

LAKES LESSEE EXPECTED SOON

TO BE IN PORTLAND ABOUT APRIL 1

Jason C. Moore May Then Announce Identity of Interests Associated With Him—May Not Pipe Water of Lakes to The Columbia.

(Portland Telegram.)

Jason C. Moore, who got the lease on Sumner and Abert lakes, is expected in Portland in April at which time he may announce the identity of the financial interests associated with him in the big enterprise. In The Dalles, at Bend, at La Pine and along the Deschutes there is keen interest being taken in the proposed industry of converting the water in the lakes into commercial commodities, chiefly fertilizer.

It has not been decided yet whether Moore will pipe the water 250 miles from the lakes down the Deschutes to the Columbia river, or whether the water will be extracted at the lakes, or near La Pine and then sent by railroad to a refining works somewhere near the mouth of the Deschutes.

Eventually, it is said, the industry will require 100,000 or 150,000 horse power, and there is an unlimited amount of water power available on the Deschutes. The scope of the industry has never been fully explained nor will it be until Moore makes his announcement. At present Moore is in the East completing his financial organization. Meanwhile he has a check on deposit with the state which will be forfeited if he does not start work within the next five months. When the lease was returned by the legislature, Moore telegraphed his local representatives that he probably would be ready to start in three months.

BULLETINS DISCUSS STOCK

Pamphlets Issued on Horses, Beef Cattle, Hogs and Sheep.

CORVALLIS, March 16.—Livestock management is the subject discussed in four bulletins recently prepared by the Animal Husbandry Department of O. A. C. Heretofore most bulletins published have dealt with one special feeding problem. These bulletins however, are a summary of the experimental knowledge along the lines of breeding, feeding and care of horses, cattle, hogs and sheep. They supply the data so often asked for by stockmen of the state. There is a bulletin on each class of stock, namely: horses, beef cattle, hogs, and sheep. Some of the main points covered in each bulletin are: most economical method of feeding, breeding to get best results, equipment necessary, artificial impregnation, hoxra pedigrues, raising pure bred stock and their use. These bulletins are free and people interested in any one of them or all should write to the Oregon Agricultural College, Corvallis, Oregon, for them.

CLEAN UP IS GENERAL

Preparation of Play Ground Lots Gives Impetus to Movement.

As a result of the cleaning up of the Wall street lots intended for use as a play ground general cleaning up activity has been begun and improvements are already noticeable. Governor Withcomb has designated a week in May as "Clean-up Week" and it is expected that by the time it arrives the town will be cleaned everywhere. The following is the governor's proclamation.

"As a period in every spring is devoted to house cleaning in our individual households; and

"As the needs of cleaning and renovating are especially apparent in the spring in all branches of our life; and

"As it is entirely fitting that special attention be given the promotion of such work:

"Therefore, I designate the week of May 1-11 as 'Clean-up Week,' and I earnestly urge Oregonians to set aside that week as a time when they will devote special attention to improving the physical appearance of not only their property, but of their communities, as such action will be beneficial not only to general health and happiness, but, by increasing the beauty of our surroundings, will add materially to the attractiveness of the state."

MOTHER'S CLUB FORMED. At a meeting at Mrs. O. A. Thorson's on Friday a Mother's Club was formed and Mrs. Murthy appointed superintendent. The club is a branch of the W. S. T. P. but its chief purposes are to teach proper methods for the up bringing of children. The next meeting will be held in April.

LIBRARY OUT OF DEBT

Librarian's Report Shows Many Visitors in Past Year.

It was reported at the meeting of the Ladies Library Club last week that the library is out of debt. The financial statement showed cash on hand March 1, 1914 amounting to \$17.24 and receipts during the year of \$816.32, making a total of \$833.56. The expenditures were \$753.85, leaving a balance on hand at the present time of \$79.71. During the year eight meetings were held with an average attendance of 19.

The librarian has rendered the following report:

"We have had donations from friends and club members of 144 books. We have bought 75 books, making a total of 1472 books in the library. We have had 160 books from the state library. We subscribe for 27 magazines, 7 weeklies and 1 daily. List of borrowers 985 Number of visitors 11,521 Number of books loaned 7,401"

URGES ACTION AGAINST RABBITS

(Continued from page 1.)

five cent bounty on Jack rabbits. My desire at this time is to urge the Central and Eastern Oregon counties to take full advantage of the bill passed last month which provides for combating the rabbit pest. It will be especially valuable, and needed, now."

Refers to Forbes Bill.

Governor Withcomb referred to the bill introduced by Representative Forbes of Crook county, which appropriated \$2,000 to be used in exterminating rabbits. It is provided that all counties who will put up \$250 will receive an equal donation from the state, the \$500 to be spent under the supervision of experts working under the Oregon Agricultural College. It is understood that with scientific management, this amount, expended chiefly for poisoning, may be expected practically to clean out rabbits in a large territory, and if adjoining counties will cooperate, practical elimination of the pest may be expected, without endangering other stock.

"This rabbit matter perhaps seems trivial to people in Western Oregon," the Governor continued, "but I am intimately familiar with the eastern districts and I know just how important it is. In some parts extermination of the rabbit pest is absolutely essential to insure profitable agricultural development. Now that the State has evidenced its willingness to assist financially, I hope that the counties will show a desire to cooperate. Certainly it would be the wisest kind of investment if several of them take advantage of the bill immediately upon its becoming effective, early in May. With the cooperative fund, they can at least work out the most efficient methods and accomplish a big forward step."

Quick Action Wanted.

When one is coughing and spitting with tickling throat, tightness in chest, soreness in throat and lungs—when head is aching and the whole body racked with a cough that won't permit sleep—he wants immediate

relief. Thousands say Foley's Honey and Tar Compound is the surest and quickest acting medicine for coughs, colds, croup and la grippe. Patterson Drug Co.—Adv.

SIGNS FOR SALE. "For Rent," "For Sale," "Rooms to Let," "Housekeeping Rooms," "No Admittance," "No Smoking," etc., etc. Placards printed in large type on heavy bristol board, 15 cents each, less in quantities, Bulletin Office, 1217

SPRINGER CAN NOT BE OUSTED

(Continued from page 1.)

was preparing to file the papers in court when the agreement was made to refer the whole affair to the Attorney General.

At the time the suggestion was made that the matter be settled out of court Judge Springer issued a statement announcing his willingness to submit to the decision of the Attorney General a portion of the statement being as follows: "Referring to the matter of District Attorney Wirtz' decision to file certain proceedings in the Circuit Court will say if we can agree as to facts I will submit my case to the Attorney General and be governed by his decision. The county need be at no expense to get rid of me if, in the opinion of the Attorney General I am ineligible."

In conversation with a representative of The Bulletin he stated that he would resign at once if Mr. Brown's decision was unfavorable to him. At the same time he expressed confidence in the correctness of his position and was sure that the decision would be in his favor. That he was right the foregoing dispatch indicates.

It is not known whether District Attorney Wirtz will continue with the case against Willis W. Brown or not. Mr. Brown's feeling has been from the beginning that if he had to go Judge Springer ought to go with him. Now that the Judge's title to office is confirmed it is expected that Mr. Brown will resign, though it is admittedly open to him to claim his office on the ground that he had moved to Prineville.

THE AUTOMOBILIST EXULTS WITH THE GOOD JUDGE

YES, a small chew of "Right-Cut" satisfies. It's the Real Tobacco Chew.

The right blend of rich, sappy tobacco—seasoned and sweetened just enough.

That's why it gives you the tobacco comfort and solace that you like so well.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short so that you won't have to grind on it with your teeth. Grinding on ordinary coarsely cut tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and sweeties. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.
