Drink a Little Beer Occasionally

ITS one of the things I often prescribe. It will do you good if you use it moderately, as all men do who know what real temperance is.

Beer is refreshing, exhilarating, nutritious, and a tonic. It promotes digestion and is a wholesome food beverage. When a man drinks beer he drinks and eats at the same time, just as when he eats a bowl of soup. The terms "eat" and "drink" are inconsistently used in pointing out the difference between what is merely quenching our thirst and what is actually consuming nourishment. In my opinion, a man might more properly be said to eat beer than to eat certain kinds of soup, or indeed watermelon.

Drink beer and eat moderately. The moderate beer drinker and eater is in a far better position than the total abstainer, who often consumes an excess of solid food. Beer builds tissues, restores waste, furnishes heat, and produces energy.

The proposed Dentistry Bill will license to practice dentistry in Oregon a graduate from a college course of two years of six months each—

12 MONTHS TO MAKE A DENTIST

To obtain a license to pursue the business of a barber in Oregon the law requires a person to have at least three years' special preparation in shop or college—

36 MONTHS TO MAKE A BARBER

The barber who shaves a man must have three years' actual experience. The young fellow from a dental college can operate on the mouth of a child after 12 months' study.
