WHY THE BEST OF CHEWS IS "SPEAR HEAD"
Its Rich, Sweet, Mellow Flavor Has Been Famous for a Generation
MADE OF CHOICEST RED BURLEY

The secret of tobacco satisfaction is known only to the man who chews *plug tobacco*. The reason is that a good chew gets right next to your taste, while the leaf in *plug tobacco* is in a state of fresh, juicy richness that is not possible in any other form of tobacco.

There's no tobacco in the world that can give you the hearty, wholesome flavor that you get from a delicious chew of Spear Head.

Spear Head is made exclusively of ripe, red Kentucky Burley—the most richly-flavored chewing tobacco that grows. Still more, only the very choicest red Burley leaf is used for Spear Head.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter, and is pressed into Spear Head plugs so slowly that not a drop of juice or an atom of the natural flavor escapes.

Try Spear Head, and you'll get a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco. In 10c cuts, wrapped in wax paper.

SELLING DEAD LETTERS.
One Postoffice Custom That Teaches a Moral Lesson.

Twice a year in Washington they hold a curious auction. It is called the dead letter sale, but in reality it is the sale of packages that have been sent to the dead letter office because of deficient postage or wrong directions.

After these packages have been held for a certain length of time, in order to give senders or owners an opportunity to claim them, they are sold at public auction.

It is often a strange and pathetic collection. Most of the articles are cheap enough, although valuable things are not lacking. But who can estimate the intrinsic value of some of those lost gifts—the time and sacrifice and love they respect? How many lives were robbed of a happiness that rightfully belonged to them because of the sender's carelessness or ignorance?

Is there not a parable lurking somewhere about this strange auction? How many lives are there today that hold the possibility of gifts for other lives, yet through carelessness or ignorance or indifference are robbing both themselves and others and are carelessly making "dead letters" of gifts for which eager eyes and hearts are longing?

There is no sale of these dead gifts. No one has any chance at them. They are doubly lost—lost to the one who should have used them and to the world that needs them. What a pitiful waste of power and joy!—Baltimore American.
