NO. 6.

TUESDAY SEES FRANCHISE UP

COUNCIL TO ACT ON MEASURE

Gives Right to Sell Electricity in Town in Competition With Present Company—State Utilities Commission Advises Against.

Further activity in electrical franchise matters is scheduled for the council meeting on Tuesday night when the measure giving John Steidl and Thomas Twest right to bring electricity into the city for general consumption comes up.

Just what the attitude of the council on the franchise will be is as yet uncertain. The same franchise before the council last year failed to receive enough votes to pass and it was said at the time that it would be put before the people. It is possible that the present council will follow the action of last year leaving it to those back of the measure to put it up to the people if they wish to do so.

Commission Advises Against.
That the Oregon Public Utilities Commission advises against the granting of a second franchise in the city is shown by communications from it received by Mayor Miller and made public by him. It also appears that the Commission's hearing on the complaint filed by the city last year as to the rates of the present utility will take place early next month.

Mayor Miller wired the commission as follows:

"State Public Utilities Commission, Salem, Oregon.
Can you advise City of Bend what the attitude of the Commission has been in previous cases where the subject of competition with existing public utilities has been involved, and, if possible, when we may expect the Commission's rulings, and what city's action under present conditions should be pending the report of Commission.
H. A. MILLER, Mayor."

In reply the Commission both wired and wrote Mr. Miller, the telegram reading:

"E. A. Miller, Mayor, Bend, Oregon.

Attitude of commission explained in letter now mailed. Hearing will be held first part of May. Ruling will follow hearing as soon as possible. As city has filed this complaint before commission we would caution against any action by city which will increase burden of investment before rate earning value of existing investment is determined by commission.
Railroad Commission of Oregon."

The letter with its enclosure which showed the Commission's position on similar case in 1913 was as follows:

"Mr. H. A. Miller, Mayor, Bend, Oregon.

Dear Sir:—
In answer to your telegram of even date we are enclosing herewith copy of a letter written by this Commission.

(Continued on last page.)

MEMBERS OF APPROPRIATIONS COMMITTEE COMING TO STATE

Will Visit the Two Government Irrigation Projects in Oregon Late in June—Short Stay in Portland.

WASHINGTON, April 8.—Ten members of the House committee on appropriations, headed by chairman Fitzgerald, will visit the two Government irrigation projects in Oregon in June and will make a brief stay in Portland en route from Klamath to Umatilla. Less than five hours has been allowed for the visit to Portland, and if the people of that city and the officials of the state are to present a showing of past discrimination against Oregon they must be prepared to entertain the committee and present their case between 1:50 p. m. and 5:30 p. m., June 20.

No definite arrangements have been made for spending the time while in Portland, but it is said that the committee on invitations will be glad to confer with citizens, state officials and others interested in irrigation development. The details of the Portland visit can be arranged by members of the Oregon Congressional delegation.

CLIPPING STARTS TALK.
Based on a clipping from an eastern paper there has been a revival of mill construction talk in the past few days. No confirmation of the rumors is obtainable. It is reported, however, that a number of men interested in Deschutes timber will arrive in town this week.

JORDAN CALLS WARRANTS.
County Treasurer Jordan has given notice that on April 15 he will call the following warrants: all general fund warrants up to and including registered number 1010, all road warrants up to and including registered number 68, all registered high school warrants.

CROOK GETS \$366.68
Fund From Land Sales Apportioned To Counties.

RALEM, April 12.—Secretary of State Olcott has announced the apportionment among the various counties of the 5 per cent land sales fund received from the government from the sale of public lands in the state. Under a federal law it is provided that the state shall receive 5 per cent of the monies derived from the sale of public lands and this year it totals \$5,826.42. The secretary of state distributes it among the counties as is provided and the money may be used for building roads. The apportionment is based on area and is as follows for Central Oregon counties:

County	Area	Amount
Crook	3,844,237	\$ 366.68
Gilliam	768,640	73.32
Grant	2,892,809	275.95
Harney	6,357,120	606.37
Klamath	3,839,360	366.21
Lake	5,068,800	483.48
Malheur	6,325,120	603.32
Sherman	535,040	51.02
Wasco	1,499,520	143.03
Totals	61,188,480	\$5,826.42

TO BUILD FISH HATCHERY SOON

CLANTON SELECTS SITE FOR PLANT

Will Be At Upper End of Sisemore Place on East Bank of Deschutes—McKay Now at Bonneville to Study Plans for Construction.

The state fish hatchery to be established here this spring will be begun within the next few weeks. This announcement was made by Master Fish Warden Clanton when here on Saturday. Formal approval of the plan is expected from the commission at its meeting tomorrow, and as soon thereafter as details can be settled construction will be begun.

A fish hatchery at Bend has been under consideration for a number of years past, its central location and favorable situation on the Deschutes river making it an especially desirable site for a hatchery, while the increasing number of anglers up and down the river and in the nearby lakes have made artificial renewal of the fish necessary. Announcement of the intention to build here was made by Mr. Clanton when in Bend last winter and his visit on Saturday was for the purpose of making final selection of a site.

With Clyde McKay, district deputy warden, Mr. Clanton spent a large part of the day Saturday going over the tentative sites selected by him when here in January. The choice finally made is the upper end of the Sisemore place on the east side of the river. According to Mr. Clanton, this will be an ideal situation, the proximity of the irrigation ditch being especially desirable.

The hatchery will be built on the unit system, the plan being to provide for 500,000 trout the first year, later increasing the capacity to a million. Mr. McKay will supervise the construction, leaving Saturday night with Mr. Clanton for the state hatchery at Bonneville where he will observe the methods in use in preparation for his work here.

FARMS LOOK WELL

Lovett Reports Clover and Field Peas Sprouting on Dry Lands.

Returning from his trip to the experimental farms with seed County Agriculturist Lovett reported that things are looking very well in the homestead country. The roads in general are good, and the crops are showing the effect of the favorable season, winter rice, especially showing up well.

On the three farms the soil is being put in shape for the seed furnished by the Bend Commercial Club, and already field peas and the white blooming clover planted last month have sprouted at Millican and Hampton. The field peas were planted at Rivers the day Mr. Lovett was there.

Last week Mr. Lovett took out six dry oats and Grimm's and Baltic alfalfa, true dry land seed. Later in the month he will take out the barley and speltz.

ASSOCIATION HEARS ADDRESS

MRS. FELTS HERE ON SATURDAY

State President of Parent-Teacher Body Describes Its Work and Aims—Convention to be Held in Portland in May of This Year.

Mrs. Aristene Felts, of Portland, state president of the Parent-Teacher Associations of Oregon, spent Saturday here, and in the afternoon at a special meeting of the local association gave a talk on the association work. She was also called on for a few remarks at the Commercial Club luncheon.

In her afternoon talk Mrs. Felts described the three main lines of work in which the parent-teacher associations are engaged. They include the improvement of physical conditions in and around the school houses, social service and the mother's club or study class. In describing these activities the speaker added much to the interest of her talk by giving specific instances of the helpful work different associations had been able to accomplish.

Mrs. Felts gave some striking figures of the comparative amounts spent in the United States for schools and churches and for jails, reform schools and houses of correction, saying that twice as many millions were spent yearly for the latter as for schools and churches. "If the money is to be raised anyway," she said, "why not spend more of it for the schools and make the jails unnecessary. And that, after all, is the main effort of the parent-teacher associations, to educate public opinion in school sentiment and develop the schools to reach all boys."

The chief object of Mrs. Felts' present tour of the state is to arouse interest in the convention of the National Congress of Mothers and Parent-Teacher Associations to be held in Portland May 12th to 16th. She urged that the Bend association send delegates.

Mrs. Felts arrived in town from Redmond Saturday morning and left on Sunday for Prineville.

GRANDVIEW VOTES IRRIGATION

Only Seven Votes Opposed at Saturday's Election.

That the people of the Grandview country are fully resolved to proceed with the irrigation district plan is indicated by the result of the vote on the question of forming the district. The election was held on Saturday, and only seven opposed the plan. George S. Young of Bend has done the engineering work for the district up to the present time and expects that unless there is trouble in disposing of the bonds the construction work will be carried forward this summer.

The rest of Jefferson is still studying irrigation plans. Meetings of the Jefferson County Irrigation Club will be held at Madras on April 23 and at Culver on the 24th.

ARBOR DAY CELEBRATED BY GIFT OF TREES TO CHILDREN

Three Hundred McIntosh Red Donated by Mr. McDonald—Reid School Grounds Improved.

Tree planting in Bend has received a remarkable stimulus in the past week due to the presence here of M. McDonald, president of the Oregon Nursery Co., and the generosity and interest in the town he has shown.

Last week, to help in the local observance of Arbor Day, Mr. McDonald offered to give an apple tree to each school child who would call for it at the corner of Minnesota and Bond streets, where his nursery stock is stored. On Saturday nearly 300 children called for trees, each receiving a three year old McIntosh Red. According to Mr. McDonald this is a commercial apple which has proved its worth in high altitudes, being grown extensively in the Bitter Root Valley, Montana.

In addition to furnishing shade and ornamental trees and shrubs for a number of private residences in town Mr. McDonald has planted a variety around the Reid school. In one corner of the grounds golden willow has been massed while around the edge soft maples are set out. Close to the building and serving to break the former effect of barrenness have been planted a number of shrubs.

LOOKS LIKE WENANDY

Marriage Certificate from Vancouver Indicates Groom Was Bend Man.

Further information from Vancouver, Washington, concerning the marriage there on March 21 of "John Wenandy and Bertha Smith," indicates that the groom was J. H. Wenandy, formerly of Bend, whose former wife committed suicide here on March 18, or that a most remarkable similarity exists between him and the Wenandy who was married.

According to the marriage certificate the groom in question gave his residence as Oregon hotel, Portland, his age as 35 and his birthplace, as Montana. His father's name appears as John Wenandy and his birthplace, Wisconsin, his mother's name as Matilda Schneepal. J. H. Wenandy usually stopped at the Oregon hotel when in Portland, he is 35 years old, he was born in Montana, his father was named John Wenandy and was born in Wisconsin and his mother's name was Schneepal. In one respect only is there any difference—the marriage is given as his first.

PLAY GROUNDS PREPARED

More Funds Voted for Purpose—Rest Room Committee Appointed.

Additional funds having been voted for the play grounds by the Parent-Teacher Association at its meeting on Thursday the work is going forward and the grounds will soon be in condition for use. The Wall street lot has been fenced and benches and play apparatus put in while the Westoria play ground has been prepared for use and the lumber for benches ordered. Arrangements will be made to have some one in charge of the Wall street play ground for two hours every afternoon during the summer.

At Thursday's meeting a committee consisting of Mrs. H. H. De Armond, Mrs. C. M. McKay and Mrs. T. H. Foley, was appointed to confer with the Commercial Club committee concerning a rest room. The meeting also listened to an interesting talk by Mrs. J. W. Norris of Oregon City on club work.

MORE DIVISION PROOF IS SEEN

JEFFERSON FIGURES GIVE CONFIRMATION

Contract is Let for Furnishing Court House at Price Far Below the Deschutes Estimates—Transcribing Records Cost is Low Also.

Furnishing further evidence of the truth of the claims of the county divisionists in the campaign last fall Jefferson county is proceeding on its course with renewed speed since the supreme court decision in its favor.

As pointed out after the election, the success of Jefferson was the one big confirmation of the claims of the Deschutes county divisionists. The foundation of their whole argument in favor of Deschutes county was that Jefferson county was bound to carry. Therefore, they urged, it was necessary for them to get off with their section at the same time. Since the election it is understood that the people whose votes defeated Deschutes county have come to realize the truth of the argument and the completeness of their misrepresentation which turned their votes.

The latest news from Jefferson county, which furnishes further confirmation of the Deschutes arguments comes in the reports of the action of the county court last week in ordering court house furnishings and office supplies and letting the transcribing of the records.

In the Deschutes division estimates it is now pointed out, the cost of furnishing the court house was set at \$2000 while supplies for each office were figured in with the estimate for the officers. The figures were ridiculed by the Redmond anti-divisionists who gave estimates thousands of dollars above the Bend figures. Reports from Culver now show that the Jefferson furniture is to cost \$674.30 and the office supplies \$1,715.90, or only \$290.20 more than was figured in Deschutes for furniture alone. On that basis, it is now stated, the Deschutes figures for the county officers showed a good margin.

On transcribing the records the Deschutes argument stated they from five to six and one half cents per folio was a fair charge for the work. Then it figured the charge as seven cents and three in \$500 for good measure. The Jefferson contract just let is at five and nine twentieths cents per folio.

"It is very gratifying to find our arguments confirmed in this way," said one of those prominent in the fight last fall. "We said then and I now repeat that our campaign was based on facts—put that in as big letters as you can—f-a-c-t-s—and this news from Jefferson helps to prove our case. The voters should remember this when the question comes up again. And it is surely coming."

COMMENCEMENT ON MAY 27.

The commencement exercises of the graduating class of the Bend high school will be held on Thursday, May 27. J. H. Ackerman, president of the Oregon Normal School at Monmouth, will be the commencement speaker.

INSURE YOURSELF AGAINST YOUR OWN CARELESSNESS

Even though you might never have a fire or thieves enter your home, a paper mislaid is often times lost just as irretrievably as if it had been burned or stolen.

When your valuable papers are in our vault you KNOW where they are and you KNOW they are safe.

You can lease a steel box in our vault with a non-pickable Yale lock—big enough to contain all your private papers, for \$2 a year

Can you afford to be without this insurance?
