(Special to The Bulletin.)

TUMALO, Nov. 15.—Meetings of various sorts have been the chief interest here the past week. On Wednesday night the Development League met to discuss the matter of helping the people in the Plainview neighborhood to form an irrigation district by consolidating several of the smaller systems such as the Three Creek and Square Creek irrigation company's, as well as to make plans for improving the Tumalo-Bend road. Friday and Saturday were "good roads" days here and a good sized force of men, business men and farmers alike, turned out with pick, shovel and grader to improve the highway. Under the able leadership of James Griffin the road has been put in first class condition. John Couch and L. H. Root did efficient work with the county grader from the Deschutes bridge to the clinder road while another larger force spent their time in improving the road from the bridge into Tumalo.
