

# THE BEND BULLETIN.

VOL. XIV.

BEND, OREGON, WEDNESDAY AFTERNOON, APRIL 19, 1916.

NO. 7.

## ALL NOW LOOK TO PRIMARIES

### FINAL FILING MADE ON SATURDAY

Chief Local Interest Taken in County Candidates—Bend Men Seek Nomination For Important Offices—Treasurer Jordan Unopposed.

The time within which filings for national, state and county office might be made expired on Saturday and the complete list of candidates for nomination for the various offices on the two political tickets is now available.

Locally the greatest interest centers at present on the county candidates although, undoubtedly, as soon as party nominees are chosen there will be considerable attention given to the candidates for the presidency.

In the local fight three county offices, sheriff, assessor, and county commissioner are absorbing the most attention. Bend has candidates in the race for each and in the case of one of them, the Republican nomination lies between two Bend men. Democratic candidates are in a minority on this side of the county.

In the case of three offices, district attorney, circuit judge and county clerk, there are single candidates for the nomination on each ticket, so that unless nominations are made by petition after the primaries the present candidates will oppose each other as nominees in the general election in the fall.

### The Candidates.

The Bend candidates for nominations are, H. H. De Armond for district attorney; H. J. Overturf and Theodore Aune for county commissioner; S. E. Roberts for sheriff; R. D. Ketchum and Charles Carroll for assessor and J. H. Haner for clerk. Of these Mr. De Armond is unopposed for the Republican primaries, but will have W. H. Wirtz, of Prineville as his Democratic opponent in November. Mr. Overturf and Mr. Aune both seek the Republican nomination for county commissioner and the successful candidate will be opposed in the fall by E. T. Luthy, the only candidate for the Democratic nomination.

The fight for sheriff's now two sided on both sides, Republican and Democratic. S. E. Roberts and J. H. Stanley each want the Republican nomination and E. B. Knox and P. E. Poindexter, the Democratic. Mr. Stanley is from the Alfalfa precinct and the two Democrats, from Prineville.

For assessor there are four candidates, three after the Republican nomination, including the two Bend men mentioned above and John E. Luckey and one Democrat, H. A. Foster, of Prineville, the present incumbent of the office.

In the case of the county school superintendent the winner at the primaries will apparently have a clear field for election, there being only two candidates, J. Alton Thompson, of Tumalo, and J. E. Myers, of Prineville, the present incumbent. County treasurer Jordan has a walk-away from the start, being the only one out for the treasurership on either ticket.

For county clerk J. H. Haner, of Bend and Warren Brown, of Prineville, the present incumbent, are the only candidates for the nomination on the Republican and Democratic tickets, respectively, and will accordingly oppose each other in the fall. The same is true of T. E. J. Duffy, Democrat and M. E. Brink, Republican, for the circuit judgeship. Mr. Duffy now holds the office through the appointment by Governor Withycombe.

For representative from this district the Republican candidates are Vernon A. Forbes, of Bend; Wesley O. Smith, of Klamath Falls; D. G. Burdick, of Redmond and A. E. Elder, of Klamath Falls and the Democrats, Fred W. Hyndman of Klamath Falls; Messrs. Forbes and Smith are the present incumbents of the office, having served together in the last two sessions of the legislature.

### State and National.

Concerning the various candidates for presidential electors, and the different state offices, the Oregonian reports as follows:

For the Republican nomination for President of the United States the ballot this time will offer the names of Theodore E. Burton, Albert E. Cummins, Charles E. Lockwood, of Portland and possibly Chas. E. Hughes.

For Vice President William Grant Webster, of Chicago, is the only Re-

(Continued on page 6.)

### MILLER OPENS OFFICE.

H. A. Miller has taken the new office on Oregon street just finished off in the Lara building. He will engage in the sale of building materials, including lumber from the Shevlin-Hixon mill. For the present his lumber will be delivered from the company's yards.

### LIVESTOCKMEN OF SISTERS FORM STRONG ASSOCIATION

2,000 Cattle Will be Grazed Under Direction of Organization—To Fight Cattle Rustlers.

The Sisters Livestock association, with B. L. Tene as president, and Joe Howard as secretary-treasurer and a membership of 30 cattle men of the Lower Bridge, Redmond, Sisters, Gist and Cloverdale sections, was organized last Saturday afternoon at Sisters. Plans were made by the association for grazing approximately 2,000 head of cattle on the Deschutes National forest on the Sisters and Metolius ranges. The association will purchase a large quantity of salt collectively and will arrange for a proper distribution of it among the various owners of cattle on the ranges.

A decision was reached to offer a substantial standing reward of \$250 for the arrest and conviction of cattle rustlers. Range riders are to be employed to see to the proper distribution of cattle on the range.

According to Supervisor W. G. Hastings of the Deschutes National Forest this year will graze approximately 5,000 head of cattle and 52,000 head of sheep, which represents 95 stockmen in Central Oregon who will take advantage of the national forest grazing grounds.

### BURGESS A CANDIDATE

State Senator Favors Election of Hughes as President.

State Senator, J. N. Burgess of Umatilla county, who this week fled for delegate to the Republican national convention, comes out strong for Justice Hughes, for president if he is available and for a revision of the tariff. In his statement he says, "If I am elected I will use my best efforts toward the nomination of a man for president whose political ideals are along progressive lines, but whose fidelity to the best traditions of the Republican party is unquestioned. I prefer Hughes if he is available. The country needs a man who values performance more than promise, and who will place true Americanism ahead of political expediency. I favor a revision of the tariff by Republicans. I approve the platform recently adopted by the Republican party of the state of New York, and believe it can be used as a foundation in the adoption of a National platform.

Mr. Burgess is a candidate from the second congressional district, comprising Eastern Oregon, and is well known all over the state as a staunch republican with high ideals and a capable and energetic statesman. He has served two terms in the state senate from Umatilla county.

### TO BUY BALL PARK

Nearly 8400 Subscribed With Which To Provide Suitable Grounds.

To provide suitable playing grounds for the Bend ball team a subscription paper has been circulated during the past week and nearly \$400 promised with which to buy and lay out grounds. The present plans of those who are active in the undertaking are to secure a piece of ground in Lytle Acres or near the Bend Hardware Co. warehouse on Ohio street. It is understood that officials of the Oregon Trunk have offered to do everything possible by giving the use of right of way in one of the two localities.

The undertaking will be discussed at a meeting to be held in the Commercial Club rooms on Friday night at 8 o'clock. All subscribers to be fund and others interested are urged to attend and arrange for a permanent organization.

C. C. H. S. DEFEATS BEND 8 TO 6. The Crook county high school nine of Prineville was too strong for the Bend high school lads and won by a score of 8 to 6. Bend's six errors were costly, and despite the 12 hits credited for them Prineville took the long end of the score. Bend's bad inning was in the ninth when Prineville put over four runs.

Summary.

	R	H	E
Bend	6	12	6
C. C. H. S.	8	10	2

Score by Innings.

	1	2	3	4	5	6	7	8	9
Bend	0	0	1	2	0	1	0	0	2
C. C. H. S.	2	0	1	1	0	0	0	4	8

Batteries—Bend: Brandenburg and Hunsell; C. C. H. S.: Noble, Estes and Yancey.

### NEW BOND ISSUE ARRANGED FOR

### KEELER BROTHERS TO ARRANGE DETAIL

Council Prepares For Resubmission of Strahorn Bonding Measure—Orders City Engineer Gould to Prepare New Name Street System.

Preliminary arrangements for a new bond issue with which to purchase terminal property desired for the Oregon, California & Eastern railroad are now in the hands of Keeler Brothers, a well known bonding house, with headquarters in Denver. An agreement under which this is provided for was made between the city council and a representative of the Keeler firm at a meeting of the council on Saturday.

As reported in The Bulletin several weeks ago the recent decision of the supreme court in the case of the city of Roseburg relating to a bond issue for railroad purposes made necessary a resubmission of the bonding question here. In order to be on the safe side and to provide for bonds which any bond house would be prepared to take without further examination and delay it was thought best to obtain the services of some bonding firm in the preparation of the proceedings.

The Keeler firm oversaw the issue of bonds under which the city of Grants Pass began the construction of a railroad and also purchased the bonds when they were placed on the market.

In order to cover possible contingencies the council is arranging for an issue of \$35,000, issuing only so much as is necessary to purchase the terminals desired by Mr. Strahorn.

### To Rename Streets.

At the meeting the council voted to purchase the material needed by the Woman's auxiliary of the Commercial club to make street signs which they plan to erect.

In this connection the council directed City Engineer Gould to prepare a new name system for the streets of the city for use in connection with a proposed house numbering ordinance, the two to prepare the city for the mail delivery now being agitated. As tentatively worked out, Mr. Gould's plan is to give certain streets on the east side of the river names of famous Americans in alphabetical order and on the west side to use the names of American cities. The expectation is that when fully worked out anyone familiar with the system of names and numbers will be able to find a certain number on a certain street without difficulty.

The council also ordered the purchase of a garbage dumping ground.

### INSTITUTE WELL ATTENDED.

The local institute held in Bend last Saturday was well attended by a large number of teachers from Prineville, Redmond, Tumalo and Bend. The principal speakers at the meeting were, H. J. Hockenberry, of Portland, and C. H. Seymour of the Oregon Agricultural college.

### SURVEYORS NOW WORKING EAST

### WILL ALSO EXAMINE LA PINE ROUTE

Certain Difficulties Found on Horse Ridge-Fort Rock Line—Elevation Much Above That of Bend and High Viaducts Are Necessary.

The Oregon, California & Eastern surveying party working southward from Bend towards Silver Lake, after reaching a point about forty miles south of Bend, has moved to the vicinity of Millican from where it is pushing eastward on the Harney valley lines.

Meanwhile, the crew working south from Silver Lake on the Klamath Falls line is near the head of Silver Creek, some ten miles north of Sycan marsh.

This apparently leaves a gap of some twenty miles of the Lakeview line across Fort Rock valley unfinished. When asked about this, Mr. Strahorn said that the difficulties incident to crossing the divide between Bend and Fort Rock on the direct line via the west end of Horse Ridge are found to be greater than anticipated. Besides reaching an elevation of some 1500 feet higher than Bend, it was found necessary to use two long viaducts, each about 100 feet high, to avoid some still more important objections. Also, with the melting of the snow, more expensive rock work was encountered than was revealed by the preliminary surveys.

It has therefore been determined to give more serious consideration to the route via La Pine. This will be done in the immediate future. While this is some six or eight miles longer, the summit between La Pine and Fort Rock is some 300 feet lower than the one on the route just surveyed. This would apparently bring the line into Fort Rock valley near Fremont, leaving Fort Rock several miles to the east of a direct route to Silver Lake. While this more westerly route between Bend and Silver Lake would not serve Fort Rock valley quite as well as the easterly route via Horse Ridge, it would probably tap more good timber and serve almost the entire Deschutes valley south of Bend. A careful study of the map also suggests that if this route is followed it might influence the adoption of the old short line all the way through to Klamath Falls on practically the same route as the Oregon Trunk and Oregon Eastern surveys followed. In that case the Silver Lake-Lakeview line would apparently branch off to the southeast from the vicinity of La Pine, crossing the west end of Fort Rock valley as above.

As Mr. Strahorn has frequently remarked, all these considerations of light grades, ease of construction, saving of distance to reach the most traffic, economy of operation and, in general, the very best way to develop and serve all of Central Oregon will receive most serious and painstaking attention before a shovelful of earth is moved. When this is all done there will yet remain the question of the amounts of assistance rendered

locally in the way of rights of way and subscriptions to finally decide between alternate or rival routes where other considerations are approximately the same.

### YEOMAN LODGE INSTALLED WITH 57 CHARTER MEMBERS

Program and Banquet Given at Initial Meeting Held Last Thursday Evening in Sather's Hall.

The Bend homestead of Brotherhood of American Yeoman was formally installed last Thursday evening by L. N. Klees, district deputy and organizer. The membership enrolled at the first meeting was 57. Following the installation ceremonies a program was given and a sumptuous banquet served. The program included selections by the Peerless orchestra, solo by Mrs. N. F. Reed and a cornet solo by Ashley Forrest. The first business meeting of the homestead will be held on April 27 in Sather's Hall.

The charter members of the Bend order are:

Ross Farnham, Chester J. Catlow, Mrs. Maude Catlow, Chas. W. Erskine, R. M. Smith, N. R. Speck, P. J. White, Dr. G. L. Cousineau, Frank Thornbrue, William Lee, R. F. McLean, C. A. Paul, G. A. Doherty, Theo. R. Morton, C. T. Borders, Harry P. Mantion, Louis Doonar, Wm. Morgan, H. S. Young, E. S. Glazier, Alfred Hansen, S. Sonerudd, B. Henselberg, T. J. Malden, J. A. Brinkley, Jay Blake, Anton Olsen, Thomas Tillman, George C. Carroll, T. G. Biggestaff, J. E. Albright, H. E. Cato, L. M. Richardson, Ralph Lovering, J. Bassett, H. B. Davis, Wm. McKay, Henry Waugh, Raymond Thorson, J. W. Dimick, Mrs. Nellie Dimick, Catherine Logan, Samuel Elder, Mary C. Randolph, Louis Ricks, Mrs. Louis Ricks, Mrs. Allen Cook, H. C. Felton, J. R. Curry, P. W. Nomer, B. Bodine, Dr. J. C. Vandever, Samuel B. Layman, Mrs. Samuel B. Layman, Edward Kelly, Charles E. Haines, F. A. Woelfen.

### BRIDGE WORK DONE

Sidewalk is Unfinished—Boom Across River is Removed.

With the completion of the plank roadway on the new steel bridge last week it became possible for teams to cross and hauling timbers for the fill on the west side began at once. This work has now been finished and the fill on the east side is nearly done, a portion only of the retaining walls being unfinished and the top fill still to be made.

Lumber for the sidewalk on the bridge arrived too late to be placed by the bridge contractor and the sidewalk along the fill is also unfinished, due, it is understood, to lack of funds to pay for the work. The fill on the west side will be made during the summer. In connection with the work the boom which was stretched across the river above the dam has been removed making possible the free passage down river of all floating material and considerably adding to the appearance of the basin.

### PRaise FOR DUFFY

Jefferson County Paper Says Judge Knows His Business.

(Deschutes Valley Tribune.) Judge Duffy held his second term of Circuit Court here last week and dispatched business in a way that was most satisfactory to the taxpayers of the county. The total cost of this term of court was but \$733.29 and there was paid into court in fines the sum of \$225 leaving the actual cost of the entire term at but \$508.29.

This not only speaks well for the citizenship of the county but also shows that the Judge knows how to dispatch business at least expense to the taxpayers. Judge Duffy has made a number of trips to Culver prior to the convening of court so that all cases might be put at issue and no time lost during the term. His action in this particular was largely responsible for the low cost of the term.

### TO CLEAN BRITCHERY.

Under the supervision of District Game Warden C. M. McKay a small crew of men will begin this week on work at the fish hatchery to put it in shape for the coming season. Included in the work to be done will be the thorough cleaning of the brichery itself and cleaning out the ditch which supplies the troughs with water. Several fish ponds will be put in.

### PRINEVILLE GETS BRIDGE.

(The Oregonian.) SALEM, April 17.—(Special.)—Plans and specifications for a reinforced concrete bridge across the Dechen Creek near Prineville, were completed today by the State Highway Department and forwarded to the Crook county court. The estimated cost of the structure is \$3906.

### MUSTER FORCES FOR PARK DAY

### NO WORK, NO EATS SAYS COMMITTEE

Ground Will be Cleared of Rubbish, Benches, Swings and Band Stand Will be Put Up—Merchants and Others Give Liberally for Day.

PROCLAMATION.  
To The Citizens of Bend:  
Arrangements having been made by the Civic Improvement League for the use of a tract of land for park purposes during the coming summer and Thursday, April 20, having been designated as City Park Day on which said tract is to be improved and prepared for use as a city park, I hereby call upon all good citizens to close their places of business on the afternoon of said day and to meet at said tract at the head of Ohio street prepared to assist in the work to be done there.  
J. A. EASTES,  
Mayor of Bend.

When Captain John Smith of the Virginia colony said, "He who does not work shall not eat," he established a most worthy precedent for Bend's park day tomorrow afternoon, for according to the committee in charge of the cleanup, he who does not labor for Bend's park will be excluded from enjoying the evening's refreshments to be served under the direction of the ladies of town.

### To Mobilize Forces.

Mobilization of no less than 200 men, women and children of Bend for a grand smash attack on water tower hill will begin promptly at one o'clock. Munitions are being assembled today in preparation for a four hours' drive. The top of the hill will be razed of loose rock, sapbrush and rubbish. The ground will be thoroughly swept by the invaders of all trash and fire will be kindled to destroy it. Upon the conquered territory carpenters, masons, landscape gardeners, teamsters and a multitude of unskilled laymen will be pressed into service to erect benches, put up swings for children, move the band stand from where it stands near the Bend company office and erect it near the north end of the hill top.

### Work Before Eats.

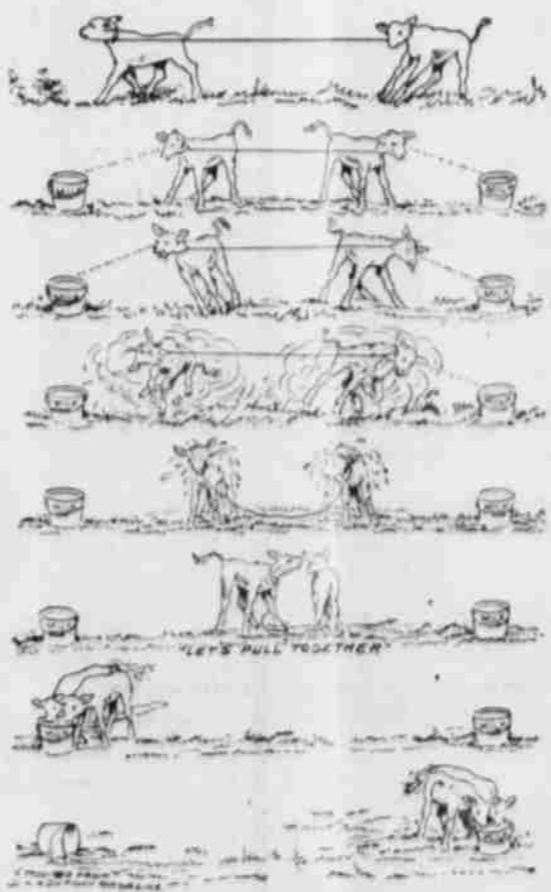

The plans have been laid out by General Harper Skuse for the completion of these details before mess is served to the volunteers. The army will probably be divided into companies and will be detailed to particular duties. Badges of service will be given to the workers entitling them to food when the supper time comes.

Merchants, carpenters, dray companies, landscape gardeners have contributed liberally in materials, labor and the use of their teams for this work. The Bend Hardware Company is contributing the rope for the swings. The Skuse Hardware Company is furnishing the grass seed. J. A. Hazuka, John J. Cunningham and E. P. Brosterhouse will give their own labor and the labor of the men to their employ. Hunter & Straits will make a gift of a sanitary drinking fountain and the Bend Water Light & Power Company will supply the water for it free. The Shevlin-Hixon and the Brooks-Seaton Lumber Company are giving the lumber for the benches and band stand. R. N. Palmerston and the Aune Bros have signified their intention to offer the use of teams for clearing the grounds. C. H. Bishop, a local landscape gardener, will give his own labor and the labor of two of his employees to lay out the grounds for future beautification. The Bulletin is giving the tax judges to be cashed in for "eats" by the workers.

Weather permitting, the picnic lunch will be served on the grounds by the ladies of town, and only those who have worked will be permitted to sit at the mess table.

### HIGH SCHOOL PLAY PLEASED.

The Bend high school play, "A Case of Suspicion," was greeted last Friday night at the Dream Theatre by two full houses, and judging by the applause, the farce was well received. The pupils netted about \$20 which will be devoted toward the purchase of these ball suits for the high school base ball team. The players were coached by Misses Helen Manner and Mabel Lorenson of the high school faculty.

A LESSON IN CO-OPERATION
