HELP FOR THE WEST UNIT.

Just at the time when the North Canal offer was made by the C. O. I. Co., the commercial clubs of this section were appointing committees to see what could be done toward getting a Federal appropriation for the completion of the so-called second unit of the Tumalo Project.

Now the North Canal matter is out of the way. The irrigation company will not accept the government report as a basis on which to make a deal, and even though it should be contemplating making another offer we all know that the snail's pace at which such things proceed would mean a delay of months before any understanding could be reached.

The report will soon be out and we shall know from it just what the recommendations of the engineers are. With them in hand we can proceed to make our fight.

Bend's relation to the project is not as close as it was to the original Tumalo. It is a Central Oregon affair however, and a Crook county affair, and if county division carries, it will be a Deschutes county affair, and for all those reasons Bend is interested in it.

WE SHOULD WORRY.

The consistently inconsistent Oregonian is running true to form these days with cartoons and news articles charging the Democratic administration with responsibility for the pending war tax, and editorials explaining the destruction of our foreign trade which have made that tax necessary.

As an intellectual performance it would surely look better to picture a farmer bulging with profits earned through the war and so, willingly tossing in his few dollars of tax, than to say on one page that the war is bringing prosperity, and on another cartoonwise, that it brings a huge tax burden. That, however, is what is done in Tuesday's Oregonian.

The editorial says in part: "There is solid comfort for this country in the fact, while the war has struck a severe blow to our foreign trade, it has sent up the value of our grain and hay crops to war prices in a year of bumper crops. Usually bumper crops mean low prices; this year short crops in several countries of Europe have combined to send prices to such a total that the Chicago Tribune estimated the increase in farm value of the four principal cereal crops and the hay crop over the value of the same crops last year at \$621,000,000. This sum of extra profits will spread prosperity among the farmers and enable them to buy liberally of all commodities and make great improvements."

The cartoon shows Underwood showing the "war tax burden" up onto Wilson's shoulders, who is astride the Democratic donkey. The editorial has the caption, "Why Should We Worry?" The cartoon should be labeled, "We Should Worry."

MARKET REPORT.

NORTH PORTLAND, Sept. 18.—Receipts for the week have been, cattle 1354, calves 54, hogs 4885, sheep 6794. Cattle liquidation comparatively light. Market firm in all departments. Best light steers sold Monday at \$7.25, bulk steer sales \$6.75 to \$7.10. Butcher stock in small supply with prices steady. Swine receipts inside of 3000 for week. The average run of hogs at this time is not a prime quality, due to the high prices of grain. Bull of best light stock sold \$8.40 to \$8.50. A good sized run of sheep and lambs with steady to strong prices on yearlings and ewes, the former being up a nickel, at \$5.30 and a bunch of ewes selling at \$4.50. No fancy stock in the lamb division.

ALMOST SHOT AS SPY IN GERMANY

A. M. DRAKE HAS EXPERIENCE

Was in War Zone When War Was Declared—Had to Motor Out and Was Frequently Stopped for Search—Lost all Luggage in Paris.

Mr. and Mrs. A. M. Drake, formerly of Bend, who were in Germany when the war broke out, recently arrived in New York after passing through somewhat strenuous times in getting out of the war zone. In a letter to J. M. Lawrence, who was with them abroad earlier in the summer some of their experiences are given.

They were at a health resort at the beginning of the conflict and it became necessary for Mr. Drake to go to Frankfurt to obtain a passport for his chauffeur. While on this trip according to his account, he narrowly escaped being shot as a spy.

Later a start was made for the Holland frontier. It was down the Rhine through the military lines and there were innumerable haltings and inspections, and frequently armed guards would insist on riding in the car. Conflicting orders caused much delay, and uninformed officials caused more. Several times the papers were searched and their letters and papers read and the greatest care was taken to see that they did not get away with anything that Germany did not want to get out, and yet a day-by-day record, embracing comments not at all flattering to the Germans, was overlooked. At last

neutral Holland was reached and rest obtained at Arnhem.

The Drakes got out of Europe with their hand bags, the bulk of their baggage having been left in Paris. Their chauffeur went to try to get the trunks out of Paris and nothing has been heard from him since.

They arrived in New York on the Rotterdam on September 7.

Don't Be Bothered with Coughing.

DEATH OF MRS. R. PARKER.

Mrs. Roxanna Parker of Burns, a sister of Mrs. Frank Dibble, died suddenly in San Francisco last week. She was in Bend a few weeks ago on her way from the interior city to the coast. Mr. Dibble went for the body arriving here Monday morning where he was met by a number of relatives who had come over from Burns, including Mrs. Parker's mother, Mrs. G. V. Johnson and three daughters. The party left for Burns with the body Monday.

A Lame Back—Kidney Trouble Causes It.

And it will give you even worse if not checked. Mrs. H. T. Strayge Gainesville, Ga., was fairly down on her back with kidney trouble and inflamed bladder. She says: "I took Foley Kidney Pills and now my back is stronger than in years, and both kidney and bladder troubles are entirely gone." Patterson Drug Co. —Adv.

WAR NEWS THE PAST WEEK

The Germans ended their retreat before the advancing allies last week and took up positions along the Alsace river. Here ever since a general engagement has proceeded with neither side gaining much advantage. On the whole, war experts seem to regard the situation as favorable to the allies since they are continually receiving fresh troops to oppose the wearied Teutons.

In the present battle thousands have been killed on each side, and there has been destruction of much property and public buildings as well. The Rheims cathedral, over 700 years old, and one of the finest types of Gothic architecture in the world, has been destroyed by the German artillery fire.

The Russians seem to be resting in Prussian Poland, their advance having been checked by the Germans. In Galicia, however, the Austrians are being pressed back and quantities of prisoners and supplies have been captured.

On the sea the news of the week has been favorable to Germany. Yesterday the British Admiralty announced the sinking by a German submarine of three British cruisers and earlier in the week it reported the destruction of another caught unaware in the harbor of Zanzibar. A German cruiser has also been responsible for the destruction of six merchant steamers in the Indian ocean. The Japanese advance on Kiau Chau continues.

NOTICE TO DUCK HUNTERS.

All hunters are warned that the duck hunting season does not open until October 1, the State law in this respect being succeeded by the Federal Weeks law. Clyde M. McKay, District Warden.
