IF IT'S THE REAL TOBACCO CHEW, ILL SWAP

THAT'S WHAT IT IS, MY BOY

THE HUNTER TRADES WITH THE GOOD JUDGE

MEN who use "Right-Cut" like it better than any other tobacco. It is the Real Tobacco Chew.

Better tasting than the old kind; more satisfying; lasts you longer.

Mellow, sappy tobacco—seasoned and sweetened just enough.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco tastes comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and sweeteners. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.
