WHAT BEND NEEDS.

The biggest need in Bend today, as it has been for nearly a year past, is houses for its growing population. Houses are in greater demand at the present time than ever before.

What's to be done? That is a difficult question to answer, but since the matter is one which neither the council nor the commercial club can act upon, it is certain that unless private enterprise sees the need and the opportunity and takes action, the answer will be, "Nothing."

Some say that the reason why construction has not kept pace with the growth of the town is because lot prices are too high, and that investors do not care to come in to build when they have to pay "so much" for the land.

Slowly that situation should cure itself as more and more money is earned and distributed in the town, but in the meantime there is the need to be met. What will be done? Except in a minor degree it seems apparent that it cannot be met locally, so that the only solution is the attraction of outside capital.

SCHOOL BUILDINGS.

Well considered as are the plans for the new school building we wish that the school board had so arranged things that the voters would have the opportunity to express a choice between a high school unit and the new grade buildings.

Looked at fairly the present plan is merely a temporary expedient, if it be the fact that grade buildings are the ones most needed. Or putting it another way, it is a means of starting a high school building out of the grade school necessities.

If the high school unit is built we believe that before a year has passed there will be a demand for the grade buildings, and one that will have to be met.

The foregoing is not to be taken as opposition to the proposed high school. That is needed also. The question is, which is needed most. We wish that there might be more discussion of the subject and invite all interested to write letters thereon.

THE ROCK CRUSHER AGAIN.

One aspect of the rock crusher purchase, or attempted purchase, has not yet been brought out, and that is that the terms of the alleged contract call for payment in future years, beginning in 1917.

Now the state law provides for the use by the city of the budget system under which, in December, an estimate is made of the city's needs for the coming year and its prospective revenue, and the tax levy made to suit.

For the council to commit the city to this expenditure at the present time is to take away from the citizens their right to be heard on the

budget, for if the expenditure is legally authorized a levy must be made for it, willy-nilly, in December.

Again, to spread the expenditure out over three years, is practically to make a bond issue on which the people have had no voice. To state this fact is to make all the argument necessary.

If this thing is to be carried to a finish why not postpone it until the December election and then let the voters pass on it?

MONEY FOR ROADS.

Active steps are being taken by the people of Eugene to obtain funds from the recently enacted National highway bill with which to build a highway over the Cascades to connect with Klamath Falls.

From the local viewpoint the road would be undesirable because of the probable diversion of traffic, but we should not try to stop it on that account. We have no wish to try the dog in the manger policy.

The new road may be a long time in working out. That is no reason why we should sit still. There are roads of state importance which we might work for and, in getting, help ourselves immeasurably.

The hunting season is open again. Be careful what you shoot at. It is better to miss the game than hit a man.

Crater Lake by way of Bend, is the big attraction this summer.

THE COMPELLING PERORATION TO MR. HUGHES' ACCEPTANCE SPEECH.

We live in a fateful hour. In a true sense, the contest for the preservation of the Nation is never ended. We must still be imbued with the spirit of heroic sacrifice which gave us our country and brought us safely through the days of civil war.

FAVORS WOMAN SUFFRAGE.

Some time ago a consideration of our economic conditions and tendencies, of the position of women in gainful occupations, of the nature and course of the demand, led me to the conclusion that the granting of suffrage to women is inevitable.

CARD OF THANKS.

Further Resolved, That we extend to the bereaved relatives of the deceased our heartfelt sympathy for them in the loss of their beloved son and brother, and that a copy of these resolutions be sent to his sorrowing mother, and that another be spread upon the minutes of this lodge, and that a copy be published in The Bend Bulletin.
