MARKET REPORT.

NORTH PORTLAND, June 10.—The receipts for the week have been: Cattle, 534, Calves, 227, Hogs, 4206, Sheep 2455. A steady cattle market with light receipts. Quality of steer offerings is good to choice. Shear stuff selling well. Gram steers bringing \$7.50, demand fair. Monday saw the largest run of hogs for some time, 3,000 head being registered. Top hogs advance from \$7.55 to \$8.10, bulk of sales 8 cents. Sheep receipts have been light for this time of year. Prices lower on all lines except spring lambs which still bring \$8 for top quality.

Canning Demonstrator Coming.

Professor Fred L. Griffin of the Extension Service staff of the Oregon Agricultural College will be in Bend on Wednesday afternoon, June 30 and will give demonstrations at that time of hot and cold canning of fruits and vegetables. Professor Griffin is to make a four day's stay in the county and will give demonstrations at various points.

Public Penance.

A quaint old law for the punishment of petty offenders exists to this day in Middleburg, the Netherlands, and anything resembling it is not known to exist elsewhere. Owing to dampness weeds quickly spring up in the streets between the paving stones, and here, under the eye of a none too severe guard, the offenders are put to work with a large trowel shaped knife clearing away the upspringing blades of green. Each is provided with a wooden stool; hence it may be imagined that they are not hard driven. Here men and women alike who have been convicted work in this manner.

Joy of Anticipation.

The youngest girl of a Baltimore family was recently much distressed at dessert to discover that there was ice cream for dinner.

"Oh, papa," exclaimed the youngest reproachfully, "why didn't they tell me this morning that we were going to have ice cream?"

"What difference would that have made?"

"Lots," sighed the child. "I could have expected it all day."—Exchange.

A Roland For an Oliver.

Manager—I say, can we get anything like a real doctor in this jay town to attend a sick actor? Village Inhabitant—Sure. Just go to that corner grocery. You'll find a man there who's all right at curing hams.—Baltimore American.

Far Apart.

Mother—I hear that Harry Smith is the worst boy in school, and I want you to keep as far from him as possible. Tommy—I do, ma. He is always at the head of our class.—Boston Transcript.

Spiteful.

Patience—This paper says it is estimated that the annual catch of lobsters in the world is 125,000,000.

Patience—You haven't caught one yet, have you, dear?—Yonkers Statesman.

Echoes.

The time which elapses between the utterance of a sound and its return must be more than one-twelfth of a second to form an echo.

How many people live on the reputation of the reputation they might have made!—Holmes.

"How many men there have been whose merits were not appreciated till after their death," said the expert in room.

"Oh, well," replied the patient person, "that's the way it is all through nature. A turkey struts around a whole lifetime without any idea what it is really good for."—Washington Star.

His Source.

"How do you suppose Noah managed to keep his eye lights going?"
"Well, from the fact of the flood there must have been a strong current running."—Baltimore American.
