FARMERS SHORT COURSE AT
REDMOND IS SUCCESSFUL

Spring Work on the Farms Kept At-
tention Down—Professors Reynolds and
Fitts Speak Here.

REDMOND, March 29.—The Farm-
ers' Short Course for Crook county,
which was held here last week,
was a success as far as those who at-
tended the course are concerned. All
who attended were well pleased with
the information they received, and
found many things which they could
put into practice profitably on their
farms.

Professor Brown gave a short lec-
ture on home gardening on Monday
evening, and Professor Fitts a very
instructive lecture on silos and silage
crops on Saturday afternoon,
both of these lectures being additions
to the regular program as printed.

The attendance was good, consid-
ering the busy season and the pleas-
ant weather throughout the week for
plowing and other farm operations.
The average attendance at the lec-
tures was twelve. Seventy-five farm-
ers visited the ranch belonging to
Mr. McCall on Crooked river, and
heard the lectures there on dairy
cows and hogs.

Miss Turley, in charge of the Do-
mestic Science Course, had an aver-
age attendance of 41 for the week,
and gave very entertaining and in-
structive lectures on Domestic sci-
ence in its different phases.

It is to be hoped that next year's
institutions may be held earlier in the
season, and meetings will probably
be held at the country school houses
instead of in town.

Because of the weather and the
pressure of spring work only a few
farmers met at the Commercial Club
rooms on Friday to hear the Corvallis
experts talk on farming subjects.
Professor Fitts spoke on the dairy
cow, pointing out that through her it
was possible to get the highest prices
for alfalfa hay and still keep from
impoverishing the soil. He urged
careful record keeping and care in
breeding in order to improve the
herd. Professor Reynolds spoke on
hogs, saying that the present high
prices of wheat should not discour-
age the hog raiser. Extension Direc-
tor H. T. French was also present
and gave a short talk.

HOW TO KILL GOPHERS.
Time and experience have fully
demonstrated the utility of virus as
a rodent exterminator, particularly
squirrels, gophers and mice. Nearly
all forms of poison have given
way to strychnine, and for this
purpose, there is nothing better than
strychnine coated wheat. The cupi-
dity of manufacturers has in many
cases, led to diminish the amount of
poison below the safety point, with
the result that it has proven worth-
less in use. Disappointment has al-
so arisen through improper coating.
Farmers today are depending more
and more on the well-tried, tested
brands of coated wheat for the de-
struction of squirrels and gophers.
No stock, fruit grain or alfalfa grow-
er should jeopardize his crop by fail-
ure to act promptly this season.

These rodents are awakening
soon, with the warm sun's rays, their
whistle will be heard, and this is the
psychological moment to sprinkle
the poisoned wheat. A few grains
in the early morning dropped down
each burrow, will turn the trick. The
long fast makes the creatures raven-
ous and the poison is immediately
effective. Fields have been shown,
where thousands of these rodents
have been destroyed in twenty-four
hours by this method.

DOING HER DUTY.
Scores of Bend readers are learn-

ing of the duty of the kidneys. To
filter the blood is the kidney's du-
ty. When they fail to do this the
kidneys are weak, Backache and
other kidney ills may follow. Help
the kidneys do their work. Use Doan's
Kidney Pills—the tested kidney re-
medy. Proof of their worth in the
following: Joseph McDermott, Wash-
ington street, Oregon City, Oregon,
says: "I was almost flat on my back
with kidney and bladder trouble. I
was so lame and stiff that I could
hardly hobble around. It was all I
could do to get up in the morning.
My kidneys were irregular in action
and the kidney secretions were scant.
I used several boxes of Doan's Kid-
ney Pills and I soon got well." Price
50 cents at all dealers. Don't sim-
ply ask for a kidney remedy—get
Doan's Kidney Pills—the same that
