

FARMERS

Editor of the Bulletin:
Practically the whole of the
time was spent in a reconnaissance
of various sections of old Crook
and the Agriculture. Very
definite results which might be
on a cash value were obtained during
the past year. It is necessary that we take up more definite work
this season and obtain results which
can be measured in dollars and
cents. To do this, it is impossible for
the agriculturist to work with
individual alone.

Agriculturist of Crook county
season, and for the purpose of
talking with more of
farmers in the county, I should
hold meetings in every school
in the county before the busy
season begins. I have five meetings
set for this week and three
already scheduled for next.

I would like very much to
have five or more meetings each
during March. If we can organize
twenty-six community societies
or organizations in the county
which will meet at least once per
month throughout the season, and
such meetings I may attend, I may
be able to keep in touch with the
farmers in these communities, assist
in crop and animal demonstrations
in these sections, and the farmers
may more readily keep in touch with
work which we are doing in
the county. I should be very glad to
receive letters from farmers who
are interested in holding such
meetings and if there is any particular
subject in which the farmers in
neighborhood would be especially
interested, should be glad to learn
of this so that we may take up a
discussion of the projects of most
interest when we visit each neighborhood.
The agriculturist's work is co-
operative and it will be impossible
for me to visit any farms, excepting
those who are interested in the work
we are doing. If you are interested,
please write me and I shall be glad
to pay you a visit.

A. E. LOVETT,
County Agriculturist.

POWELL BUTTE

(Continued from page 2.)

The sick list for the past week.

A number of our young people attended the basket supper at Butte Valley school house Thursday evening. A good time is reported.

Miss Fay Bassett became ill while attending high school at Prineville Friday and her mother's weekend visit at the farm was postponed until another week.

A family named Blair moved from Redmond to the Tom Patterson place Sunday.

Mrs. A. W. Bayn visited her daughter in Prineville one day last week.

Prof. Nash of the Redmond schools occupied the outlet at the Wilson school house Sunday at the regular semi-monthly service. He was the guest of Rev. Byars who accompanied him out from Redmond.

Mr. and Mrs. Frank Kissler and family were guests at the V. O. Hamphrey's home for Sunday dinner.

Jake Brix discovered a bee tree Sunday and he and E. A. Bassett appropriated both the bees and the honey. Mr. Brix took the bees home with him and the surplus honey was divided. The juniper trees in this

section house numerous swarms of bees that escape from their rightful owners during swarming time. These bees become the property of the finder and oftentimes besides giving them a start in the bee industry they are found to be the possessors of large quantities of honey.

Mr. and Mrs. E. L. Iverson entertained at dinner Sunday, their guests were Mr. and Mrs. W. T. Smith and family and Rev. Byars and Prof. Nash, of Redmond.

FATHER WRITES SLOGAN
SON DONATES POSTER

1915 Rose Festival Receives Work of Art from Famous Oregon Boy.

Portland's 1915 Rose Festival has a unique poster—the most artistic ever used and it is the work of an Oregon boy, Fred G. Cooper, now one of the world's foremost artists. His father, J. C. Cooper, of McMinnville, Oregon, wrote the winning slogan, "The Whole World Knows the Portland Rose." At his father's personal request young Cooper donated the poster to incorporate the slogan. Portland has co-operated with Seattle, Tacoma, Walla Walla and Spokane in securing conventions that will bring more than 250,000 visitors to Washington and Oregon.

They Know It's Safe.

Parents who know from experience insist upon Foley's Honey and Tar Compound when buying a medicine for coughs, colds, croup and influenza. A good time is reported.

TELLS OF COW FEEDS.

Under the title "Balancing Rations for Dairy Cows" the Oregon Agricultural College has just issued a bulletin of considerable interest to all dairymen. First stating the digestible nutrients in one pound of different feeds the bulletin proceeds to give the nutrients required by cows of different weights for body maintenance, the amount needed for the production of one pound of milk containing a given percentage of butterfat and finally rules and tables for balanced rations. Copies of the bulletin may be had on application to the college.

TO BE BURIED IN THE EAST.

In charge of a brother, E. J. Hick-

ONE 10c. pouch of "Right-Cut," the Real Tobacco Chew, lasts longer than twice the money will buy in the old kind.

A new blend of mellow, sappy tobacco—seasoned and sweetened just enough.

That's what makes it taste so good and why it gives you such comfort and satisfaction.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a really chewy fine and short sized so that you won't have to spit it out in your teeth. Grinding on ordinary coaded tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and tobacco. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

Unusual Combination Offer!

\$1.75—The Bulletin and Any One of These Clubs—\$1.75

SEVERAL leading publishers of magazines have joined with us in one of the greatest subscription bargain offers ever put out in this country. Through this combination everybody will be able to get a yearly subscription to three magazines in combination with our paper at practically the price of our paper alone. In this list you will find forty different periodicals formed into thirty-five different clubs. Each club has three magazines, except one Special Club which has four magazines; some of these magazines sell for as much as \$1 a year. They are all good and cover a large variety of choice reading matter, including History, Music, Religion, Education, Fashions, Fancy Needlework, Illustrated Current Events, Home Decorations, Fiction, Literature, Drama, Art, Science, Inventions, General Farming, Dairy Farming, Live Stock, Vegetables, Fruit and Poultry.

Under the splendid contract we have made with the publishers we are able to give our readers a choice of the clubs in combination with our paper one year for \$1.75, just twenty-five cents more than the price of our paper alone. If you are a subscriber to our paper we ask you to renew so that you too, may get 3 magazines extra. Look over the list and select the club you like best. Send in your order today or give your order to our representative or call at our office when in town. If you are now a subscriber to any of these magazines and want to renew just send your order to us and we will have your subscription extended. If your subscription to our paper is past due, we advise you to pay up and take advantage of this bargain. If you are in the habit of buying your magazines through other channels, we ask you to justify our clubs and prices with that of any other you receive. You, no doubt, are now a subscriber to some of these periodicals. You can save money by sending your renewal order to us. Here is a chance to get your home paper and a yearly supply of good reading at a real bargain. If you want one or more of these magazines sent to different addresses, just mention it.

TELL ALL YOUR FRIENDS AND NEIGHBORS ABOUT THIS BIG OFFER!
