**Bend Theatre**—Photo plays every evening at 8 o'clock.

**Band Concert**—Friday night.

## New Machinery Arrives.

New machinery, including a press, shirt cut and neck band ironer are being installed this week in the Bend Steam Laundry to replace older equipment. An extractor and a new compartment washer have been ordered and will arrive some time this week for installation. J. Edward

Larson last week made a special trip to Seattle to place the order for the new equipment.

The New Bend Flour Mill Co., is now manufacturing Deschutes Self-Raising Paucake flour. Ask your grocer for it.—Adv.

**Makes Big Shipment.**  
Eight hundred and sixty four pounds of groceries were shipped by parcel post Friday morning by Bert Shuey from Bend to Buffalo, Oregon, a distance of 96 miles. The postage paid on the shipment was \$10.03.

**Opening Successful.**  
Mrs. McIntosh reports her millinery opening held on Saturday as the most successful she has ever known in Bend. The sale continues this week.

**Offices Rearranged.**  
By a new rearrangement of offices George S. Young has now taken the office room formerly occupied by H. C. Ellis and the Bend Insurance Agency, while Mr. Ellis takes Mr. Young's old office and uses as an ante room the office formerly occupied by O. C. Henkle.

**MARKET REPORT.**  
**NORTH PORTLAND, Sept. 7.**  
Cattle receipts for Monday 1200. No weakness has been noticed in the market at the beginning of the week. Steer trade was steady at the old price of seven cents for tops. Heifers showed good strength and touched the \$6 spot, the highest price level in this line for several weeks. Cows were generally steady at \$5.50. Calves as high as \$7.75. Bulls, \$4. Cattle trade for the month just ended has shown a good steadiness throughout—receipts were practically the same as for the corresponding month of last year. The hog market opened for Monday with but 2300 head in sight—owing to the fact that Monday was Labor Day—trade was not as brisk as usual and a weakness of five cents was shown. Tops sold at 7 cents. Bulk of sales close to this figure. Sheep receipts continue on a meager basis. Buyers are not receiving anything like enough consignments to meet the demand. All the sheep and lambs arriving are going on a good strong price basis.

**A WEATHER CORRECTION.**  
The minimum temperatures given in the record for the August weather in The Bulletin last week should be corrected by the addition of 10 degrees to the stated minimum for each day. That is, the minimum for August 1 was 45 degrees and not 35 as stated, and for August 2 it was as stated, and for August 3 it was 47 degrees and not 37, and so on through the month.

## BIG JOB PRESS IS INSTALLED

## ADDITION TO BULLETIN COMPLETED

Plant Now Prepared to Care For Fine Book, Catalogue and Job Work—Dimick is Contractor—Brick Work Done by O. W. Taney.

The addition to The Bulletin building is completed and the big job press to house which the building was erected, is set up and in running order. As soon as the stock room is moved from its present location to the addition all the changes contemplated at present will have been made and the plant will be thoroughly equipped and ready to undertake work of almost any nature.

The addition is of brick, running back 25 feet directly in the rear of the old building, access to which is gained by a wide opening in the middle of the rear wall. A double door on the alley side gives opportunity for the delivery of stock. The stock room will occupy the same relative position in the addition as in the old building, while the new press is placed on the west side of the room. Further arrangement of the room will be made as its use requires.

Special care has been taken with the lighting arrangements in the addition there being seven windows and a large skylight, the latter also giving overhead ventilation.

The new press is a Pony Miehle capable of taking high class book, catalogue and other job work. The Bulletin has previously done considerable work of this sort, more in the past year than ever before, and its growing business in this direction demands the equipment provided by the new press. Its erection entailed considerable work, there being several hundred parts to put together, and the total weight nearly 10,000 pounds.

The addition was built under contract, H. O. Dimick being the lowest bidder. Sub-contractors for the brick work and the roofing were let by him to Jack Taney and J. A. McCloskey, respectively. Mr. Dimick was also

the successful contractor for the erection of the state fish hatchery built last spring.

**Schools May Bar Children.**  
Common colds are contagious and boards of health in many cities are considering barring children with colds from school. Foley's Honey and Tar is an old and reliable family medicine and frees children from coughs, colds, croup and whooping cough. Parents may save trouble by giving before school opens. Patterson Drug Co.—Adv.

**PEACHES BY PARCEL POST.**  
Those desiring the very best and highly flavored southern Oregon peaches delivered to you by parcels post, write to T. N. Humphreys, peach grower, Myrtle Creek, Oregon. Peaches ripening from now till October. Crawford, Muirs, Salways. 23-26 p. Adv.

Use Deschutes Spray Flour. Whiter and better than ever. For sale by The New Bend Flour Mill Co.—Adv.

**UNION MARKET**

YOU can't make a man out of a boy by puttin' him on stilts. An' no process will ever make tobacco mature. You got to let Nature do it her own way.

*Velvet Joe*

10c Tins  
5c Metal-lined Bags  
One Pound Glass Humidors

HOW do you suppose the "bite" gets into a tobacco leaf? Nature, of course.

How do you suppose the bite can be taken out? Nature, of course.

Nature's way—slow, careful ageing—is the way. That's why VELVET ages for not less than two years. Huge wooden casks protect the leaf. Out comes the natural harshness, commonly called "bite." In stays the natural flavor and aroma.

And VELVET starts right by being the pick of the Burley crop—considered unequalled tobacco for the pipe.

What are you smoking?

Have you read "Pipe Philosophy"?  
—Velvet Joe's new book of verse and bright sayings?  
Send a two cent stamp for a copy.
