 Mrs. Chas. Spaug and daughters

SUPERVISOR MERRITT ISSUES ANNUAL REPORT ON FORESTS

In Year Ending June 30, 353 Free Use Permits Were Issued by Service—Improvements Valued at \$18,000—28 Persons Employed
 Covering the activities of the Forest Service that center in Bend, Supervisor Merritt has just rendered his annual report for the 12 months ending June 30, 1914. The report is of considerable value in describing the numerous ways in which the interests of the residents of this section are touched upon and bound up with this portion of the national domain.
 Of greatest benefit to the individual settler are the free use permits under which timber from the forest is given away for construction and other purposes. In the period reported on 353 such permits were issued for a total of 1,200,000 feet of lumber. Permits were also issued for grazing 2532 head of cattle on the reserve and 27,600 head of sheep. Forty-three permits were issued for miscellaneous use of the forest including boat landings, pastures, school houses, reservoirs and telephone lines.
 Since the creation of the two forests in which this section is interested, the Deschutes and Paulina, 10025 acres have been listed for entry under the homestead act, exclusive of the recent eliminations around La Pine and Crescent amounting to 195,871 acres. The present area of the forests is 3,043,000 acres of which 226,700 acres are patented lands in private ownership. In the care of this area 28 persons are employed.
 An improvement inventory recently taken shows the value of all improvements in the forest to be \$18,074. The largest single item is telephone lines of which there are 151 miles which cost slightly over \$40 per mile. Other property included is ranger stations, bridges and look out stations.

CROOK COUNTY MINERALS

County Has Three Producing Mines—Gold Near Bend?
 According to a recent report of the United States Geological Survey, Crook is one of the 11 Oregon counties with a record of mineral production in the year 1913. Gold, silver and lead were the minerals produced from three mines, the total value amounting to \$5,857. Baker is first on the list with a production valued at \$1,422,608. Crook stands seventh. As indicated these records are of producing mines. That there are undeveloped mines of considerable value in the county is the assertion of S. M. Reist, of Klamath Falls, who has spent considerable time prospecting in Central Oregon and along the Cascade range. Mr. Reist recently sent into The Bulletin office for inspection a number of samples of gold bearing quartz which he says were

and Mrs. A. McAllister of Pinehurst, were the guests of Mrs. Bart Nichols Sunday.
 Mahlon Couch, who has been assisting on the Crawford ranch at Plainview, returned home last week to take charge of the grain crop in the absence of his father.
 Fred Wilson has been cutting his rye hay.
 Mrs. J. L. Couch made a business trip to Laidlaw Thursday.
 Robt. Horner of Laidlaw passed through Sunnyside Wednesday on his motorcycle.
 Mrs. Minta Howard and Mrs. Della Nichols went to Bend on business Wednesday.
 T. Saul of Terrebonne is the contractor who has charge of the building of Gene Wimer's residence.
 Mr. Cotner of Pinehurst spent two days this week at the home of Fred Wilson.
 Jay Nichols of Tumalo was in Laidlaw Saturday night.
 F. W. Leverenz of Plainview, passed through here Wednesday on his way to Laidlaw.
 Mrs. Jess Harter of Laidlaw, visited her mother, Mrs. G. M. Couch, one day last week.
 Mrs. Della Nichols gave a temperance lecture at Pinehurst Thursday night.
 Mrs. G. M. Couch, who has been ill, is very much improved in health.

found not far from Bend. According to him the values on his find will run \$12,000 to the ton. He will undertake development as soon as he can get financial assistance.

SISTERS PAPER SUSPENDS

Herald to Stop Until Local Conditions Justify Starting Up Again.
 Announcement is made in the Sisters Herald of July 29 that publication will be temporarily suspended, that being the last issue for the time being. The Herald was in its third volume and had done much towards the favorable advertisement of its section of Crook county.
 Speaking of the suspension Editor Alken says:
 "With this issue the Herald will suspend publication until such time as conditions will justify the publication of a paper in Sisters. The Herald is not suspending publication

RAILROAD INCORPORATES

Sutherland, Coos Bay and Eastern is New Line Just Incorporated.
 Another railroad to cross the Cascades is projected, according to dispatches from Salem, having its eastern terminus at Boise, Idaho and its western at Coos Bay. News of the enterprise came out when incorporation articles were filed with the corporation commissioner for the Sutherland, Coos Bay and Eastern Railway.
 It is reported that Weyerhaeuser interests are behind the road, and that 27 miles of it, toward Coos Bay, have been surveyed penetrating a splendid body of timber. Another report states that surveyors were now locating the line in the Cascades. Sutherland is due east of Coos Bay and from it any road would undoubtedly strike toward the McKenzie and come down by Sisters and Bend.

United States Cream Separators, Skuas Hardware Co., agents.—Adv.
 Don't endure the needless pain and torment of rheumatism, aggravated as it is by the hot weather. W. T. Hutchens, Nicholson, Ga., says:—I suffered the aches and pains of rheumatism, swollen feet, irregular painful bladder action, but Foley Kidney Pills fixed me up quickly. Foley's are the best. Adv.—Patterson Drug Co.
What's the Use
 of freighting groceries from Bend free of charge?
Let JOHNSON pay the freight.
 Remember the place, near 28 mile post, Bend to Burns road.
MILLICAN, OREGON.

Stop the Loss====Fires are Unnecessary

BRICK IS ABSOLUTELY FIRE PROOF IN ANY ORDINARY CONFLAGRATION.
 BRICK BUILDINGS NEVER BURN, ALTHOUGH THEY ARE SOMETIMES INJURED BY FALLING TIMBERS OR COMBUSTIBLE INTERIOR WOODWORK.
 A BRICK BUILDING IS ABSOLUTELY FIRE PROOF IF WIRE GLASS IS USED IN THE WINDOWS AND IF BURNED CLAY FLOORS ARE USED.
 AN INTERIOR FIRE IN SUCH A BUILDING IS CONFINED TO THE ROOM IN WHICH IT ORIGINATES; NO OUTSIDE FIRE CAN ATTACK IT.
 THE PROPORTION OF BURNED CLAY IN BUILDING CONSTRUCTION MEASURES ITS FIRE PROOF QUALITIES.
 BURNED CLAY IS THE ONLY BUILDING MATERIAL THAT HAS BEEN THROUGH THE FIRE BEFORE YOU GET IT, IN SUCH A MANNER THAT IT WILL RESIST FIRE. ALL COMBUSTIBLE MATERIAL IS BURNED OUT OF THE BRICK BEFORE YOU GET IT.

WHEN YOU BUILD USE BRICK.
