**ALL EUROPE AT WAR**  
Germany and Austria Are Arrayed Against Russia, France, England

The European war that has been looked for so many times in the past few years is now actually here and the whole world stands watching. As yet no battles have been fought but one is expected soon between the German and French forces which may settle the whole conflict.

The present situation has grown from the assassination of the heir to the Austrian throne in Serbia some weeks ago. The Austrian government made demands on Serbia following the murder of the arch duke and on their refusal declared war. Russia mobilized her army in the aid of Serbia, and Germany, considering this an act against her, declared war on Russia. She has since declared war on France and Belgium. English sentiment and treaty obligations are drawing that country into the war in support of France and Belgium. The United States has declared its neutrality.

**Damp Room Test.**  
To ascertain whether a room is damp or not place a weighed quantity of fresh lime in an open vessel in the room and leave it there for twenty-four hours, carefully closing the windows and doors. At the end of the twenty-four hours reweigh the lime, and if the increase exceeds 1 per cent of the original weight it is not safe to live in the room.

**Silver Fox Fur.**  
The black silver fox fur is most valuable when there is no silver in it—when it is a pure rich black throughout. A dressed skin of this sort averages 30 by 10 inches and will easily bring \$3,500. A good silvery skin, clear and pure in color, with bluish underwool, is worth about \$2,000.

**Taxation Tables Given.**  
Further studies of the matter of taxation have been made during the past week, the chief effort having been exerted toward collecting facts in regard to taxes in Crook county in the past. With these figures before him it will be possible for the voter to make comparative studies that are very illuminating. The Bulletin is indebted to County Assessor Foster for these tables.

The first one compares valuations and amounts paid in taxes for a series of years and the second shows the millage levied for all purposes since 1907. In respect to the second table it will be noted that the state levy has been included in the general levy except for the years 1911 and 1912.
