

Shearings

Tonnage Increases.
We used to look upon the man who raised a ton of rye hay per acre in this valley as being a wonder but this year such persons are as common as those who raised a quarter ton to the acre two or three years ago.—Fort Rock Times.

Editor Has a Gift.
When Mrs. Byrd went home yesterday at noon she discovered that some one had been in our kitchen. No, there was nothing missing, the people of Juntura don't have to look their doors, but she found the nicest piece of hog liver I ever tasted, and she scribe is mightily fond of liver, especially hog liver. We have our suspicions for we happen to know that Mr. and Mrs. Chas. Burner killed a hog yesterday. Other towns may have us beat on sewer systems, water works, electric light plants etc., but we have them all out classed when it comes to neighbors.—Juntura Times.

Redmond Schools Open.
School will open in Redmond in all departments Monday, September 11, with five teachers in the grades and five in the Union High School. The new quarters for the different departments are in readiness at the present time and but a few finishing touches remain to be done.—Redmond Spokesman.

Thatcher Coming Back.
Col. C. W. Thatcher, the renowned Good Roads enthusiast, who was here several years ago in the interest of the Good Roads Campaign, intended to hold a big meeting here September 14, but his communication to the Commercial Club and did not reach here until Tuesday; he was advised by wire to select some future date as the time is too limited to properly arrange a big meeting.—La Pine Inter-Mountain.

Editors are Coming.
The first annual meeting of the Central Oregon Editorial Association will be held in Prineville on September 29 and 30. All members of the association and all others who would like to become members should be present at that time. Programs are being issued for the meeting, but should you fail to receive one of these by any oversight, come anyhow.—Crook County Journal.

To Study Measures.
At a meeting of the Library Association last Thursday evening, it was decided to hold meetings once a week to read and study the different initiative measures which will come before the voter at the November election. It is a decidedly good move and should interest all the voters of this section. These meetings will of course be open to the public and the discussion will be general. The idea is to get the views of everyone and in this way many things which may puzzle some may be made clear.—Madras Pioneer.

Grain Market Affected.
The temporary settlement of the threatened railroad strike caused a feeling of relief to the country in general, and especially in this section, where the harvest is on and the grain movement due to start. All the grain buyers were out of the market the latter part of last week, due to the uncertainty of developments in the strike situation. Most of them were again quoting prices Saturday, but under the figures quoted at the time they withdrew from the market.—Jefferson County Record.

Would Start Creamery.
Preliminary arrangements for a creamery in Paisley are progressing nicely. Several more ranchers have indicated a desire to provide their quota of cows. Everything is moving forward as rapidly as could be expected. At present it appears entirely possible to secure a guarantee of 350 cows. If this number can be secured it will be possible to get a creamery established here. One party is already talking of establishing one and should it happen that he will be unable to do so there are other chances to secure a good creamery man to take up the proposition. The thing most needed at this time is to get enough cows guaranteed so that the project will look encouraging to a creamery man.—Chewaucan Press.

Culver Schools Open.
No annual event can be more important to a community than the opening of its public schools to begin another year's work. It has been said that the kind of schools maintained in a town is a true index of the intelligence and enterprise of its citizens. Judged by this standard our community does not need to fear low rank. The Culver Public Schools open this week for nine months of work under more favorable conditions than ever before.—Deschutes Valley Tribune.

It's Time to Wake Up.
In spite of the very apparent fact that actual railroad operations will begin in Central Oregon at a very early date there are still some in the community who persist in saying, "It will never be," and "There will be no railroad here for the next 25 years." For heaven's sake, come

out of it! WAKE UP! Don't be a Rip Van Winkle any longer. You are living in the twentieth century and the world is making progress. Get in line with the progressive citizens and become an enthusiastic booster. It won't be hard on you now, for the stage of uncertainty has passed—the crisis is over. All you have to do now is to get into the van and yell "Hurrah for the railroad."—Silver Lake Leader.

ONCE you've got started on W-B CUT Chewing you will understand perfectly why tobacco lovers can't keep quiet about it. It's a happy surprise to get the flavor of rich tobacco for the first time. And the salt brings out the taste and satisfaction without the grinding and chewing—and keeps it coming. A small chew does it—and lasts twice as long as a big wad. In air-tight pouches 10c. at your dealers.
