

Shearings

Paisley Got It, Too.
Several inches of snow fell in Paisley last Tuesday and while the cold weather was disagreeable it is thought that nothing was injured and the great amount of moisture which fell in the form of snow and rain will be a great benefit to crops.—Crescent Press.

Unexpected.
The nomination of both Mr. Burdick and Mr. Forbes as representatives from this district is a circumstance that no voter hoped for and not even these men themselves wanted. The question now is, what will the Klamath and Lake county voters think and do about it.—Creek County Journal.

A Good Road to Follow.
Several cars have come to Silver Lake the past week via Chiloquin. They take what is called the "high land road" near Skellog's ranch which comes in at the bridge on Williams river, above the Ball ranch. The road goes around all the inlets to Klamath Marsh on the east side, between the two points mentioned.—Silver Lake Leader.

Rabbits Still Plenty.
It was hoped by the farmers that the severe winter killed off the greater portion of the jack rabbits, but it now appears that the new crop of young ones promises to be as great a nuisance this summer and fall as they did last year.—Fort Rock Times.

Impressed by Metolius.
Harry J. Chenoweth of Grandview, president of the Suttles Lake Irrigation District, was a business visitor in Metolius on Monday, looking up matters in connection with the supplies which will be used later in the irrigation construction. In an interview, Mr. Chenoweth expressed himself as very favorably impressed with the advantages of Metolius for that purpose, the yard and track facilities being ample, and the connecting roads being in good condition, especially when the road has been opened up to connect with the newly constructed grade.—Jefferson County Record.

Surveyors Inspect Line.
Railway engineers of the Oregon Trunk and O-W. R. & N. were here on Monday to inspect the proposed line between here and Prineville. It is understood they will recommend that the road be built along the south side of Crooked river, leaving the valley at a point near O'Neil hill. It is expected that construction work will begin during the coming month.—Redmond Spokesman.

Good Rains.
Good gold dollars fell in the form of rain this week, and the process still continues. The grain crop, although suffering in some instances from wire worms on account of the cool weather, is appearing generally fine, with all indications now for a splendid crop. The acreage is somewhat less than last year. Barring frost or other casualty, the crop should be splendid this season and with price indications the wheat farmer should win out this season.—Deschutes Valley Tribune.

Hotel Changes Hands.
The Madras Hotel this week changed hands, W. C. Moore, who has conducted this popular hostelry for the past five years, turning over the management to Mrs. J. F. Magee, who for so long and successfully catered to the wants of the public in the Shaniko and Columbia Southern hotels at Shaniko. Mrs. Magee and two children arrived the first of the week and took possession on Tuesday. Mr. Magee arrived Tuesday evening.—Madras Pioneer.

Spawning Season Over.
The spawning season at Davis lake closed Sunday at noon. The run was short this year, but very satisfactory, having received over half a million eggs. The run at Odell and Crescent lakes has not reached its best on account of so much snow and ice, making it too cold for the fish to begin spawning.—Crescent News.

Should Attend Town School.
Efforts are being made by a few of the newcomers along Little ranch to re-establish the district school near Masten's Mill. Inasmuch as the district has done away with the little country school houses and has employed a corps of unusually efficient teachers in the new \$10,000 school building in town and is furnishing transportation for the children from the country, it is hardly possible that one or two families who pay no taxes will be permitted to dictate the policy of the school board in maintaining little schools.—La Pine Inter-Mountain.

And Crescent.
The weather man has broken all previous records during the past week, with rain, snow and frost alternating every day.—Crescent News.

For farm land loans see J. Ryan service.—Adv.

MARKET REPORT.
NORTH PORTLAND, May 2.—The cattle receipts were very light, only 494 head being on the market. This consisted mostly of California grass stuff, a feature of the receipts was the beginning of the Mexican steer run for the season, they sold well at \$8, the balance being native of very poor grade. The top price reached today was \$8.50 for grass fed steers, the bulk going at \$8 to \$8.25, some of the poorer class of steers sold at \$7.90. Cows were very scarce, also heifers and bulls, no change in price. There was a falling off in calf receipts this week, but prices were unchanged. A large run of hogs was received, approximately 5000 being placed on the market. The top price reached was \$8.85, the bulk going at \$8.65 to \$8.75. Market closed rather weak. A fair run of sheep was received this week and placed on the market. Lambs are now selling at \$9, wethers reached a top price of \$8.25, bulk selling at old rates, no change in ewes, very few being received.

THE OLD CHEWER KNOWS THE WORTH OF THE REAL TOBACCO CHEW

AS AN OLD TIMER, HOW DOES IT GO?

I GET MORE SATISFACTION AND ONE SMALL CHEW TAKES THE PLACE OF TWO CHEWS OF THE OLD KIND—SEE

WHAT'S the good of a tobacco that makes you take a big wad and grind and grind on it? W-B CUT Chewing—the Real Tobacco Chew, see cut, long shred—gives you real tobacco satisfaction from a small chew. That's why men are glad to get it and to pass the good word along to every man who chews. Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

Protect the Baby And Your Food

STORES which sell meat, groceries or fruit should not tolerate flies. Fighting them is difficult, but conscientious attempts should be made to keep these disease bearing insects away from human food, the same conscientious efforts that are made by a mother to keep flies from the baby and its milk bottle. Every possible means should be employed to exclude flies from creameries.

NEW PERFECTION OIL COOK-STOVE

No coal, wood or ashes to lug—no waiting for the fire to burn up. Better cooking because of the steady, evenly-distributed heat, under perfect control. All heat concentrated on the cooking and not radiated around the room. The long, blue chimneys prevent all smoke and smell. Bakes, boils, roasts, toasts. More efficient than your wood or coal stove and costs less to operate. ASK YOUR DEALER TODAY. **STANDARD OIL COMPANY** (California) Bend

For Best Results Use Pearl Oil

Better cooking and a cleaner, cooler kitchen. Now serving 2,000,000 homes

In 1, 2, 3 and 4-burner sizes, with or without oven. Also cabinet models with fireless cooking ovens.
