

EASTERN OREGON POTATO GROWERS

ORGANIZATION NECESSARY TO PLACE THIS SECTION ON THE MAP AS A PRODUCER OF THIS MONEY CROP—SELECTION OF SEED AND HARVESTING CREATE STRONG DEMAND.

(By A. E. LOVETT, County Agriculturist.)

Organized effort pays in any business. All concerns handling the products of the farm are organized and it is to the interest not only of the country itself but also of the individual producer that those interested in the production of the marketable potato get together and work for the production of the potato demanded by the market in paying quantities and for the location of the best markets and the delivery of these potatoes to those markets at a profit to the producer.

A solid organization of the potato growers of Eastern Oregon is necessary for the success of this section, and for the individual growers of this section, as a potato growing country. This fall is the time for the starting of such an organization, most especially because good seed is necessary for successful potato growing and that good seed must be obtained as the potatoes are harvested and that good seed is available in this section this year. Although this has been a very unfortunate season for potatoes and the crop is comparatively short, our experience in former years and the results obtained by several potato growers this year proves beyond question that we have here a potato country. Our experi-

ence in the past in the matter of marketing our potatoes has proven that indiscriminate planting and unorganized marketing of the potatoes we may grow is not profitable. The potatoes grown by the growers who have taken pains in the selection of their seed and in the growing of the crop and in the harvesting of that crop prove that potatoes in demand on the market can be produced. All that is now necessary for putting Eastern Oregon on the map as a potato country and for obtaining a good market for our potatoes is for the potato growers in this section to get together and work together for the selection and planting of best seed of marketable varieties, for the best methods of preparing the land and planting the crop, for best methods of cultivation and watering, for best methods of harvesting and grading and for placing the best marketable potatoes on the best markets. With such an organization shipping and recommending only clean, first class potatoes from their section of the country, only one or two years will be required to place us on the map as a responsible, reliable potato section and the markets will always look us up and pay us the price for our potatoes.

Why you should VOTE FOR Booth

Republican Candidate for United States Senator

Are you better off now than you were under a Republican administration?

Are you satisfied?

If you believe in the principles of the Republican Party, if you are convinced that these principles are best for the Country, then prove it by voting for your standard bearer, Robert A. Booth, Republican candidate for the United States Senate.

You know that, under Republican presidents the people of the United States have good times.

You know that, under Democratic presidents you have Democratic times.

Remember the prosperity under McKinley, Roosevelt, and Taft.

Remember the conditions under Cleveland and Wilson.

The issue in this campaign is not one of personality. It is not one of non-partisanship. It is a question of whether you prefer prosperity under Republican administration.

Do you have enough work? Are your wages good? Is your business what you want it to be?

If you are satisfied with present conditions, well and good; if you believe that the present situation is better than under McKinley, Roosevelt, and Taft, you know what to do.

The way to bring back prosperity is to help elect a republican Senate. The Republican candidate in Oregon is R. A. Booth.

This is a Republican year. Vote the ticket straight.
