

FINANCIAL STATEMENT FOR CROOK COUNTY

The Bulletin recently called to the attention of County Treasurer Jordan a statement of the financial condition of a neighboring county as printed in a county newspaper, and a suggestion was made that a similar statement for Crook county would be a desirable thing to make public. Mr. Jordan agreed with the suggestion and furnished the following statement covering the business of his office from January 1, 1914 to September 30, 1914.

Defining a Siege.
In international law a siege is thus defined by Oppenheim: "Siege is called the surrounding and investing of an enemy locality by an armed force, cutting off those inside from all communication for the purpose of starving them into surrender or for the purpose of attacking the invested locality and taking it by assault. Bombardment is the throwing of shot and shell upon persons and things by artillery. Siege may be accompanied by bombardment and assault, but this is not necessary, since a siege may be carried out by mere investment and starvation caused thereby."

Difference in Time.
A large, slow footed darkey was leaning against the corner of the railroad station in a manufacturing town when the noon whistle in the big factory blew and the hands hurried out, bearing their grab buckets. The darkey listened, with his head on one side, until the rocketing echo had quite died away. Then he heaved a deep sigh and remarked to himself: "Dar she go. Dinner time for some folks, but jes' 12 o'clock for me!"—New York Times.

THIS photograph shows the great western portal or entrance way of the huge Palace of Food Products. The half dome is known as the Half Dome of Vigor and is 113 feet in height. Brilliant, riotous colors are employed in the mosaic in the vault of the half dome, which was designed by Jules Guerin, America's most celebrated decorative artist.
