

MILL TEAM WINS 3 TO 2 BATTLE

FANS GET TASTE OF GOOD BALL

Shevlin-Hixon Nine, With Strong Lineup, Shows Class—All Town Team Has Been Suggested to Work Against Outsiders.

It is evident from last Sunday's Shevlin-Hixon 3 to 2 victory over the Bend nine that the Bend fans will not have to resort entirely to foreign climes for good base ball. Although Bend held the millites to three runs, the Shevlin nine, as it worked on the diamond last Sunday, has a wider margin on the local town team than one score. To put it conservatively the mill team is better than the Bend team by three to five scores.

However, Bend's usual disastrous first inning had much to do with its Sunday trimming. Bollen was the first man up for the Shevlin-Hixon nine and was walked by Clow. He stole both second and third and came in on Lind's single. Lind also stole second and third and came in on O'Donnell's nuff from Stover. This curtain raiser performance gave the Shevlin aggregation two thirds of its scores in the first inning. The mill team did not score again until the fourth. Knutson came up for a single, stole second and went to third on Clow's wild pitch and home on Steidl's wild throw to home plate. It is quite clear to the peruser of the above that Bend rather handed these three scores to the timbermen.

Bend scored scoreless until the sixth inning. Horton came up and went to first on Jozelle's overthrow which advanced him to third and came home on Baker's overthrow to the plate. In the seventh Lynch went out, Watson to Bollen. Stover came up and hung a single on Watson, went second and third on Baker's overthrow and stole home. Bend's chance to put over a winning run came in the eighth inning. Horton got a single and stole second and third. Tetherow struck out. Kulp went first on Anderson's error and stole second. O'Donnell went first on Anderson's boot, putting Horton on third. Kulp on second and O'Donnell on first. Lynch flew to Knutson and Stover flew to Houston.

The game was as good base ball as the Bend fans will hope to see on the local diamond. Watson, new material, pitching for the Shevlin team, twirled good ball, keeping his five hits well scattered and striking out seven Bendites when strikeouts were needed. He has a wicked drop and out drop that had some of the best ones on the Bend team guessing. He does not work particularly hard except in the head and he makes that count. The mill infield looked like new, in fact it was practically all new. Bollen on first and Houston on second makes a hard combination to get by. Baker was off color as indicated by the error column.

Lind, Houston and Knutson make a dangerous combination with the stick. With Lind or Houston on and Knutson at the bat the fielders begin a retreat.

Clow, in the box for Bend, worked like a demon all the game. There was no counting the foul balls, but they were more than usual, which indicates that Clow's fast ball was hard to connect with in due time. The La Pine 17 year old allowed the mill team only four hits and struck out four men. He was touched up frequently, but handled himself well in his position. The Bend infield displayed more spark than in the recent Prineville game. Clow's two walks in the first inning were bad business and were largely responsible for the mill team's victory.

All indications point to some keen base ball this summer between the local aggregations and just a little co-operation between the captains and managers of the two teams when a foreign team invades or the local blue migrates, by picking the strongest of the two teams, the percentage of wins for Bend ought to be materially boosted in the next two months.

All Town Team Suggested. It was suggested that picking an all star Bend nine from the two teams might be apropos. Following the suggestion it might look a little like this:

O'Donnell, catcher; Tetherow, Watson and Clow, pitchers; Bollen, first base; Houston, second base; Stover, third base; Horton, short stop; Lind, left field; Knutson, center field; Kulp, right field. Now for a few qualifications. O'Donnell, when working good has it on Boselle. His peg is surer and he hits better. Watson, Clow and Tetherow would give any semi-professional team in these parts a go. There would be plenty of variety, spitters, speeders and curves. Bollen, did not show up strong with the stick in Sunday's game, but he certainly fields his post. He is not as sure with his peg

as Steidl, but is faster and more certain in handling the ball on the sack. Houston would make a better man on second sack than Stover because he knows the game through and through and would be of potential value in coaching. He hits in good shape and worries a pitcher. Stover is an infield man and he would handle the ball at third equally as well as he does at second. Stover is liable to pluck a needed hit anytime and displays lots of "pep" in his position and on bases. Horton is clearly the best man for shortstop. He fields his position, takes lots of chances, is fast on bases, has a good arm peg and is good with the stick. Although Knutson and Lind are new men, they showed up well in Sunday's game. They both cover much ground and are good with the stick and dangerous on bases. Kulp is an head at the game and is sure in the field. He is handicapped on bases, but is dangerous with the stick. Gates is a new man, but he would probably work well with more chances than he received last Sunday. Houston knows the game probably better than any man in the field and with him to shoot a little pep into the team, Bend, with the above suggested lineup, ought to make it a clean slate for the remainder of the season.

The lineup of Sunday's game was as follows:

BEND—	AB	R	H	E	PO	A
Horton, ss	3	1	1	1	3	1
Tetherow, lf	4	0	0	0	0	0
Kulp, cf	3	0	0	0	0	0

HAY IN DEMAND.
(By A. E. LOVETT.)

I have received a letter from the county agriculturist of Tillamook county stating that the farmers in that section would want to purchase at least 1000 tons of good alfalfa hay this fall, and asking me if the farmers of Crook county could not furnish this hay. If the alfalfa growers of this section are interested in undertaking such a proposition I suggest that they get together at once and make plans for supplying this demand. We should determine as early as possible whether or not we can furnish it. If interested please let me know at an early date. In supplying any market with hay or any other product it is necessary that we get together and supply a uniform first class article. We can do it in Crook county if we will.

No waiting at the Metropolitan for that shave or hair cut. Four chairs now ready.—Adv.
