

ON THE ALLEYS

The most interesting games rolled on the alleys this season were those rolled Friday night, the Owl Pharmacy taking three straight from the First National Bank. Meredith rolled high score and high average for the evening, 210 and 188 respectively.

Cured Boy of Croup.

Nothing frightens a mother more than the loud, hoarse cough of croup. Labored breathing, straining, choking and gasping for breath demand instant action. Mrs. T. Neureuer, Eau Claire, Wis., says: "Foley's Honey and Tar cured my boy of croup after other remedies failed." Recommended for coughs and colds. Patterson Drug Co.—Adv.

THE DESCHUTES RANGER FOR NOVEMBER

The following extracts are from the latest number of the Deschutes Ranger issued from the local forestry office:

The stone cabin on Walker mountain, which was reported as having been under construction last month, is now entirely enclosed although not quite finished. Work has been suspended for the winter, it being planned to complete the cabin next year after the Walker mountain lookout man goes on duty.

Rangers Oney and Hahn are still working on the Davis Lake Wickiup telephone line, construction work being slow because of the fact that a road is being opened up along the telephone route as the line is being constructed.

The Upper Deschutes Livestock Association is building some drift fence along the west side of Crane Prairie in order to prevent the cattle from encroaching on the sheep range.

The work of painting and papering the Pine Mountain Ranger Station house is at last completed, as is also the pasture fence at that station.

Ranger Oney and the Upper Deschutes Livestock Association are building a stub telephone line nearly two miles in length from the Crane Prairie Ranger Station to the "Cow Camp" on Crane Prairie where the association has its headquarters.

On September 19, less than a week after the mid-September rain occurred, a fire burned over about 300 acres of land near Fox Butte in a few hours. The fire spread rapidly but did no serious damage. It was put under control at once, due to the prompt action of Guard Miller.

The first plot of 100 burned yellow pine trees that are being examined in connection with the fire damage study undertaken on this forest were tagged and described on September 23 by Ranger Harriman and Supervisor Merritt.

Deputy Supervisor Harpham went to Sparks Lake on October 7 and 8 with two pack horse loads of fish which he planted at that place.

Enloe Brothers are planning to start work drilling the well at the Cabin Lake Ranger Station within the next few days.

Forest Assistant Sproat and party completed work on the Chewaucan project on the Fremont forest on October 15 and have returned to Bend. Mr. Wendover, a member of the party who has worked on the Deschutes during two previous seasons, will remain in Bend for some time to help in the office work. Mr. Moffat has returned to his home at Fort Klamath. Messrs. Beals and Bond left the party some time ago, the first to attend college and the latter for his home in the east.

Went to the Hospital. C. E. Blanchard, postmaster, Blanchard, Cal., writes: I had kidney trouble so bad I had to go to the hospital. Foley Kidney Pills completely cured me. Men and women testify they banish lame back, stiff joints, sore muscles and sleep disturbing bladder ailments. Patterson Drug Co.—Adv.

Don't Kill the Owls

They Are One of the Best Friends of The Farmers in Central Oregon. By A. E. LOVETT, County Agriculturist.

During the past two years, we have heard many farmers and even some townspeople telling of their success in destroying the owls which they considered were doing great damage by destroying a few of their chickens. Owls occasionally do kill and eat a chicken, but considered from a farming standpoint, they are one of the most useful, also one of the most harmless birds with which we have to deal. They feed principally on mice, rats, squirrels, gophers, moles, insects, worms and other vermin, and consume almost unbelievable numbers of them. Their habits and methods of obtaining their food have been carefully studied by ornithologists, and it has been found that one pair of owls will catch and eat from 7,000 to 8,000 mice in one year's time where these small animals are plentiful. Young owls will eat their weight in food of this kind daily if this amount is provided, and the old birds usually provide a plentiful supply of food for their young.

In Crook county we are well acquainted with the sage rat, the gopher and the mole, and the owl is one enemy of these pests that will destroy them in large numbers. The larger owls will destroy several rabbits for food also. If there are any who doubt the ability of owls to consume this large amount of food, or their value as a destroyer of the vermin mentioned, I would urge them to locate a pair of these birds and keep an account of the carcasses or skeletons discovered by their nest. If the owls do bother the chickens to any extent, protect the chickens from their attacks, but do not destroy the owls.

What has been said regarding the owls will also apply largely to the hawks found in this section. Either of these birds may occasionally kill and devour a chicken, but their main food consists of farm-pests which are causing our farmers a great deal of worry and expense. Protect these birds wherever possible.

DOING THEIR DUTY.

Scores of Bend readers are learning the duty of the kidneys. To filter the blood is the kidneys' duty. When they fail to do this the kidneys are weak. Backache and other kidney ills may follow. Help the kidneys do their work. Use Doan's Kidney Pills—the tested kidney remedy. Proof of their worth in the following: Joseph McDermott, Washington street, Oregon City, Oregon, says: "I was almost flat on my back with kidney and bladder trouble. I was so lame and stiff that I could hardly hobble around. It was all I could do to get up in the morning. My kidneys were irregular in action and the kidney secretions were scanty. I used several boxes of Doan's Kidney Pills and I soon got well." Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McDermott had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

MARKET REPORT.

NORTH PORTLAND, Nov. 8.—This morning's cattle market opened with about 1000 head in the pens. The market on prime light steers went 15 cents over last Monday's top making the top \$7. Nondescript steers of the dairy type are flooding all markets and it is no wonder that beef of good quality and feeding command a premium. Cows are holding steady at \$5.25 and all other lines respectively following this range. "A new record made in the swine division." Seventy eight hundred head were unloaded for today's trade. Hogs are showing some weakness although the drop in prices were not as heavy as expected. Top hogs brought \$5.40, a dime under the closing of last week's close. Monday seems to be fast losing its popularity as a sheep market day. Only 411 head being offered. One load of choice wethers were sold at \$6. Demand is excellent for good lambs and yearlings. Good lambs will bring \$7.15; ewes \$5 to \$5.50; yearlings \$6 to \$6.25; wethers \$5.50 to \$6.

Cheaper Than Home Made.

You cannot make a good cough medicine at home for as little as you pay for Foley's Honey and Tar, nor can you be sure of getting the fresh, full strength, clean and pure materials. Did you ever hear of a home-made cough medicine doing the work that Foley's is doing every day all over the country? Patterson Drug Co.—Adv.
