Treat All Grain for Smut
This is the Only Way to be Sure Your Seed is Free of Disease
By County Agriculturist A. E. LOVETT.

Many methods have been suggested and recommended for treating grain to prevent smut. Many of these are good and some are of no value whatsoever. The cheapest and usually most successful method is the Formaline treatment. Use sixteen ounces or one pint of 40 per cent Formaline in forty gallons of water. This is at the rate of one ounce of Formaline to two and one half gallons of water. Stir thoroughly before using. There are two ways that this solution may be used on grain. It may be sprinkled on a smooth floor or a canvas sheet, then the seed placed on the floor or sheet and sprinkled thoroughly. When the surface is moist, shovel the grain over as concrete is mixed so that all of the grain may be moistened. Continue the sprinkling and mixing until this result is obtained. Then cover up the grain with sacks or blankets and allow it to stand for at least two hours, after which time uncover and spread out so that it may thoroughly dry. The germination of the grain may be affected unless the grain is well dried after treatment. The dipping method is performed by putting the same solution in a bar-

rel and dripping the grain in sacks into the solution, allowing it to remain ten minutes. Take it out and drain well; then place the grain or sacks in a pile and cover with sacks or blankets in the same manner as the sprinkling method, allowing it to stand two hours, after which it should be thoroughly dried. One pint of 40 per cent Formaline to 40 gallons of water is enough to treat 2500 pounds of grain. In smaller amounts it usually takes about two gallons of solution to every 100 pounds of grain. We have at present very little smutty grain in this section of the country and it will pay the farmers well to treat every bit of seed grain planted in order that the disease may not be started on our farms. After smut has obtained a foothold in the ground, it is necessary to plant other crops than grains in the field for one or two years in order that it may die out for want of food. The Formaline costs but little, and the treatment will pay in every case. Sacks from which the grain is emptied before treatment should also be soaked in the solution before grain is again placed in them, or seed may be re-infected even before the planting.

THE DESCHUTES RANGER
FOR APRIL

The April number of The Deschutes Ranger, issued from the local Forest Office, has as a frontispiece a view of the grade on the Sparks Lake road. Extracts from the Ranger follow:

According to Reclamation Service officials who have been working in that region recently, the elevation of Fort Rock post office is 4457 feet. The elevation at the top of the "Rock" is 4805 feet.

Lumber is being hauled to the Pine Mountain Ranger Station for a new headquarters house at that place. It is the plan to build a cottage 24 feet square, with four rooms, a closet, pantry and porch. The construction work will be done by Ranger Vincent assisted by Smith and Austin.

Forest Rangers Onsey and Smith have completed the telephone line connecting the Rosland and Big River Ranger Stations, a distance of nine miles. With this portion completed there is now a Forest Service line for the entire distance from Bend to Pine Mountain Ranger Station—sixty five miles. The line will eventually serve as a trunk line, connecting with Crane Prairie, Davis Lake, Crescent, Fort Rock and other points.

According to present plans the Paulina Forest will be discontinued as an administrative unit and incorporated with the Fremont, Deschutes and Crater Forests on July 1.

A wagon road is being constructed along the south boundary of the Forest in the Fort Rock Ranger District by Ranger Harriman, extending in both directions from his headquarters in Section 17, Township 24 S., R. 14 East.

It is expected that Vernon V. Harpham will be assigned to the Deschutes Forest in the near future as Deputy Forest Supervisor. Mr. Harpham was for a number of years ranger on the Umpqua Forest. Since 1911 he has been Deputy on the Okanogan Forest.

Supervisor Merritt and Rangers Smith and Brinkley took an auto trip into the Fort Rock and Pine Mountain regions during the first week in April looking after Forest Service business in those districts and going over plans for next season's work.

Rangers Vincent and Austin have completed the repairs on the Allingham Ranger Station house. This house is an old one that was rebuilt when the Station was withdrawn. Since that time it has been gradually settling. This year a careful examination was made and it was found that the floor joists and sills were so badly rotted that most of them had to be replaced. This work has been done, as well as a number of other necessary repairs.

At present it is planned to build the telephone line from the Pine Mountain line through to Ranger Harriman's headquarters by way of the Ice Cave, beginning May 1st. The total length of this new line will be twenty miles.

Supervisor Merritt and Rangers Smith and Vincent attended a meeting of the Tunaio Beef Breeders' Association at Sisters on Saturday, April 2. The meeting was called by the officials of the association in order to secure as new members the users of the range living in the vicinity of Sisters, and to make plans for handling stock during the coming season. All but five permittees on the Sisters range have now joined the association.

According to an announcement made by the District Forester at Portland, it is shown that the Forest Service during last season cruised 115,649 acres in Oregon and 77,018 acres in Washington. Of this amount, approximately 13,000 was covered on the Deschutes last fall, and 15,000 acres last spring. Altogether, there have been covered by intensive timber cruising work a total of over 175,000 acres on this forest.

The District Forester has officially recognized the Upper Deschutes Livestock Association through their

advisory board, and has approved a special rule which will be inserted in every permit that only pure-bred Shorthorn or Hereford bulls be allowed on the Crane Prairie and Deschutes range.

Ranger South has finished his spring cleaning around the Crescent Ranger Station house and yard. He has repaired the Crescent Lake telephone line to a point one half mile west of the Odell Ranger Station. He has also measured the distance along the roads between La Pine and Crescent for the placing of mile signs. Altogether Mr. Smith has made 130 new mile and guide signs for his district during the past winter.

IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR THE COUNTY OF CROOK.

SUMMONS
Anna Brusterhaus, Administratrix of the Estate of George Brusterhaus, Deceased, Plaintiff, vs. George F. Harris, Defendant.

To George F. Harris, above named defendant:

IN THE NAME OF THE STATE OF OREGON, you are hereby required to appear and answer the complaint of the plaintiff filed against you in the above entitled Court on or before the last day of the time prescribed in the order for publication made herein to-wit: the second day of June, 1915, and if you fail so to answer for want thereof the plaintiff will apply to the Court for the relief prayed for in the complaint on file herein to-wit: for a judgment against you for the sum of \$990.00, together with interest thereon at the rate of ten per cent per annum from December 7, 1913, until paid, together with \$100.00 attorney fees and the costs and disbursements of this action and for a decree of the above entitled court that certain mortgage bearing date of the 7th day of December, 1912, made and executed by you securing said sum above mentioned, covering, conveying and describing lots No. 13 and 14 of Block 27 of Bend, Crook County, Oregon, be foreclosed and that said real property described therein be sold by the Sheriff of Crook County, Oregon, in the manner provided by law and according to the practice of this court and that the proceeds of said sale be applied:

First: In the payment of the costs and charges of making said sale and

Second: To the payment of plaintiff's judgment, inclusive of attorney fees, interests and costs and that upon said sale being made the plaintiff may become the purchaser thereof and that thereafter the defendant and all persons claiming under, by or through him be forever barred and foreclosed of any right, title or interest in or to said property or any portion thereof, saving and excepting only the statutory right of redemption and that the plaintiff have judgment and execution against the property of the defendant, George F. Harris, for any deficiency remaining upon said judgment after applying the proceeds of the sale of said real property properly applicable thereto and for such other and further relief as to the Court may seem meet and just.

This summons is served upon you by publication thereof for six consecutive weeks in The Bend Bulletin, a weekly newspaper of general circulation, published in Bend, Crook County, Oregon, by order of the Honorable W. L. Bradshaw, Judge of the Circuit Court of Crook County, State of Oregon, which order was dated the 16th day of April, 1915, the date of the first publication being the 21st day of April, 1915, and the date of the last publication being the 2nd day of June, 1915.

VERNON A. FORBES,
Attorney for the Plaintiff.

Make Good Work Possible.
You cannot do good work while your bowels are sluggish or your liver torpid. Wm. O. E. Bielek, manager Scott Hotel, Hancock, Mich., says: "I gave Foley Cathartic Tablets a thorough trial, and find them mild but safe cathartic." Foley Cathartic Tablets never gripe or cause nausea. They do away with that drowsy, tired feeling and are wholesome, cleansing and healthful. Most satisfactory for stout persons. Patterson Drug Co.—Adv.
