

Shearings

Central Oregon Climate.

The climate of Central Oregon is delightful at all seasons of the year but especially attractive just now. With bright sunny days and cool nights the climate is all that could be desired.—Crescent News.

Taxes are Paid.

County Treasurer D. W. Barnett was in town Tuesday and deposited \$25,500 in the Madras State Bank. He also left \$10,000 with the bank at Metolius. This money is the first half of the 1915 taxes. Mr. Barnett stated that about \$10,000 more would be turned over by Sheriff Black by May 1st.—Madras Pioneer.

Club Elects.

A. R. Bowman, Dr. Rosenberg and Fred Holscher are the newly elected directors of the Prineville Commercial Club and with J. H. Upton and E. J. Wilson will form the executive board.—Crescent County Journal.

Prineville Awakes.

And Prineville, too, is awake. She has an irrigation unit project and proposes to take care of the flood waters while waiting the construction of the big dams for the reservoir site. She has five crews of surveyors at work on that irrigation project which was only formed last month. She has voted railroad bonds to construct a branch to a point on the Oregon Trunk near Redmond, with only one opposing ballot, and is making ready to start construction work on her railroad. She is boring wells for artesian water and getting flows. She is on the map for the National Highway from the Columbia river to the California state line, east of the Cascades. All of this has been brought about by get-together meetings.—Silver Lake Leader.

Candidates on Job.

P. B. Polindexter, democratic candidate for nomination for sheriff, Willard H. Wirtz, district attorney, and candidate for re-election on the democratic ticket and county superintendent of schools J. E. Myers, were La Pine visitors from Prineville on Tuesday. Mr. Myers is the Republican candidate for re-election to the office he now holds. The gentlemen were here on business but they carried a good supply of nails and wire to repair broken political fences if necessary.—La Pine Interior-Mountain.

Plan Eugenic Contest.

The Ladies Aid is planning to have a fall exhibit of home grown products and a Eugenic contest. A gold ring will be given to the child, not under six months, nor over two years of age scoring the highest. A prize is also to be given in a domestic science contest.—Fort Rock Times.

Divided on Irrigation.

The people of the North Unit are divided in their opinion as to the advisability of forming an irrigation district. The irrigators firmly believe that they are engaged in a great work; and the formation of a district means great financial success and the building of many homes worth while in the country and great prosperity in the towns. They firmly believe this and many other good things about the results of forming a district. They have a thorough right to their beliefs.—Deschutes Valley Tribune.

It Is.

All kind of improvements and building going on in Bend, but the labor supply is said to be fully equal to the demand.—Jefferson County Record.

Our Bread Basket.

Bend papers are claiming a population of more than 3,000 for their city, and what is more seem to prove the statement. We trust the report is true, as Redmond, having the irrigated farms, must supply the bulk of the feed for these people.—Redmond Spokesman.

Snow Still Deep.

E. R. Storer and Troy Beaver, two young homesteaders in the Crescent country, were at the Hotel Chrisman Saturday night, enroute home after a week's unsuccessful search for bear in the Beaver Marsh and Klamath Marsh sections, says the Silver Lake Leader. Equipped with a pack horse, riding ponies, food, guns and ammunition, they left their homesteads this side of Crescent a week ago Sunday. They first tried to make it to Beaver Marsh by following the north slope of the Walk-r range but snow drifts, 7 feet deep in places, at Corral springs, 15 miles south of Crescent, forced them to double back and go through the pass to Klamath Marsh. They found no sign of bear on the trip but report millions of ducks and geese at the marsh.—Chewaucan Press.

Protect School Children.

Measles, scarlet fever and whooping cough are prevalent among school children in many cities. A common cold never should be neglected as it weakens the system so that it is not in condition to throw off more serious diseases. Foley's Honey and Tar is pleasant to take, acts quickly, contains no opiates. Sold Everywhere.—Adv.

For farm land loans see J. Ryan service.—Adv.

What She Thought.

"Did the burglars upset your house much?"  
"Terribly. When I entered and saw everything upside down my first thought was that Jim had come home unexpectedly and changed his clothes."  
—Detroit Free Press.

Needs.

Husband—Now, then, what are our needs? Wife—Well, the house needs painting, we are all out of kitchen utensils, the dining room rug is thread bare, the bathroom must be decorated, and I've simply had to order some clothes.—Judge.

Also Freedom.

She—I'd like to know what you had before I married you.  
He dejectedly—Well, I had a night key, anyhow.—Boston Transcript.

Hailey's Achievements.

Edmund Hailey was a very great man. He was not only the first to predict correctly the return of a comet, that which is now known by his name, but also—before Newton had announced his results to any one—arrived at the conclusion that the attraction of gravitation probably varied inversely as the square of the distance. While these and other important achievements of his are well known, it seems to have been forgotten that Hailey devised a method of determining the age of the ocean from chemical denudation.

Indifference.

"Which do you prefer, summer or winter?"  
"I've no preference," replied Mr. Grovcher. "It is just as depressing to me whether I put in a large portion of my time reading about the hottest day ever or the coldest day ever."  
—Washington Star.

Heavy Hearts.

Mr. Bacon—There, what did I tell you? This paper says the average man's heart weighs from ten to twelve ounces; the average woman's from eight to ten. Mrs. Bacon—Of course men's hearts weigh more. They are a good deal harder.—Youkers Statesman.

Thorough Understanding.

"I presume you understand an auto thoroughly?"  
"Thoroughly—that is, I know when it won't run there is something the matter with it."  
—Detroit Free Press.

Four chairs at your service at the Metropolitan. No waiting.—Adv.

Information for Women.

Housework is trying on health and strength. Women are as inclined to kidney and bladder trouble as men. Aching back, sore joints and muscles, blurred vision, puffiness under eyes, should be given prompt attention. Foley Kidney Pills restore healthy action to irritated kidneys and bladder. Sold Everywhere. Adv.

LODGE DIRECTORY

THE ROCK DRILLER DRILLS THE GOOD JUDGE

IT'S a glad day for a tobacco chewer when he finds I-W-B CUT Chewing—the Real Tobacco Chew, new cut, long shred.  
Knowing how much it means to his comfort, a man takes pleasure in telling his friends about it, too.  
You don't have to grind it away. The taste lasts.  
"Notice how the salt brings out the rich tobacco taste."  
Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

England's Oldest Borough.

As Salisbury is well known as Sarum, so is England's oldest borough, Barnstaple, as Barum, which may have been the Roman name of the town. According to old memorials, "the old name of the town was Abertawe, because it stood toward the mouth of Taw river." The Saxons changed it to Berdenstaple. Barnstaple appears to have been represented in the Witenagemot or Anglo-Saxon parliament. Thus it is one of the oldest boroughs, if not absolutely the oldest, in the kingdom. Its broadcloth manufacture, once an important industry, has now died out, but there are manufacturers of lace and gloves, large cabinet works, tanneries and potteries (Barum ware).—London Globe.

Study of Synonyms.

Little Dulcie was asked by her teacher to define the word "whimsical." "It means 'odd,'" she replied. "And now," the teacher went on, "please write a sentence containing the word properly used."

Hesitatingly the little ten-year-old took up a pen and after a moment's thought wrote, "There are two kinds of numbers—whimsical and even."
