservoir will be begun. According to the final plans the reservoir will be of concrete.

**COMMERCIAL CLUB LUNCHEON**  
The regular luncheon of the Commercial Club will be held on Saturday at the Wright Hotel. It is expected that important business will be taken up at the meeting.

**START LONG AUTO TRIP.**  
Edward F. Greene and P. W. Jones started this morning in the latter's Ford car for Fort Atkinson, Wisconsin, Mr. Jones' home. Enroute they expect to stop at Yellowstone Park. They go by way of Burns, Boise, and Butte. The approximate distance to be covered is over 2000 miles.

## MUST CALL PHONE NUMBERS NOT NAMES, HEREAFTER

Pioneer Company Distributes New Directories to Subscribers—Will Be Issued Semi-Annually.

"Hello, Central."  
"Number please."  
"Give me The Bulletin."  
"Number?"  
"I said The Bulletin." A little crossly.  
"Number?" Still sweetly.  
"I said th—"  
"But," the Central cuts in, "You have to give the number. Look in the new directory."  
"Oh!" Then silence, while the subscriber pines through the directory. "Well, give me 55."  
That's about what will happen for the first few times after Friday, when the Pioneer Company does away with calling by name and Central will only give connection when asked for by number.

The new phone directories, printed by The Bulletin, have been distributed to subscribers. The books have forty pages and are handsomely gotten up and with substantial covers of grey cover paper. Many Bend merchants have advertised in the directory. Manager Pope plans to issue a new directory about every six months, so that it will be kept thoroughly up to date.

## MORE RAILROAD RUMORS

This Time They Concern Terrebonne, Prineville, Sisters and Redmond.

Along with the usual dust of summer, those usual summer railroad rumors are once more fluttering among our neighbors. This time the rumored railroads connect Terrebonne and Prineville and Redmond and Sisters.

It is reported that a small gang of surveyors, supposedly Oregon Trunk employees, are working between Terrebonne and Prineville, getting information about a possible route for a road to the county seat. According to private information, even the Prineville committee has abandoned hope of the Metolius route, and now an effort is to be made, if the cost is not too heavy, to present the railroads with right of way, grading and terminals, if they will do the rest.

The other rumor is that right of way has been secured for a Hill electric line between Redmond and Sisters. The father of this report is J. W. Gray, the Redmond representative of the Oregon-Washington Colonization Company, holders of the old Land Grant tracts. It is pointed out that in the past other representatives of this organization have "announced" railroads to Prineville and elsewhere that have never got on the maps.

## LIBRARY MEETING TUESDAY

Flower Show Plans Will Be Discussed—Money to be Turned In.

The Ladies Library Club will meet next Tuesday, July 14, at 3 o'clock in the Library. Plans for the annual Flower Show, which is to be given next month, will be discussed.

Any one growing a new variety of plant or flower, which has not been named for prizes at the Flower Shows in previous years, is requested to send the name of the flower or plant to the Library or to Mrs. G. P. Putnam.

All the ladies still having funds on the calendar system for the Library, are requested to leave the money with the President, Miss Coleman or the Treasurer, Mrs. Thompson, as soon as possible.

## PARADE WINS MUCH APPLAUSE

### MRS. McINTOSH GETS FIRST PRIZE

For Out of Town Entries M. G. Coe Secures Premium—Many Unique and Handsome Floats are Displayed—Flour Mill is Second.

The Fourth of July parade was the biggest kind of a success. The floats were good and the entries many. For town entries Mrs. McIntosh's float won first place and the Bend Milling & Warehouse second. Out of town, Montelle Coe captured first place and M. B. Miller of Harper second. The cash prizes totaled \$30, and the judges were J. J. Klein, L. J. Cody and John Cunningham.

The band played throughout the long route, with 14 pieces, and here as elsewhere during the day added greatly to the enjoyment.

C. W. Erskine and Miss Lela McRay on horseback lead. Then came the machines of Dr. Ferrill and O. C. Henkle, with soldier veterans, and after them Chairman Eastes' car, with Chief Roberts in the back seat pulling along by a cord his little boy in a decorated go-cart labelled "Pinched for Speeding."

Bend Lodge 389 of the Fraternal Brotherhood had a handsome float, and the Bend Hardware's exhibit was a real pump pumping real water. Pete Lehman had a forge, Bennett's was well represented, the Laundry was there and Skuse entered a sure-enough camping scene, with tent, fire and all the rest of it. The "Hick Yard Ponies," were in the parade next, and Montelle Coe, out-of-town prize winner appeared as the real thing in rubes, driving a single horse in a rig piled high with vegetables, some of which he threw at the audience.

R. M. Smith had a good float, using a pair of big logging wheels, and Mannheimers showed something new in the line of gilded donkeys. O. Donnell's auto truck was arrayed in saunas, and Barney himself officiated at the chopping block. The Bend Milling & Warehouse Company had a four exhibit and the Bend Company a huge log. The Bend Insurance Agency was there with a big float advertising their insurance, the Bend Sign Company had an amusing float, the American Bakery toted a vast loaf of bread and the Patterson Drug Company a huge bottle, a dozen feet or so high.

Then came the winner, the float of Mrs. McIntosh, a "double decker" affair with many pretty little children in white, with ribbons and greenery. Rather was well represented, the Bend Hotel had a big decorated car, and A. L. French was there with an entry.

The cars forming the rest of the parade were owned or driven by the following: H. E. Felton, J. H. Wendeny, Frank Dibble, H. C. Ellis, John Steidl, Floyd Dement, G. S. Young, E. Austin, M. S. Miller, Mrs. Arnold, C. S. Hudson, George Hoover, J. M. Judd, A. O. Walker, F. W. Harris, J. Parlin, W. D. Ross, Wm. Mahaffey, C. I. Rosell, J. McMickle and two cars entered by the Pilot Butte hotel.

## STOCKMEN HAVE GOOD SEASON

### CATTLE ARE FATTER THIS YEAR

Prices for Beef Good and Increase in Both Cattle and Sheep Notably Heavy—Wool Prices Best in Years and Horses in Demand.

That Central Oregon stock men are having one of the best seasons in recent years, so far as price and condition of stock is concerned, is the statement of George Millican, one of Crook county's oldest stockmen.

"The winter has been an exceptionally good one for cattle," said Mr. Millican this morning. "There has been abundant moisture and good grass. It is safe to say that cattle are at least ten per cent fatter now, proportionately, than at a similar date in recent years. The increase also has been exceptionally good."

As the prices for beef are excellent and the demand steady, this means, of course, good times for the cattlemen. The exceptionally high prices for wool and the big clip this spring have likewise forced prosperity on sheep men, and as the condition of these men has much to do with general local prosperity, the outlook is encouraging.

In the sheep industry, too, the increase this year has been notable. According to reports, the increase of W. W. Brown's bands has been nearly 100 per cent. Of course, in both cattle and sheep the total output is smaller than in the old days before the ranges were broken up by settlers.

Mr. Millican also says that prices for horses are improving, especially for heavy horses. A demand for Central Oregon stock is coming from California and the Palouse grain districts. Mr. Millican owns close to 1000 head of cattle, and a great number of horses, all on range near Millican, some thirty miles southeast of Bend.

**WOOL MOVES AT WAREHOUSE**  
At the United Warehouse about 200,000 pounds of wool have already been received this season, of which slightly more than half has been shipped. Every pound has been sold and at good prices. In fact, the buying was so brisk in advance of the wool sale dates that when the sale time came nothing was left to be sold and it was called off. The United Company says it has about 200,000 pounds more to come from the south, this to be brought in on the new auto trucks of the mail stage line, just placed in operation.

**NEW MASONIC CHAPTER.**  
Monday night a chapter of Royal Arch Masons was organized here. The only other lodge of this advanced degree in Central Oregon is at Prineville. Clyde McKay was elected H. P., J. D. Davidson, K., O. Laurgaard, Scribe. The members of the new lodge are: J. D. Davidson, C. M. McKay, O. Laurgaard, C. S. Hudson, H. A. Miller, U. C. Coe, H. J. Overturn, L. A. Nixon, C. M. Redheld, A. D. Lewis, O. E. Moon and L. M. Foss.

**ROYAL NEIGHBORS DANCE.**  
The Royal Neighbors will give a dance in the Bend building on Saturday. Admission 50 cents.

## FREIGHTING FROM HERE TO WALDO LAKE IN CASCADES

Aune Brothers are Hauling Equipment to Project 75 Miles Distant at Summit of the Cascades.

Considerable activity at Waldo Lake, in the construction of the dams and plant of the Waldo Lake Irrigation & Power Plant, is on for the summer. Already a lot of material and equipment has been freighted in from Bend, and Aune Brothers, who have the contract, say they expect to handle between 60,000 and 80,000 pounds, far more than was freighted in last summer.

Waldo Lake is about 75 miles southwest of here, and directly at the summit of the Cascade mountains. Its irrigation project is on the west side of the range.

Yesterday several loads started from here for the lake, one being a good sized gasoline power boat. The route is via Crane Prairie, on the other side of which the roads are so bad and the grades so steep that only half loads are taken. The project is of material benefit to Bend, for extensive purchase of supplies is made here.

## LUMBER DEMAND BETTER

Carload a Day is Being Shipped and Outlook Brighter.

The outlook for local lumber, so far as eastern markets is concerned, is considerably brighter than it has been for months, says Manager J. P. Keyes of the Bend Company.

Last week a car of lumber was shipped each day, and already enough orders have come in to keep this rate of shipment up for the next ten days, while it is expected that future orders will make it necessary to get off an average of more than a car a day. The price also is stiffening somewhat.

## IMMIGRATION AGENTS HERE

One of Them is Arrested for Fishing Without License.

A party of four immigration agents of the Great Northern Railroad were here Thursday, looking over Central Oregon so as to be able to direct home-seekers to this section when they return to the east. The party comprised W. E. French, of Ashville, N. C., F. H. Reeves, of Oklahoms City, H. E. Dryer of Kansas City and C. P. Price of Knoxville, Tenn. They were entertained at the Emblem Club and J. C. Rhodes and Dr. Ferrill took them out in cars.

While Mr. Dryer was making an amateurish effort to fish in front of the Emblem Clubhouse the others in the party, wishing to have some fun at his expense, got Game Warden McKay to slip up and place the fisherman under arrest for fishing without a license. Dryer took it all seriously and was on the point of paying a fine of \$25 when the hoax was explained.

## HUMPER CROPS IN NORTHWEST

According to careful estimates of the grain crop in the Pacific Northwest states, the average, as it is throughout the country, and the financial returns will bring some \$51,859,000 to the farmers of Oregon, Washington and Idaho, insuring what appears an unanswerable argument for prosperity. The estimate is now for 65,000,000 bushels of wheat, far in excess of all former records, and 13,000,000 bushels of barley and 16,000,000 bushels of oats.

## PLENTY OF FUN HERE ON FOURTH

### CELEBRATION MAKES BIG HIT

Large Attendance, Good Weather, Fine Program and Excellent Management Makes Bend's Entertainment Happy Event for all

"The best Fourth of July celebration any Central Oregon town ever had."

That's what everyone who came to Bend said Saturday night, with 17 hours of Independence Day good times behind them, and judging from the appearances of the town all day the opinion was both sincere and merited.

It was a safe and sane Fourth; not a breccacker or a cap pistol was heard. It was an orderly Fourth; there were no disturbances, no drunkenness, and everything went off smoothly and on schedule. Best of all, it was a jolly Fourth, and all hands from the smallest kiddie to the oldest greybeard had his fill of fun.

The town was crowded. From Redmond along 160 people came, 120 by train and the others by auto. Good representations were present from Madras and other towns to the north. Laidlaw was here in a body and several hundred men from the Tumalo Camps, most of the Alifia folks came in with their ball teams, and nearly everyone from the neighboring districts was here.

The weather was perfection; grey and cool in the morning, sunny and bright all afternoon. The parade was called by many the best ever seen in a town of this size. The sets were plentiful and good, and certainly no pleasanter place for a picnic luncheon could be found than on the cool, green lawn where everyone gathered at noon. Bend won the baseball, and a huge crowd watched the game and enjoyed it, for it was a lively contest. The sports went off well and late in the afternoon the log rolling

(Continued on last page.)

## DIBBLE WINS TRAP SHOOT

Wilkie Gets Crook County Championship on the Fourth.

The trap shooting contests, held early in the afternoon attracted much interest, and while the Central Oregon Championship was being shot off several hundred people watched.

This event was won by Frank Dibble, of Burns, who first tied with Charles Thomas of Crescent, each with 24 birds. The Crook County Championship went to F. J. Wilkie, of Bend, and Bowers won the free-for-all with ten straight.

The entries, and their scores, are as follows:  
Championship of Central Oregon—F. Dibble 24, Bowers, 21, M. J. Main 21, Wimer 21, Laurgaard 19, Wilkie 22, Skuse 19, Walker 17, Knutsen 22, Hillsbeck 11, Cady 22, Myers 18, Roberts 18, Chas. Thomas 24, Bellaah 24.  
Championship of Crook County—Laurgaard 19, Myers 18, Roberts 21, Palmerton 17, Wimer 17, Cady 22, Bellaah 21, Main 16, Knutsen 17, Wilkie, 23, C. L. Smith.

**When You Go Away From Home**

where you are not known, avoid all trouble in regard to your funds by carrying

**AMERICAN BANKERS ASSOCIATION TRAVELERS' CHEQUES**

These cheques are equally useful for travelers in America or Abroad. They identify the holder to hotels, ticket agents and merchants, who accept them at face value in payment of accounts. They are not available to finder or thief, if lost or stolen. Let us explain the system.
