Strahorn Visits Fort Rock.
Robert Strahorn and party who are touring Central Oregon arrived in Fort Rock Wednesday afternoon. Mr. Strahorn, accompanied by C. S. Hudson, president of the First National Bank of Bend, made this office a pleasant call. Mr. Strahorn did not make any statement regarding railroad development, farther than to state that everything was coming along nicely and prospects very bright for the future. Mr. Strahorn turned the printer's trade when a boy in the days when the old Washington hand press was in vogue. He says whenever he passes a country newspaper office he always wants to go in and set a stick of type. Mr. Hudson reports business good in Bend and that the employees of the bank are kept on the jump in order to keep pace with the growing business of the institution.

Growth at Grandview.
We have had such an excellent season the wheat and rye are growing so fast they are trying to push the fences down around the fields. Vegetables are fine and potatoes are raising the top of the ground.—Deschutes Valley Tribune.

Coyote Thought Rabid.
Considerable excitement was caused Saturday when a coyote walked into the yard of J. T. Rhoton who lives northeast of Fleetwood. Mrs. Chas. Erdman with her two children, was at the Rhoton home visiting. Clarence, the older one, was in the yard near the kitchen door playing. A noise was heard from the chickens and on looking out doors a coyote was seen standing near the baby. The family dog entered the scene about this time and the two engaged in a fight. Mr. Rhoton seized his rifle and shot both dog and coyote. Mrs. Erdman had planned on visiting several days with the Rhoton family, but the shock proved to be too much for her and she returned in the afternoon. The greatest wonder is that the child was not bitten as it was not more than ten feet from the coyote. The head was taken off the animal and sent away for examination. No doubt the animal was affected with rabies.—Fort Rock Times.

Foreed to Cut Size.
Owing to the extreme advances in the price of paper and other materials used in making up a newspaper we are at last compelled to follow the lead of other small weeklies and cut the size of the Chewaucan Press. We have contemplated this move for the past six months but have conducted the paper at a loss rather than make the change believing that sooner or later conditions would change so that the former size could be continued. However, the price of material has continued to rise and therefore this step is taken. We hope these conditions will exist for only a short time so that we can soon go back to the regular size. However we have so arranged the paper that but little is lost in its reading matter, and the local field will be covered as thoroughly as ever.—Chewaucan Press.

Hotels Given Good Score.
A. E. Valley, an employee of the Dairy and Food Commissioner's office at Salem, was a visitor in Silver Lake last week investigating the hotels of this place. Both hotels were given a very good score.—Silver Lake Leader.

Law Not Yet Operative.
Regarding the new bill which has passed Congress, relative to the 20-mile limit for additional homestead entries, and about which many inquiries have been made at this office, we will state for the information of those interested, that the Land Office at The Dalles has not as yet been officially advised as to when the law will become operative. The different U. S. Commissioners will be duly notified at what time filings under the new law will be accepted.—Medras Pioneer.

Tracks But No Bear.
Wm. Vandeventer and party have returned from their bear hunt at Sellers Marsh. Mr. Vandeventer reports seeing lots of tracks but no bear. He and party are making preparations to try another part of the country.—La Pine Inter-Mountain.

Invites Discussion.
The Record, with a desire to open the way for the full and free discussion of the county seat question and the consideration that should govern in its selection at the fall election, will throw open its columns from this issue on for that purpose. Articles are invited from residents of the county generally, expressing the writer's views on the subject, and what they consider the advantages or disadvantages of the various points that are contending for the location.—Jefferson County Record.

Perjury Charged.
E. B. Holman was arrested last week upon an information issued from the district attorney's office in connection with the receipt by Holman of a shipment of beer at Redmond on the 30th day of June. In order to procure a shipment of whis-

key, beer or other intoxicating liquors under the present laws it is necessary for the consignee to make oath before the agent of the common carrier delivering the shipment that he is not a habitual drunkard. District Attorney Wirtz says that scores of witnesses can be found in Prineville who will testify that it has been Holman's prerogative for many years to get drunk whenever he could get the intoxicants in sufficient quantities. Holman has been drunk since receiving the beer.—Crook County Journal.

Library is Popular.
The Redmond Public Library is one of the popular places of the town and by their good management and interest the ladies are building up an institution that we are all proud of. From a small beginning the library has grown to one of many hundreds of volumes comprising the best in literature, history, fiction, science, etc. An order has just been sent out for a large number of new books. The public is welcome to these books at all times.—Redmond Spokesman.

Sheep are Listed.
During the summer months many bands of sheep are brought from their winter range on the low desert along the Columbia river to graze among the hills and valleys of the Cascade range of mountains to the south and west of Crescent where feed is abundant and where the range is amply protected by the Forest Department by preventing over grazing and limiting the area of each band. This season has been an exceptionally good one for pasture and the sheep men have taken advantage of it to the limit, nearly 30,000 head of sheep having been counted in to the forest through the local forest office this year. Among the large owners are: N. Williamson with 6,020 head; Mike Anglin 1807 head; S. W. Yancy 1957 head; W. J. Jamison 3851 head; Dan Anglin estate 1521 head; R. Profeley 4166 head; Barry & Ahearn 2350 head; Carl Harrigan 2300 head and McCullough with 3500 head.—Crescent News.

SURVEY NEARS KLAMATH
Party Moves Camp and Will Finish in Two Weeks.
(Oregon Journal.)

KLAMATH FALLS, July 28.—The last lap of preliminary work of the proposed Strahorn railroad connecting the Great Northern at Bend in Crook county, the O.-W. R. & N. extension from Vale in Harney county, the narrow gauge from Alturas at Lakeview in Lake county and the Southern Pacific at Klamath Falls in Klamath county, is all but completed.

The surveying party has moved camp from Hildebrand in Yonka valley to Olene in Poe valley, 10 miles from this city. It is expected that all work will be completed within the next two weeks and by that time Robert E. Strahorn now touring somewhere in eastern Oregon will be present with a tangible proposition for the people regarding the co-operative road which he proposes to construct. Enthusiasm along the entire route by the substantial men indicates satisfactory co-operation.

EXTENDED AGAIN
Land Board Will Wait Longer For Jason to Come Through.
(Oregon Journal.)

SALEM, July 26.—Following the reading of a letter from Jason C. Moore, to C. A. Sheppard, his Portland attorney, in which the promoter stated that he has arranged to get \$100,000 for the development of Summer and Abert lakes and to pay \$15,000 to the state on his bond, and also \$400,000 more to have on hand when needed, the state land board Tuesday decided to await developments.

The posting of \$15,000 to complete the bond has been long delayed. In his letter Moore said the company was a little fearful that it might be impossible to get machinery for some time owing to the fact that manufacturers were so busy making munitions of war.

MARKET REPORT.
NORTH PORTLAND, Aug. 1.—With another heavy offering of cattle yesterday, the market was extremely slow. Prime steers were as much as 25 to 50 cents lower. Top steers sold at \$7.50 which would have easily brought \$8 a week ago. Very good steers sold at \$6.75 to \$7. Bulk of steers went around \$6.50. Te medium and fair grades sold steady with a week ago. The most of this class went \$5 to \$6.50. Cows as a rule sold at about the same low. A few sold for \$5.50 but the most of prime cows went \$5 to \$5.15. Bulk of cows sold around \$4 to \$4.50. Bulls sold steady to a shade higher with last week. Best bulls realized \$4.75 against a top of \$4.50 last week. Calves were steady with a \$7.50 top. The hog market showed another sharp advance yesterday when prices were 20 to 30 cents over last week close. There was but a light run and buyers were eager. Tops sold at \$9.35 with the bulk selling \$9.25 and \$9.30. There was a good demand for all sheep offerings at steady prices yesterday. Choice lambs sold at \$8.25 with culls going at \$5.50 to \$6. Yearlings selling \$6 and \$6.25 and ewes at \$5.00.

THE GOOD JUDGE'S KINDNESS IS REWARDED AT THE CAFE.

WHAT'S UR CAPTAIN?

JUDGE, THE PROPRIETOR VERY MUCH APPRECIATES YOU TELLING HIM ABOUT WE TOBACCO MERCHANTS ASKING THAT YOU DINE TODAY AT HIS EXPENSE.

ONE good turn deserves another—one good chew of W-B CUT Chewing gives a man the tobacco satisfaction he's been seeking for years. A good chew of W-B CUT, long shred, means a small chew. The salt seasoning brings out the rich tobacco flavor without grinding and spitting—that's what makes it a gentleman's chew. Get a 10c pouch at any business-like dealer's. Give W-B CUT the quality test—and learn the biggest surprise of your tobacco experience. Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

SURVEY WILL EXAMINE LAKE COUNTY NITRATE DEPOSITS
Following Visit of State Land Board Sinnott is Notified Investigation Will Be Made by Government.
(Lakeview Examiner.)
Congressman N. J. Sinnott has been notified by the director of the geological survey that the examination of the reported nitrate deposits in Lake county will be listed among the investigations to be made by the survey this season. Mr. Sinnott has urged both the war department and the geological survey to investigate and report upon the nitrates. It is claimed that there are large deposits of the nitrate in the eastern part of the county, which are of very high grade. Samples brought to Lakeview will burn when a coal is applied to them. A number of the local people have done considerable prospecting in that section of the county and many claims have been staked out. It was also reported that a discovery of some of the nitrate was made in this valley, which ran about 15 per cent pure. The State Land Board visited some of the deposits in Harney county a week ago and investigations made there showed that the nitrate was there in almost unlimited quantities and was of very good quality. Should the nitrate prove to be of commercial value it will be another big industry for Lake county. The mineral is used in the manufacture of gunpowder and with the present European war, it is almost impossible for the United States to secure the nitrate.
