THE EUROPEAN CONSUMER is the most scientific buyer of foods on earth. He has, from necessity, been forced to buy that which gives the greatest return for the money.

He is the world's greatest user of flour. Flour, and yet more flour, has been the cry of strikers Belgium, England and France consider it relatively the cheapest food at \$12 per barrel.

Don't subscribe to popular fallacies. Face the facts. Meat contains 60 per cent water, potatoes 75 per cent, milk 88 to 90 per cent, flour 12 1/2 per cent. A pound of meat costs 30 and 35 cents, flour 4 cents, and yet there is more energy in a pound of flour than a pound of meat.
