PINE MEN ARE HERE IN FORCE

OVER FIFTY ARRIVE THIS MORNING

Forenoon Spent at Mills—Business Meetings Being Held This Afternoon—Tomorrow to Take Timber Trip Ending With Dinner

Over 50 members of the Western Pine Manufacturers Association arrived in Bend this morning to attend the quarterly meeting of the association and incidentally to inspect the new saw mills and view the fastest growing town in the northwest.

Travelling in three standard sleepers the visitors came in on the morning train and proceeded to the Wright hotel for breakfast. Following this they were taken to the mills and spent the forenoon in going over them from one end to the other. At 1:15 they gathered at the Shevlin town boarding camp for a "meal of vittles" and this afternoon they are in business session at the Emblem Club, which has been thrown open to them during their stay.

The visitors will be the guests of the Commercial Club at a dinner at the Pilot Butte Hotel this evening, after which a dance will be held at the Emblem Club. The Hoo Hoo concatenation, originally planned for this evening, is being held this afternoon following the business meeting.

Tomorrow the program includes a visit to the Brooks-Scanlon logging operations with luncheon at the Brooks camp, then a tour through the timber by way of Lava Butte and Spring river to the Shevlin operations. Their stay will conclude with a dinner given by the Emblem Club tomorrow night.

The visiting party is made up of the following:

YOUTHFUL TRIO ARRESTED ON CHARGE OF BURGLARY

Long Prairie Ranger Station Entered—Boys Now Held For Trial Before Grand Jury.

Joel Johnson, Burnham Coe, and Carl Wacker, all minors were arrested on Friday by J. H. Haner, of Bend, charged with burglarizing the Long Prairie Ranger Station near Crescent. The boys were brought to Bend and tried before Judge J. A. Eastes and bound over to the grand jury. Wacker is held as a witness. It is understood by the officers that the trio have been in the Idaho industrial school at St. Anthony, Idaho. Johnson and Wacker are out on parole while it is understood Coe escaped a little more than a month ago. The boys came here to work but left shortly after their arrival, for Klamath Falls.

McKENZIE PASS OPEN.

Guy T. Ketcheson, and a party of friends from Portland, arrived here late Friday night being the first autoists to come from the Willamette valley by way of the McKenzie pass this year. According to Mr. Ketcheson, the pass is now open except for four snow drifts. His car passed over three of these successfully but became stuck in the fourth and he had to obtain aid from a camper in the neighborhood who was traveling with a team. After trying the fishing in this vicinity Mr. Ketcheson planned to return to Portland by way of The Dalles and the Columbia highway.

ROCK CRUSHER IS PURCHASED

AT LEAST COUNCILMEN SAY SO

Discussion Concerning Proposed Investment Occupies Much Time at Last Night's Meeting—Electric Sign Ordinance Introduced.

If anyone thinks that the purchase of a rock crusher by the city is a dead issue he should have been at the council meeting last night. It there appeared, according to statements made by one of the council who favored the purchase, that the contract which had been signed by four members of the council, was valid and that the crusher would be delivered to the city about the middle of September.

The matter had an airing at last night's meeting because Councilman McKay, who was out of town when the matter first came up, started out to discover the whys and wherefores of the purchase, initiating a discussion that lasted over an hour.

Mr. McKay was opposed to the purchase, taking the stand that if a crusher were needed, the county machine could be borrowed. Councilman Steidl, who has taken considerable interest in the matter, took the view that in the long run the purchase of the crusher would result in a saving to the city. To borrow the county rock crusher, he held, would undoubtedly be costly to the city in moving it to and from the city. Mr. Steidl also held that cinders, for the city streets, are not proving satisfactory and that crushed rock will be much superior.

An ordinance governing the height of electric signs above the streets and also the manner in which they shall be hung was read for the first time. If the ordinance passes the owners of electric signs will not be compelled to change them for a year. The council is to investigate the matter of signs and take more definite action relative to the provisions of the ordinance at the next meeting.

According to the treasurer's report the balance on hand in the general fund for the month ending July 31, was \$459.86. The receipts for the month of July were \$1,843.39.

The bills ordered paid in registered warrants were as follows:

BEND MAN APPOINTED.

Harvey H. De Armond, of Bend, was honored at the convention of the Knights of Pythias in Portland last week, by the appointment to the committee on rules of the grand lodge.

PROPOSED LINES OF THE OREGON, CALIFORNIA & EASTERN.

BEND VOTES ON BONDS TO BUY TERMINALS NEXT TUESDAY.

CITY ELECTION COMES TUESDAY

TO VOTE ON CHARTER AMENDMENTS

One Authorizes Bonding to Buy Terminals for Strahorn Roads, Other For District Improvements—Limits, Also Comes Up.

One of the most important elections ever held in the city will take place on Tuesday, the 15th, when the people will vote on an amendment to the city charter authorizing a bond issue for the purpose of purchasing the property desired by Robert E. Strahorn for the terminals for the Oregon, California & Eastern. At the same time they will vote on an amendment authorizing the bonding of districts for street and sewer improvements and on the question of bringing into the city all the surrounding platted districts. The first two measures are before the people by reference from the city council, and the last, on petition.

The first two measures were voted on in February and both carried by large majorities but because of irregularities in the preliminary proceedings it was found necessary to resubmit them to the people.

To avoid any further irregularity, and to insure having a bonding house ready to take the issue when voted by the city the firm of Keeler Brothers was employed to prepare all papers for the city, an arrangement to this end having been made with their representative last spring.

Pamphlets containing the two charter amendments, as prepared by Keeler Brothers, were distributed last week by City Recorder Ellis, as provided by law and are now in the hands of all voters.

Cheney Makes Donation.

The property to be acquired adjoins the present Oregon Trunk right of way beginning at the ball grounds and running south, the owners being The Bend Company, Cascade Realty Co., Terminal addition owners, and acre tract owners southeast of the city. Everything owned by W. D. Cheney, or the Bend Park Co., which is wanted, is being donated by Mr. Cheney who has made a number of purchases and exchanges to obtain desired lots.

The bond issue has been set at \$35,000 by the council, instead of \$30,000 as was the case in February, in order to be on the safe side and have plenty of funds to make the purchases, only so much of the \$35,000 to be issued as is needed.

As stated by Mr. Strahorn in February the property which he desires is to be used for terminal purposes, his letter at that time reading as follows:

"The intention is to use this for a right of way through the city, necessary tracks for passenger and freight terminals, passenger and freight stations, shops sufficient to handle the business for such an important terminal as Bend should be, fuel storage and loading facilities, round house, stock yards and other strictly railway purposes."

The second charter amendment does not contemplate any bond issue, but simply makes it possible for special districts to bond themselves for street and sewer purposes.

On a separate ballot will be the question of extending the city limits.

The polling places will be as follows: Precinct 3, council chamber; precinct 4, Reid school; precinct 5, H. H. De Armond garage. For the voters outside the city limits who will vote on the question of bringing their sections into the city the polling place will be in the rear of the Elder store in Kenwood.

McKAY LANDS BIG TROUT.

A trout weighing 12 1/2 pounds and 31 inches long was caught last Sunday by Game Warden Clyde McKay of Bend, in Paulina lake. This trout is the largest that has been caught, so far as known, in Paulina lake this season.

NINE BOY SCOUTS LEAVE FOR ANNUAL ENCAMPMENT

Camp Will be Pitched Up River Near Vandeventer Ranch—Rev. H. C. Hartranft is Scoutmaster.

Nine Boy Scouts of Bend, under the supervision of Scoutmaster Rev. H. C. Hartranft left on Tuesday morning for their annual encampment up river. They will pitch camp near the Vandeventer ranch and will be away about 10 days. The boys will be encamped under the rules governing Boy Scout encampments and will indulge in many of the sports and drills for which provision is made.

Those who accompanied the scouts on the trip are Rev. and Mrs. H. C. Hartranft, Mr. and Mrs. F. S. Francis and Mrs. Ross Farnham. The scouts making up the party are: Calvin Smith, Lester Smith, Elmer Smith, Kenneth Oliver, Loyd Blakeley, Hugh Kelly, Floyd Reynolds, Paul Reynolds and Fred Shuey.

IRON WORKS RESUMES OPERATIONS IN NEW BUILDING

Foundry Structure Destroyed by Fire is Replaced—Improvements Made—Many Orders Now on Books.

After suffering a loss of their main foundry building by fire the Huffschildt-Dugan Iron Works is again in operation in a new foundry building larger than the old, built of brick and fire proof. The first castings in the new foundry were made on Friday.

The new building is 40x60 feet in size and has a number of improvements over the old, including an elevator for raising the iron up to the cupola and a special core oven. As soon as may be a new crane will be installed making possible the handling of castings up to two tons in weight. It is also planned to add a machine shop to the equipment.

Judging by the work it is resuming the foundry is filling a big hole in the community having at present enough orders on hand to keep it busy for the coming three months. Among these are large orders for a market for old iron, having cleaned up what could be found in town and is now receiving shipments from outside points.

In addition to its orders the foundry is turning out stock work in the shape of window weights and furnaces which are on sale in town. Six men are now employed.

HOFFMAN TO TEACH

Former Bulletin Editor Takes Position at Leland Stanford.

Ural N. Hoffman, formerly managing editor of The Bulletin, has accepted a position as assistant in the Department of Journalism at Leland Stanford University, California, and will take up his new work there at the beginning of the college year in September, according to word received in Bend this week. Mr. Hoffman is at present city editor of the Tacoma Ledger.

Mr. Hoffman was connected with The Bulletin for three years, leaving here in March, 1914. He has also been connected with the Charlotte, (N. C.) Observer and the Vancouver, (B. C.) Daily Province. On leaving Bend he became assistant city editor of the Ledger and city editor at the first of the year. Mr. Hoffman is married, his wife being a sister of J. H. Corbett, of Bend.

MORE PRIZES ARE GIVEN

Contributions are Liberal for Annual Flower Show.

Additional prizes for the annual Flower Show have been given by interested individuals and business firms during the last week. Those who have made contributions are: C. W. Thornthwaite, 2 lbs. castile soap; Dr. Cousineau \$1; W. D. Barnes \$5; Mrs. J. Welch \$1; J. N. Hunter \$1 for roses; Mrs. Rose James, compliments of the Pacific Biscuit Co., one box Snow Flakes Crackers; Anton Aune \$1; A. L. French \$1; L. I. Fox \$1; Oregon Hotel 50c for carnations; Central Oregon Fruit & Produce Co., 50c; H. C. to, the tailor 50c; J. H. Corbett, \$1; Mrs. S. A. Dick \$1; P. E. Chase one brooch; L. D. West \$1.

The prizes are now on exhibition at Bend & Horton's drug store.

AGREEMENT IS FOR DIVISION

EAST SIDE AGREES TO NEW LINES

Members of "Old Guard" say Prineville Will Vote Strongly in Favor—Petitions Now Being Prepared Will be Out by End of Week.

Division of Crook county and not removal of the county seat will be the main issue of the coming campaign as a result of the acquiescence of the east side in the lines for division agreed upon between their committee and the west side committee. With the possible exception of Redmond all precincts seem agreed on the division lines and a big vote in favor is expected.

Not only among the east side insurgents are the new lines popular but even members of the so-called "Old Guard," who were active in opposition early in July, now are ready to pledge their support to the proposition. One of the most prominent members of the first Prineville committee is reported by a Bend man, who met him on returning from the Pythian convention in Portland last week, to have said that if he could be released from the agreement which he signed with the Redmond committee, he would vote in favor of division. Other evidence of the newer Prineville feeling is given by Judge Brink, who has been campaigning in this section recently. He says that the measure will have a big vote in Prineville.

Final word of the Prineville attitude was received here early in the week and on Monday night, carrying out the decision made at earlier meetings, arrangements were made to proceed with the division petition. This is now being printed and will be ready for circulation this week.

"Deschutes" will be the name of the proposed new county, as was the case two years ago, and the lines will follow those of 1914 with the exception that two and a half townships in the Powell Butte and Alfalfa sections will be placed in the old county and six townships in the southeastern part of Crook will come into the new.

Although it will be impossible to have the removal question taken from the ballot it will be abandoned without any campaign and all efforts put on the division measure.

MORE ROOM FOR BANK

Addition to Be Built in Rear of First National Building.

As soon as arrangements can be made to care for tenants now in the property, the Deschutes Investment Co. will erect a new building adjoining the First National Bank building on the ground now occupied by the George Barber shop, according to an announcement made yesterday.

The new structure will conform in general appearance to that of the bank building to which it will serve as an addition to provide more room for the largely increased business of the First National.

The building, which will be of pressed brick, will be 16x30 feet in size, and one story high. It will open into the present banking quarters near the present safety deposit vault and will provide a work room for the bank employees, thereby removing the adding machines with their attendant noise, from the main room.

TRIP COVERS 1000 MILES

Mr. and Mrs. Hudson Visit Southern Points With Strahorn Party.

C. S. Hudson, with Mrs. Hudson, returned on Wednesday from a trip of a week's duration with Mr. and Mrs. R. E. Strahorn over the lines of the Oregon, California & Eastern. On the trip over 1000 miles were covered, all points to be touched by the lines of the new road being visited.

Mr. Hudson reports that everywhere Mr. Strahorn found a growing sentiment in his favor, the people being considerably impressed by the thoroughness with which the preliminary work was being done and being more and more satisfied that the railroad builder was going to accomplish what he had set out to do. The party broke up in Klamath Falls where Mr. Strahorn will spend some time in a study of the country and in working out details of the road building with Klamath Falls people.
