

SISTERS FAIR PRIZE LIST

(In the report of the second annual fair held at Sisters in October, it was stated that in the next issue of The Bulletin a complete list of prize winners at the fair would be published. Because of a delay in the receipt of the copy, publication at the stated time was impossible and as the delay continued, due to loss of the list in the mail, further postponements were necessary. A new copy has recently been received and, although some time has elapsed since the fair, it is printed herewith in order that those interested in the fair may have some complete record of the prize winners. The list is preceded by a statement from the officers of the association.—Ed.)

Sisters Fair Prize List.
The officers and stockholders of the Sisters Fair Association desire to express their thanks to those who have given money or labor to make this year's fair possible.

We owe our social, educational and financial success to our friends who brought their exhibits, to those who helped entertain and to the crowd. The following is a list of the names of people who won prizes:

WHY?

Did the Bend Water Light & Power Co., when they built their new Power Plant use the best SAND and GRAVEL they could buy?

WHY did the City, when they built the new SEWER SYSTEM, use the best SAND and GRAVEL the market afforded? The answer is obvious. They KNEW that the best materials for concrete work pay the largest dividends in the end.

As we have been able to satisfy the exacting demands of these customers, we feel that your demands can be as successfully met.

We can supply you with the proper sizes of washed sand and screened gravel for your particular purpose. Ask for quotations.

"SPEED UP!"
to 60 minutes an hour
by taking the "Royal"
out of typewriting!

AND smile! For here at last is the master machine that makes it easy for any stenographer to turn out MORE letters with LESS effort in the ordinary working day. The new Royal Master-Model "10" speeds up the day's work and sets the pace that pays!

Built for "Big Business" and its Great Army of Expert Operators

These new features of the Royal add to the sensitive fingers of the typist, the one vital thing that the old-style typewriter subtracts—**speed!**

The speed with brains behind it—the all-day speed of the expert typist in the day's work. **Errorless** speed is the kind of speed that counts. Commonsense has punctured the illusion of the other kind.

Get the Facts!

Send for the "Royal man" and ask for a DEMONSTRATION. Or write us direct for our new brochure,—"Better Service," and book of facts on Touch Typing—sent free to typewriter users.
