

EDITOR WRITES PRAISING BEND

WAS HERE DURING CHAUTAUQUA

Gen. H. Besser, of Creswell Chronicle Tells of Growth of City Since Railroad Came—Picks Town Progressive and Wide Awake.

Among the visitors to Bend at the time of the Chautauqua was Gen. H. Besser, editor of the Creswell Chronicle, of Creswell, Oregon, who, with Dr. J. E. Sandegrove had returned over through the Buckhorn pass. While here she spent several days with R. H. Parsons, who brought the Bendier ranch near the last fall.

On his return to Creswell Mr. Besser wrote for his paper an enthusiastic article describing his trip and describing considerable space to a description of Bend which is reproduced here.

Bend, which is 14 miles from Sisters, is perhaps the largest and most important town in Crook county. It is reached by excellent roads from several directions and is a bustling thriving, progressive little city of perhaps 2,500 inhabitants. It is the terminus of the Oregon Trunk railway which runs from Fallbridge to the S. P. & N. on the Columbia river. It is about 240 miles from Portland. The railroad has been built into Bend since 1881. It is and has been for several years an important trading point in Central Oregon. Far across the old, wide and treeless fields, where with trailers come from the cow country and loaded on months and nearly supplies to the isolated cattle ranches further in the interior. These ranches have been evolved largely by large scale trucks which look like they would haul as much as could be piled in an ordinary freight car. Thousands of these trucks run out of Bend this summer. They go to Burns, a distance of 117 miles, and to La Pine, Creswell and Klamath. Passenger automobiles from a Ford plant in a 40-horsepower Oldsmobile make trips to these same places.

While in Bend one is constantly reminded that one is in a cattle country. While the town has practically all the advantages of a city such as an excellent electric light and water system, good buildings, fine streets and good roads, everywhere in the area and every indication of wealth and prosperity, one sees the cow country in all his glances. He may never touch in Bend during his stay there as a free-lance contributor of the Bulletin was on. This intrepid individual with his white-tanned hat, vest and high-top boots, with a rifle slung over his back, a part of his horse when mounted, but appears about as much at home on foot as does a fish on the land. During one day of the Chautauqua there was a hunting contest and the exhibition given demonstrated that not all the pretty horses in the Bend area are also that beautiful and well-bred. The Bend rider for his will lead.

Just a block or two from where the hunting contest was held, Bend's first Chautauqua was held. The Chautauqua selected excellent pictures during its five-day session, and will repeat next year.

WATER PERMITS ISSUED

Total Cost of Proposed Work is \$734,000.

During the quarter ending June 30, 1931, the State Engineer issued 234 permits to appropriate water, including \$ for the storage of water in reservoirs. While most of the permits issued were small, approximately estimated one of all such developments amounted \$734,000, involving the construction of 242 miles of canal lines, for the irrigation of 22,248 acres of land and the development of 4,274 horsepower.

The following permits were issued in Crook county: R. V. Gates, of Portland, wanted a permit to irrigate 874 acres of land, including domestic supply. Diverting water from Crook creek in Sec. 12, T. 12 S., R. 12 E. Mrs. Lottner of Pais, secured a permit to irrigate 41 acres, diverting water from Snake River Creek in Township 14 S., Range 12 E. Mrs. Conington of Pais, for the irrigation of 7 acres, diverting the water from Wolfe Creek in Sec. 18, T. 14 S., R. 14 E. Mrs. Bessie of Pais, for the irrigation of 7 acres, diverting water from Crook creek in Sec. 15, T. 17 S., R. 18 E. Betty Erickson of LaPine, for the irrigation of 3 acres, including domestic supply, diverting waste water in Sec. 11, T. 18 S., R. 10 E. Geo. R. Erick of Roberts, for domestic supply diverting water from Pais in Sec. 31, T. 15 S., R. 15 E. Leland Tourtelot of Pais, for the irrigation of 25 acres, diverting water from Girdstone creek in Sec. 24, T. 18 S., R. 21, C. E. O'Brien of Pais, for the irrigation of 2 acres,

diverting water from Snake creek in Sec. 16, T. 18 S., R. 11 E. Emily Waldenburg of Terrebonne, for the irrigation of 70 acres, the development of 25 horsepower, diverting water from Crook river in Sec. 11, T. 14 S., R. 11 E. Elmer Stafford of Pais, for the irrigation of 84 acres, diverting water from Snake river in Sec. 11, T. 19 S., R. 24 E. Mrs. Clark of Pais, for the irrigation of 140 acres, diverting water from Snake River in Sec. 15, T. 14 S., R. 15 E. Mrs. J. Klumpke of Pais, for the irrigation of 18 acres, diverting water from Snake River in Sec. 14, T. 14 S., R. 15 E. Dent Hanson of Pais, for the irrigation of 25 acres, diverting water from Snake River in Sec. 14, T. 14 S., R. 15 E. Dent Hanson of Pais, for the irrigation of 25 acres, diverting water from Snake River in Sec. 14, T. 14 S., R. 15 E. Dent Hanson of Pais, for the irrigation of 25 acres, diverting water from Snake River in Sec. 14, T. 14 S., R. 15 E.

CHARLES WANTS \$1,665,000

If His Scheme Hadn't Failed He'd Be a Millionaire Now.

A suit to recover \$1,665,000 was filed last week in Portland by C. D. Charles, who alleges that he would have made that amount if a timber power project in which he was interested had not failed.

TIMBER PATROL PROVIDED

Central Oregon Owners Will Pay for Federal Protection.

The Oregonians in privately owned timber land in Central Oregon will be protected by the Federal Department this summer. Frank A. Elliott, state forester, and George A. Carr, district forester of the National service, will cooperate in giving to the National forester the protection required by law.

EXIT JASON MOORE

SALEM, July 20.—A meeting of the State Land Board is scheduled for 2:30 afternoon, and the foreman of \$15,000 owned by Jason Moore as a guarantee of good faith and the cancelling of his lease of Sumner and Albert lakes are at the program. Moore failed to make any new proposition after his application for an extension of time to January 1, 1932, was refused and the State in which he was required to post a \$25,000 bond to replace the \$15,000 in cash against last night.

BEND WOMEN WILL SEE MRS. KING DEMONSTRATE

G-W, E. & N. Representatives to Show Housewives How to Become Better Home Economists.

Better home making, and home economy will be the subject covered by Mrs. M. E. King, who is touring the principal towns of the northwest under the direction of the Oregon-Washington Railroad & Navigation Company, conducting demonstrations in vegetable, fish and fruit canning and preserving. The demonstration tour in which Mrs. King conducts her lectures will arrive in Bend on July 27, and a demonstration and lecture will be held in the Commercial Club rooms in the afternoon at 2:30, free of charge to housewives of Bend and the surrounding country.

During the tour of the tract in which she has covered more than 12 towns, Mrs. King has appeared before more than 1,000 women, who have shown unexpected interest in the methods which she has developed in her line, while conducting a vegetable and fruit preserving and canning plant at Richmond, Oregon.

The field covered in her work is broad and comprehensive, dealing with the more common home economic work which every household has difficulty during this season of the year.

Mrs. King is accompanied by W. R. Steer, special representative-traffic department of the G-W, E. & N. Co. A complete equipment for purposes of demonstration are carried on the train in order to give women attending a full idea of how the methods may be used at home.

A similar lecture will be conducted at Prineville, July 28.

BEND HOSPITAL TO OPEN AUG. 1

(Continued from page 1.)

Ferrill will hold an open house to residents of the city at which time they will be given an opportunity to inspect the new institution in condition for opening.

The new hospital will be strictly a private institution," said Dr. Ferrill, "and reception of patients be made with this understanding. Conditions looked at to operate it along public lines."

EXCESS ACREAGE LANDS ARE LISTED
