PLUG CHEWING A WHOLESOME HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

"SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco. "I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of all the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form."

"Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I mention Spear Head because I have found that this brand is exceptionally pure, being made in a factory that's run strictly according to pure-food rules."

Spear Head is made of sun-ripened Burley, which is acknowledged to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and luscious flavor of the choice Burley to the supreme degree.

A chew of Spear Head has a wholesome relish that is not found in any other chewing tobacco. In 10c cuts, wrapped in wax paper.
