

DEMOCRAT TO BE HERE FRIDAY

**MILTON A. MILLER
WILL SPEAK**

Senator Chamberlain, Because of Short Time For State Campaigning Cannot Come But Will Visit the County After Election Is Over.

Friday night George E. Chamberlain's representative, Milton A. Miller, will speak here at the Commercial Club rooms, the meeting being one of several Democratic rallies that will be held that day and Saturday throughout Crook county.

Mr. Chamberlain himself could not come, because the time he has been able to take from his work at Washington has been extremely limited. However, Mr. Miller is reckoned one of the most effective speakers in the Democratic ranks, and local administration supporters expect a large gathering to hear him. Mr. Miller has been for twelve years a member of the state senate, and is collector of internal revenue. He reaches

G. E. CHAMBERLAIN.

Redmond Friday morning, where the Prineville members of the county committee meet him. There will be a meeting at one o'clock at Sisters Friday, at Redmond at the same time Saturday and at Prineville Saturday evening.

The Bulletin has received the fol-

lowing message for the people of Crook county from Senator Chamberlain:

Portland, October 26, 1914.

"To the people of Crook county: I deeply regret that the time which I have to devote personally to my campaign does not allow me to visit Crook county. It is my plan after election to visit various parts of the state where development and improvement projects are under way, in order to inform myself more fully on conditions and the needs of the different enterprises. I will do this before my return to Washington, no matter what the result of the election may be.

"I hope to be able to get into Crook county on this mission, and to meet my loyal friends and supporters and express to them personally my gratitude for their loyal support.

"It has been a matter of much satisfaction to me to have had a part in the magnificent achievements of the administration of President Wilson, who has justly been termed 'War's worst enemy.'

"With sincere good wishes,
G. E. CHAMBERLAIN."

A WEST SIDE ROUTE

How Can The Growing Tourist Travel Best Be Cared For?

The two roads between Portland and California know and used are

the route through Eastern Oregon, via The Dalles and Bend, and the other is the Pacific Highway, through the Willamette Valley.

That appeared in The Oregonian for Sunday.

Wouldn't it be worth while to foster this growing tourist travel by getting better roads up and down the west side of Crook county, and over that other route, the McKenzie? Can Sisters, Redmond, Bend and La Pine think of a better investment for themselves and their country neighbors?

Will Crook county ever help out west side roads as things now are? It will not. Will Prineville always fight west side roads? It always will. If the west side has a county of its own, can it build the roads it wants, where it wants them? It can.

CHURCH NOTICES

Church of the Brethren.
Regular services for next Sunday, p. m. will be recalled, so as to enable out-of-town members to attend the union meeting in the evening. Ira H. Fox.

Baptist.
Bible school 10 a. m. Preaching service 11 o'clock. Subject, "The Wrong Way of Doing a Right Thing." The ordinance of the Lord's supper will be observed at the close of this service. Young Peoples' meeting 6:30 p. m. A union service under

Regular services will be held on Sunday morning. On Sunday evening there will be a union service at the Baptist church, at which Rev. Hartman will preach. A. S. Black.

"OLD TIMERS FOR DIVISION

(Continued from page 1.)

average tax payer? That is the real question involved.

"Ask yourself these questions: What is the motive behind those opposing division? What is the motive of those favoring it?"

"Do not those who oppose belong almost exclusively to the following classes:

"County officers, their relatives or deputies; or candidates.
"Prineville attorneys and abstractors.

"Merchants or business men especially favored with county trade.

"The present, or prospective income, of all of these, would be affected by division. Hence their motive."

"These people are your elected servants; their opinions deserve no more consideration than your hired help."

"Redmond admits its reason for opposition is the fear that it will not be a county seat. That is the motive. The fair minded voter should not be fooled.

"We favor county division because we believe the time has arrived for it, because of the great size of the present county, its rapid development and especially because of the conflicting interests of its widely separated sections. We opposed county division in the past because we considered the time premature. We believe division at this time will mean a saving in county expenses.

"We are only tax payers like you. None of us have county jobs or county contracts, or seek them. We have no ill feeling or malice toward the people referred to above.

"We believe that county division is good business and beneficial to all."

LA PINE SOLID FOR DIVISION

(Continued from page 1.)

ty office, excepting one member of the court.

The question of county division has had two thorough overhauls

A Concrete SKYSCRAPER IN BEND

In 1914 would be out of place. It would be a few years ahead of the times. Not so however with concrete FLOORS, SIDEWALKS, STEPS, CISTERNS, ROOFS, ROADS, Etc., Etc. No material is cheaper or more durable for these purposes than CONCRETE.

And when you build of CONCRETE, use only the best cement, sand and gravel. It is cheaper in the end.

We can supply you with the proper sizes of washed sand and screened gravel for your particular purpose. Ask for quotations.

Bolton, Ruetenik & May

FRANK MAY, Mgr. Bend, Ore.

Office with Robt. H. Gould, Deschutes Bank Building.

"Concrete Ultimately, Why Not Now?"

Against Prohibition

COLONEL E. HOEFER

one of Oregon's best known orators will speak against the Prohibition Amendment THURSDAY, OCT. 29, at eight o'clock, Commercial Club rooms, Bend. Col. Hofer challenges anyone to debate. Come and get the facts.

in the La Pine country during the past few days, and the more thorough investigation the more determined our people become to divide the county into smaller units of government.

"Some of the indisputable facts brought to light by the recent close investigations into the present county's affairs are of exceptional importance.

"Taxation seems to be the thing getting the most attention. The few who oppose the division, are howling 'higher taxes,' but the men who are fair in the matter, and who are seeking the truth in the matter, have learned that taxes will certainly be lower if the county is divided. Their first examination into the county affairs shows that three hundred and twenty thousand dollars have been received in taxes the past year; to this amount an indebtedness of seventy thousand dollars is added, showing that it costs nearly four hundred thousand dollars to run Crook county for a year, nearly three times as much as any other similarly populated county in the entire state.

"Of this amount a portion sufficiently large to maintain a smaller county for a year, is expended for deputies and traveling expenses.

"This portion of the expenditure will be saved in the proposed Deschutes county.

"For the purpose of keeping up a strongly organized political machine, every county officer is now using his full quota of deputies, although they are, in many cases, unnecessary.

"Of the thousands of dollars spent in the prosecution of criminals in Crook county, less than three per cent has been spent prosecuting criminals from the La Pine country.

"The number of county officers and their salaries now, are considerably larger than a new county of less area could possibly use.

"Having proven, to their own satisfaction, that taxes will be much lower, the men interested went further, and dug up the following facts, each of which convincingly prove that division is not only a good thing, but an absolute necessity.

"In the past 8 years the Deschutes county has paid \$1,185,683 in taxes and according to the records in the county seat, less than \$900 has been spent at La Pine during that time to improve or maintain the roads.

"A thorough estimate of the situation in the northern end of the county shows undoubtedly that the proposed Deschutes county will be formed. If La Pine doesn't cut away from the old county at the same time, we will be left holding the sack, and continue to pay our thousands of dollars of tax to keep up the Prineville roads, the Prineville High School, and the town of Prineville, itself.
