

29 MEASURES IN PAMPHLET

WHAT VOTERS WILL FACE NOV. 3

Secretary of State Issues Booklet to Voters—Brief Resume of Each Proposition Provided for Their Reference and Convenience.

Copies of the initiative pamphlet, issued by Secretary of State Ben W. Oloth, are being mailed to every registered voter in the state. The proposed constitutional amendments and measures contained therein are to be submitted to the voters at the general election on November 3.

There are 19 proposed amendments to the state constitution and 10 proposed initiative measures in the pamphlet. The legislature referred eight proposed constitutional amendments and two measures to the people, and 11 proposed constitutional amendments and eight measures were initiated through the efforts of various persons or organizations.

The proposed constitutional amendments and measures referred to the voters by the legislature are as follows:

Amendment of section 2 of article II of the constitution, so as to require voters to be citizens of the United States. At present foreigners, who at least one year prior to the day of election, have declared their intention to become citizens are entitled to vote.

Provides for Lieutenant Governor. Amendment of section 8 of article V of the constitution, creating the office of lieutenant governor, which official shall serve as president of the senate and while so doing receive a salary of \$10 a day.

Amendment of section 6 of article XV of the constitution, providing for the consolidation of city and county governments in counties having a city of over 100,000 population. Where such consolidations would be made the city and county boundaries would be made identical and the portions of the county outside of the city boundaries would be formed into a new county or annexed to adjacent counties.

Amendment of section 7 of article XI of the constitution to enable the state to bond itself or incur indebtedness in excess of \$50,000 for building and maintaining permanent roads, constructing irrigation and power projects and developing untitled lands, but limiting the total indebtedness for road purposes to 2 per cent, and the total indebtedness for irrigation and power projects and developing untitled lands to 2 per cent of the assessed valuation of all the property in the state, making 4 per cent for both.

Tax Measures Proposed.

Amendment of section 32 of article I of the constitution, omitting the requirement that "all taxation shall be equal and uniform," and providing for levy and collection of taxes under general laws for public purposes only.

Amendment of section 1 of article IX of the constitution, providing for the classification of property for taxation purposes. This is a companion amendment of the one preceding, and is intended to open the way for a reorganization of the method of making taxation assessments.

Amendment of article XI of the constitution, by adding a section authorizing the enactment of a general law to enable an incorporated town, city or municipality, by a vote of the electors interested, to surrender its charter and be merged into an adjoining city or town.

Amendment of section 29 of article IV of the constitution, increasing the salary of members of the legislature from \$3 to \$5 a day.

Two tax measures, one providing for an annual tax of one-fortieth of a mill for the maintenance of the Southern Oregon State Normal school at Ashland, and the other providing for the same amount of tax for the maintenance of the Eastern Oregon Normal school at Weston. Both of these schools have been closed for several years.

The constitutional amendment proposed and measures initiated by the people are as follows:

Amendment of article 15 of the constitution, providing for a universal eight-hour law for employees in all lines of endeavor, whether physical labor or mental employment, farm-hand or professional assistant.

A measure providing for an eight hour day and certain room ventilation for all female workers.

A measure providing for non-partisan judiciary and prohibiting party nominations for judicial offices.

Measures to Save Waterfront. Public docks and waterfronts amendment to the constitution, reserving to the people of the state forever their rights in the beds of navigable streams.

Municipal wharves and docks bill, authorizing cities and towns to construct, operate and maintain wharves, docks, etc., or to lease submerged lands for the construction of private wharves, etc.

State-wide prohibition constitutional amendment.

Constitutional amendment abolishing the death penalty.

Amendment of article 9 of the constitution, providing for a specific personal graduated extra tax on real estate assessed over \$25,000.

A measure to consolidate the corporation department with the state insurance department.

A measure to abolish the state board of dental examiners and pre-

scribing who shall be entitled to practice dentistry in this state.

Blow Aimed at "Single Tax."

Amendment to the constitution making the terms of all county officers four years.

A measure to require the governor to appoint a commission of five members to draft a tax code.

A measure to abolish the Desert Land Board and reorganizing certain state offices.

Amendment to the constitution providing for proportional representation in the state legislature.

Amendment to the constitution to abolish the state senate.

Constitutional amendment establishing a department of industry and public works for the employment of the unemployed of the state, and raising funds therefor by imposing an additional inheritance tax.

A measure providing for a primary delegate election, and legalizing the assembly method of recommending party nominations.

Constitutional amendment limiting taxation exemptions to \$300, and providing that a two-thirds vote will be required to make further amendments to this section. Its avowed purpose is to "kill off" the single tax in this state.

GOVERNMENT WILL AID ROAD

\$70,000 FOR MCKENZIE ROUTE

Extensive Expenditures Will be Made on Trans-Mountain Highway and Annual Appropriations For Up-keep Also—\$70,000 Available

That about \$70,000 will be available from Government funds for work on the McKenzie pass road, to be utilized in the Forest Reserves on both sides of the summit, despite the lack of co-operation of Crook county, is the welcome news that comes from Eugene at the western end of the route.

While Supervisor Merritt of the local Forest Office, says he has not yet been advised officially of this action, he has been expecting it. He says he is sure the road work in the reserves will be done on this as well as the other side of the summit.

The Eugene Register says: "Bringing the news of the decision of the forestry officials to allow \$70,000 for the continuation of the road work over the McKenzie pass and enthusiastic over the excellent work that has already been done over the summit of the Cascades, C. R. Seitz, supervisor of the Cascade National Forest, H. W. Thompson, county judge and Walter Griffin, vice-president of the Lane county Good Roads association, returned to Eugene last evening from their trip to Sisters, beyond the summit, made in company with three officials prominent in the forestry department.

"Not only will the government furnish \$70,000 for the continuation of the work, but between \$2,000 and \$3,000 a year will be given for the maintenance of the road within the forest reserve.

"After the engineers had sized up the situation," said Mr. Seitz last night, "they informed me that the money would be available for the completion of the road over the summit and besides the money for maintenance will be added. I will at once place my men and machinery on the job and will push the work as long as the weather will permit."

Prohibition Doomed!

After 64 years of activity by the friends of prohibition the average American today consumes almost six times as much liquors as did the average American of 1850. In spite of this there is less drunkenness. With this wonderful change for the better, prohibition has had nothing whatever to do. The real reason is found in the fact that today there is a vastly greater amount of beer consumed. And beer is not conducive to drunkenness.

Prohibition is a failure and has had but one effect wherever tried: to put a ban upon the open and above-board drinking of beer and other light beverages and to drive men to secret, immoderate drinking of the strongest stimulants. This is notably true of Maine, a prohibition state. There is ten times as much drunkenness per capita as there is in France.
