WEDNESDAY, FEBRUARY 2, 1916.

CLOSE HOME.

Some of us are apt to think that Richard all this matter of national redness doesn't affect the Pacific coast very much. The European war...

However, such is not the case. Aside from the New England area, there is no portion of the United States more likely to attack than the Pacific states.

The facts are that things have run so smoothly and there has been such a contrast between the present administration and the preceding one that the most favorable impression exists regarding this administration.

There is another sort of "unpreparedness." It has many of our legislators at Washington in its grip. Face to face with big national problems—preparation vs. the pork barrel...

Prices on mill machinery have soared sky high since our Bend mills put in their orders. Prosperity, coming via war orders, has made the eastern manufacturers so busy that little items like lumber mill machinery...

It appears that a number of other boys would have brought us lists of books in answer to our editorial of two weeks ago had it not been for the fact that they learned that they were beaten by those who came first.

The general public has a notion that those insurance agents of Portland got exactly what was coming to them—only a little bit less, if anything.

The high rank gained by two Bend pupils in the recent eighth grade examinations is a very satisfactory tribute, not only to their own application and studiousness, but to the qualifications of their teachers and the standing of the local schools.

One good term deserves another—and that applies to our state representative, Vernon A. Forbes, who has done excellent good work in the Legislature during two sessions, and by his experience will be able to do still better next time.

When your man is put out and another fellow is put in, it is called "playing politics." When the other fellow is ousted and your friend gets his job, it is for the good of the service.

More salmon were caught in the Columbia last year than ever before. That speaks well for the efficiency of the State and the Government in raising salmon and stocking the stream.

When your friend holds political position he is "serving the public." When it is your opponent you say he has his "in the trough."

TO BE ELECTED.

Exclusive of county and precinct officers there are 115 officials, state and national, to be elected next November, and not even an experienced calculator can reckon how many candidates there will be at the primaries on May 19.

For the convenience of Bulletin readers, we list below the various officials who are to be elected:

16 delegates of Republican, Democratic and Progressive National Party conventions.

President of United States, to succeed Woodrow Wilson.

Vice president of United States to succeed Thos. R. Marshall.

5 presidential electors, 3 Representatives in Congress, to succeed W. C. Hawley, C. N. McArthur and N. J. Sinnott.

Secretary of state, to succeed Ben W. Olcott.

2 Justices of the Supreme court, to succeed Frank A. Moore and Geo. A. Burnett.

Dairy and Food Commissioner to succeed J. D. Mickle.

2 Commissioners of the Public Service Commission, one from Western Oregon to succeed C. B. Aitchison and T. K. Campbell and one from eastern Oregon.

17 Circuit judges, District attorney in each county, 11 state senators, 60 state representatives, County and precinct officers.

Voters desiring to be fully posted on all dates and requirements should write Secretary of State, Salem, for copy of Digest of the Election Laws of Oregon.

A GOOD RECORD.

Under the above caption the Crook County Journal says of Governor Withycombe and the first year of his term as follows:

"The first year of the present administration of Governor Withycombe has passed, and so quietly that few, excepting some of the newspaper men of the state seem to note the fact.

"It is really difficult for a man in this office to demonstrate just what he can and will do in less than 12 months.

"The facts are that things have run so smoothly and there has been such a contrast between the present administration and the preceding one that the most favorable impression exists regarding this administration.

"Briefly, the common people are enjoying a well earned rest from this quarter, and at the same time are approving the administration of a governor who is at once able, human, democratic and dignified.

There is another sort of "unpreparedness." It has many of our legislators at Washington in its grip. Face to face with big national problems—preparation vs. the pork barrel...

Prices on mill machinery have soared sky high since our Bend mills put in their orders. Prosperity, coming via war orders, has made the eastern manufacturers so busy that little items like lumber mill machinery...

It appears that a number of other boys would have brought us lists of books in answer to our editorial of two weeks ago had it not been for the fact that they learned that they were beaten by those who came first.

The general public has a notion that those insurance agents of Portland got exactly what was coming to them—only a little bit less, if anything.

The high rank gained by two Bend pupils in the recent eighth grade examinations is a very satisfactory tribute, not only to their own application and studiousness, but to the qualifications of their teachers and the standing of the local schools.

One good term deserves another—and that applies to our state representative, Vernon A. Forbes, who has done excellent good work in the Legislature during two sessions, and by his experience will be able to do still better next time.

When your man is put out and another fellow is put in, it is called "playing politics." When the other fellow is ousted and your friend gets his job, it is for the good of the service.

More salmon were caught in the Columbia last year than ever before. That speaks well for the efficiency of the State and the Government in raising salmon and stocking the stream.

When your friend holds political position he is "serving the public." When it is your opponent you say he has his "in the trough."

There are 100,000,000 people in the United States, and 4,565,000 mules, says the Department of Agriculture. Is duplication considered?

Slides sometimes fill up railroad right of way as well as canals. This is not so bad as the Sianiko days, though.

Better yet: "For you a rose in Portland froze."

Bryan favors peace—except in the Democrat party.

STRAHORN RAILROAD. (Oregon Voter.)

Lakeview has kept busy doing its share in the Strahorn railroad. Nearly all the right of way for 26 miles has been donated, as the result of the result of the local committee.

Klamath Falls has not been given any definite part to play, but its biggest men say they are at Mr. Strahorn's service.

Burns has offered \$150,000 to have the railroad built via that city. Gradually Bend has been working out the terminal and right of way duties assigned to it.

Nothing definite has been asked of Portland as yet, but a strong committee is ready to busy itself just as soon as Mr. Strahorn has carried his plans to the point where he can make a definite proposal.

The American Bakery announces that it has begun to make ice cream and from now on will have it for sale at all times to hotels, restaurants and private families.

SURVEY NEAR PAISLEY. (Chewacann Press.)

The surveyors for the Strahorn road have already completed two lines across the Chewacann valley. One is an absolutely straight line from the Narrows to the Chewacann river which it crosses at about where the old Ed Lamb house was located. The nearest point to town on this line is 6080 feet away. The other line passes through the Dobkins ranch a few yards east of the house and crosses the hill north of the river about 200 yards east of the flour mill. Should the latter route be chosen it will necessitate quite a cut north of Paisley but it will be close enough to town to suit everyone concerned.

Innes and Benson will be glad to meet their old patrons at the Log Cabin Barber Shop.—Adv.

ANNOUNCEMENT IS MADE

Oregonian Tells of Forbes' Candidacy To Succeed Himself. (The Oregonian.)

Vernon A. Forbes, of Bend, joint Representative in the 1913 and 1915 Legislatures from the district comprising Crook, Grant, Klamath, Lake and Jefferson counties, has announced his candidacy to succeed himself.

For some time Mr. Forbes has been mentioned as a possible candidate for State Senator in W. Lair Thompson's district. Senator Thompson has decided to be a candidate for re-election, however, and Mr. Forbes has definitely disposed of all gossip that he would oppose him by coming out for his old seat in the lower House.

His decision to run again was made at the solicitation of his friends. Mr. Forbes, who is an attorney, is widely known in Central Oregon. He is a Republican.

As a legislator he took an active part in both the 1913 and 1915 sessions. He fathered the bill appropriating \$150,000 for the Tumalo irrigation project in 1913, and was appointed a member of the commission to investigate the Celilo power project, which reported back to the legislature last winter. In the 1915

session he was a member of the important judiciary and irrigation committees.

CARD OF THANKS. I take this means of expressing my thanks to all my brother's friends who have given their sympathy and assistance to members of his family since his sudden death.

W. N. EYRE. For the best shave and hair cut in town go to the Log Cabin Barber Shop.—Adv.
