

PAISLEY FOLKS READY TO WORK

STRAHORN ARRANGES FOR RIGHT OF WAY

Line to Be Near Town—25 Per Cent
of Cost of Road to be Sought
From Towns—Commercial Club
Expects Deeds From All

(Chevascan Press.)

Robert E. Strahorn, president of the Oregon, California & Eastern, who was in Paisley last Thursday, addressed an audience of Paisley citizens that afternoon upon the right of way question and other allied subjects.

He stated at that time that the directors of the road had definitely decided upon the center route as the one best suited to the interests of the road to the people of Paisley. The route will cost approximately \$11,000 more than the outside line, but will place the station about one mile closer to the present business center of our city. This additional cost is not to be directly assessed against Paisley as had at one time been anticipated, but will be added to the general cost of construction.

A plan will be worked out later by those having the financial work in charge whereby 25 per cent of the cost of construction will be assessed against the different communities through which the road will pass and Portland, according to their ability to pay and it will then be expected that the different communities will take care of this sum, whatever it is.

The terminal grounds at Paisley will be a strip 1000 feet long by 250 feet in width starting 500 feet south of Lovers Lane and extending from there northward 1500 feet, amounting to approximately eleven and one half acres. The town of Paisley and this community have been asked to provide this together with a right of way one hundred feet in width along the survey stakes from the place the survey enters the lands of the Chevascan Land & Cattle Company to the north end of Summer Lake. The railroad people will look after the right of way through the lands of the cattle company.

The right of way deeds read that if a railroad is not built over the

land in two years from the time a continuous right of way is granted to the company from Bend to Lakeview then the land shall revert to the original owners. It is therefore imperative that this right of way be secured as soon as possible as the sooner it is gotten the sooner the construction work will necessarily begin.

The work as mapped out for the Paisley Commercial Club is not very difficult and their share of the business should be done within a few weeks. No opposition is anticipated and it is believed that none will be encountered in their work. However, should it become necessary to condemn any land in order to secure the deed thereon Mr. Strahorn has promised that the company will handle the suit and provide all legal talent necessary so that in this manner a great burden is removed from the shoulders of the local people. The amount of deeded land in the strip given us to secure will not exceed ten miles, the most of it being at the north end of Summer Lake. The right of way across the Carey Act lands north of Paisley will be provided for by the Northwest Townsite Company.

Mr. Strahorn also announced that the shops for the line would be located at Bend.

The plats of the line will arrive within about one week and at that time those having lands across which the line runs will be tendered a blank deed by the Paisley Commercial Club and it is believed that immediately every deed will be returned at once signed.

After the meeting here, Mr. Strahorn and Chief Engineer Bogue left for Lakeview and from there will return to Bend via Klamath Falls.

ONE CENT A WORD is all a little Want Ad will cost you.

SILCO FACTS TOLD.

The latest press bulletin from the Oregon Agricultural College is devoted entirely to the construction of silos. Any of the farmers of this section who wish details may obtain them by writing to the college.

EXTERMINATING COYOTES.

(Redmond Spokesman.)
A note from R. A. Ward, biological assistant, now at Winnemucca, Nevada, tells us that the work of coyote eradication is now in full swing with 100 hunters in the field and fifty more to be employed. More than two tons of skins have already been shipped. Livestock and other associations are co-operating and feel convinced that the proper method is now being employed and is far superior to the ancient bounty system.

In order to aid the farmer the Bend Flour Mill Co. has this year obtained Apex Land Plaster, a scientific fertilizer.—Adv.

How to Live Long

Rules reprinted by permission of Metropolitan Life Insurance Company from booklet issued by it.

AIR, RULE 4.

Have Lots of Fresh Air Where You Sleep.

Some people do not have the chance to work or play in the open air or to get fresh air in their workrooms. But at night it is different. We spend a third of our time in bed, and while we are asleep we can get plenty of fresh air.

You should always have all the windows in your bedrooms wide open. The night air will not hurt you. It is good for you. If you breathe good air all night, you will feel more rested in the morning and better able to do your work.

If possible sleep out of doors, but have plenty of night clothes and bed clothes to keep you warm.

If there are mosquitoes or flies, hang a piece of light mosquito netting over the bed.

FIRE AT SISTERS.

(Jefferson County Record.)
On Wednesday evening of last week the home of E. L. Spoo, at Sisters was entirely destroyed by fire and many other buildings of the town were seriously endangered on account of the high wind. On the evening of the fire Mr. and Mrs. Spoo and the baby had gone to the country to spend the evening with friends. During their absence the fire broke out and everything was destroyed. The house was one recently built by Mr. Spoo, being completed only two days before the fire, and there being no insurance on the property it was a total loss. Only the efforts of some of the residents of Sisters saved the church and school house from going a similar way. The cause of the fire is unknown.

"They're all trying Fatimas"

Fatimas have always been mighty popular in this town.

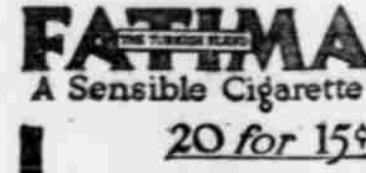

But lately, since we've been telling smokers how SENSIBLE they are, Fatima sales have been jumping every day.

Nearly everybody seems to be trying them. Everybody wants a "sensible" cigarette—one that is COOL to the throat and tongue and free from other effects.

Fatima isn't the only sensible cigarette—but no other sensible one seems to please so many men's tastes.

More Fatimas are sold than any other cigarette costing over 5c. Today's the day you should try them.

Special Agent

She Told Her Neighbor.

"I told a neighbor whose child had croup about Foley's Honey and Tar," writes Mrs. Rehkamp, 4494 Herman street, Covington, Ky. "When she gave it a couple of doses she was so pleased with the change she didn't know what to say." This reliable remedy helps coughs, colds, croup and whooping cough. Sold everywhere.—Adv.
