

BEND TO HAVE STRONG TEAM

FIFTEEN CANDIDATES TURN OUT

Coaches White and Erskine Have Promising Material in Squad Which to Battle for Central Oregon Football Championship.

Few high schools in the northwest with the exception of those in the larger cities, can boast of a football coaching staff, but such is the place held by the Bend high school with a gridiron tutoring force of two experienced football men.

Professor G. R. White, who has charge of the high school athletics this year, is a football man of wide experience, having played on the varsity eleven of Cumberland University at Lebanon, Tennessee, for four years, and winning his letter in that major sport each year. He also coached the Cumberland eleven during his last three years in college. He was also a member of the Multnomah Club eleven of Portland in 1902. His high school coaching experience extends over six years during which time he has coached the high school teams of Pendleton, Nysa and St. John, and with all of them he has had success.

Chas. W. Erskine, who is assisting Prof. White, is well known in Oregon football circles, having been a letter man both at the University of Oregon and at Willamette University under Dr. Sweetland. Erskine coached the Bend team last year to the championship of Crook county. Both coaches will put their juveniles through a stiff course of sprouts for the ensuing two weeks in an effort to whip into shape a team equally as good as that of last year.

Fifteen Candidates Report.

Fifteen candidates, of whom seven are old men, reported to coaches White and Erskine at the first call for football material two weeks ago, and indications are most optimistic, they say, for a duplication of the feat of winning the Crook county gridiron championship this year. The Bend high school team will be equally as good as last year according to Coach White, who is drilling his embryo stars nightly on the field near the Reid school.

For experienced material the

coaches will have this year's captain, Everett Brandenburg, at full back; John Steidl at right half back; Alfred Hunnell at left tackle; Clarence Boyd at right tackle; Loyd Gorton, a sub last year, at right guard; Harold Young, at right end and Robert Horner at left tackle. These were the positions filled Monday night in signal practice. In the new material there is promising material in Whitlock at center; Ray Jackson at quarterback; Floyd Grube, Harold and Merle Miller, Emil Henkle and Sherman Smith for line positions. Harl Sanders, who is a big husky, is slated to enroll in school later this month and will be out for guard.

Both coaches are corresponding with the Prineville, Redmond, Culver, Madras and Burns high schools in an attempt to arrange an early schedule. The Crook County Fair Association has signified its intention to have one of the high school games between Bend and Prineville played on one day of the Crook County Fair. Negotiations have been made through the local school board for the purchase of a complete line of equipment for the team, believing that a well outfitted aggregation is freer from injuries than one without safeguards necessary in scrimmage.

WEST-SIDE FAIR PLANS MATURE

TUMALO PEOPLE ARE BUSY

Invitations to Attend Sent to Members of Desert Land Board—Record Breaking Crowd Expected—Ladies to Serve Dinner on Day

(Special to The Bulletin.)

TUMALO, Sept. 20.—Invitations have been extended to Governor Withycombe and other members of the State Desert Land Board to attend the fifth annual West Side Fair to be held at Tumalo on October 1st. It is understood that some of the members of the board will be present and that Ex-Governor West will be another prominent visitor. A record breaking crowd is expected as large delegations from Bend, Sisters, Prineville and Redmond are assured.

Thursday, September 30th, will be entry day. All exhibits must be in place by 6 p. m. with the exception of entries in Domestic Science and cut flower departments. These will be received until 10 a. m. on Friday.

Plans for the amusements of the day are about completed. The program will include a school children, automobile and saddle horse parade, called for 10 a. m. After dinner there will be speeches in Agricultural Hall. These will be followed by horse and foot races and other street sports for which prizes will be offered. Arrangements have been made with the Bend Concert Band to furnish music during the day. The band will give a dance in the evening in the Rutherford building. Dancing will commence early in the evening, about 6 o'clock.

Fair day at Tumalo would be incomplete without a dinner served by the West Side ladies. The Rutherford building is being put into shape and here the club will serve viands fit for an epicure. Recipes for some of these good things to eat will be found in the W. S. L. Club cook book to be placed on sale that day. As many people wish to purchase a number of these books to give to friends the price has been set at 25 cents apiece.

IS IT BAND OR FLOCK?

Reporter Trying to Accommodate Himself to New Conditions Has Trouble

One of the difficulties encountered by the newspaper in a town which is having such a rapid increase in population as is Bend at the present time is in describing events in a manner which will be understood by all, whatever section of the country they come from. For example, what old residents might call a good shower would only be a gentle mist to an Astorian and a terrific down pour to a man from Arizona. Words have different meanings to different persons and to give the news the reporter must write so that all may understand. And when folks are coming so fast from so many different places it is hard.

At this time it is desired to relate that the first sheep to return from the summer range passed through town Monday afternoon. Last year the reporter would have written that five bands of sheep came in, but this year he must be careful. Some folks never heard of a "band" of sheep. All the sheep they ever knew were in "flocks." But yet—What's the use? Folks must learn somehow that they are in a new country and accommodate themselves to new conditions. And when it comes to sheep they must remember that they are in Bend and no longer on the golf links. So "band" goes and it shall be written.

Newspaper Man Recommends It.

R. R. Wentworth, of the St. James (Mo.) News, writes: "A severe cold settled in my lungs. I feared pneumonia. Foley's Honey and Tar straightened me up immediately. I recommend this genuine cough and lung medicine." Right now thousands of hay fever and asthma sufferers are thankful for this wonderful healing and soothing remedy. Patterson Drug Co.—Adv.

HAMPTON.

(Special to The Bulletin)

HAMPTON, Sept. 18.—A. S. Fogg made a trip to Maury Mountain on Thursday, returning Friday with a load of lumber.

Mr. and Mrs. W. T. Harrison left Friday morning for Bend where Mr. Harrison has work for the winter.

Mrs. Lucinda Black and son Burr have moved back from Lizard Creek to Mr. Black's place near Hampton.

Thomas Harrison is staying with his uncle, Burr Black and attending school.

W. B. Hensley visited with Arthur Wilquet Thursday night.

C. B. Harmon is building an addition to his barn, also putting up some cattle sheds.

R. Haveman, who has been helping Thompson Bros. harvest and thresh returned home Thursday.

The report is out that Mr. Logan has sold his cattle to Mr. Mays.

A. S. Fogg and Burr Black made a trip to the mill Monday.

Mrs. McCune was a caller at the Hampton store Monday. R. Haveman is seeding for H. Hogue. Quite a nice rain fell in this section of the country Monday.

Did the Old Man Good.

Geo. W. Clough, of Prentiss, Miss., is seventy-seven years old and had trouble with his kidneys for many

years. He writes that Foley Kidney Pills did him much good. He used many remedies, but this is the only one that ever helped him. No matter young or old, can afford to neglect symptoms of kidney trouble. Patterson Drug Co.—Adv.

Most men like Fatimas— but maybe you won't

Fatimas please so many men that they outsell any other cigarette costing over 5c.

But it may happen that your taste won't fit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste does fit Fatimas, you can feel

doubly grateful. For of this you can be sure—Fatimas are cool and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the bounds of reason. These tests show you how to prove this.

Because Fatimas are cool and because they can be smoked freely and often—they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their taste suits you as well as it is suiting thousands and thousands of other men. Test Fatimas today.

You may find that their taste is exactly what you've been looking for in a cigarette.

Lights a Mypre Tobacco Co.

FATIMA was the Only Cigarette Awarded the Grand Prix at the Farma Pacific International Exposition.

Two Tests for ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to you. But there are other qualities that you should look for in the cigarette you smoke. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and lungs. Light and airy cigarettes, which are not sufficient to make this test. Hold it in your mouth for a few seconds. Hold it around against your tongue. Now blow out the smoke. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

On the other hand, if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden strands of coarse, city leaf, you will find a stinging sting at the tip of your tongue or that "saw" paper" tickle in your throat.

Test number two—How do you feel after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild grades—and is properly selected by age—and if they have qualities and so neutralize any unpleasantly, you will be able to smoke practically whenever you feel like it through the day without feeling any effect from it.

But with another cigarette in which the tobacco is less skillful, even though the tip end along towards the end of the day that you are likely to have that feeling of having "smoked too much."

Clip out these tests and try them on Fatima
