Kelly is Chosen

H. A. Kelly, county and city engineer, was chosen by the Prineville city council at the regular meeting Tuesday evening, to act as engineer for the city in the surveying and construction of the railroad from this point to the Oregon Trunk line.—Crocket County Journal.

Odds Favor Division.

The question of county division seems unimportant at this time, and both sides are confident of success. Betting odds are in favor of division however.—La Pine Inter Mountain.

Good Stuff.

Bickering, backbiting and lack of harmony have wrecked more community prospects than we care to enumerate. They are the granite upon which many a bright commercial future has been smashed to nothingness. They are the death knell of prosperity in any town.—Silver Lake Leader.

First Snow in Jefferson.

The first snow of the season in this section fell last Sunday at Geneva. On Monday night a light snow fell at Culver, but turned to a cold rain.—Madras Pioneer.

First Snow Falls.

The first snow this fall fell on Sunday. On Monday there was also a slight trace and on Tuesday there was enough to whiten the ground.—Fort Rock Times.

Water Hearing Ends.

The great water hearing which has been in progress for the past month came to a close in Judge Daly's court last Saturday. The case has aroused considerable interest throughout the country because it involves many points of law which vitally affect many other similar cases in other parts of the state. It has been almost savagely fought out by both sides as both have been determined to place in evidence all possible matter which will have a bearing in the ultimate outcome. There is now, no doubt but that the case will go to the State Supreme court for final decision. Both sides have made this statement.—Chewancan Press.

Culver Praises Gateway.

At this time of the year it is surprising to learn the amount of business which is being transacted at Gateway. This point is proving of great importance this year as a shipping point. The splendid crop of grain which was raised in the country east of Gateway is now being hauled to this railway point. The big crop of the Ashwood country is being hauled here. Much of the grain of the big Agency plains is stored and shipped through the warehouses of Gateway, therefore the commercial activity is great. Grain is piled on all sides and if the railroad does not get busy it will have the road blocked. There are two general merchandise stores doing a thriving business, a hotel, blacksmith shop, and other commercial enterprises. The school house would do credit to a city twice its size, and they have a school with some forty or more pupils in attendance. It is pleasing to note the activity and enterprise in a town of this size.—Deschutes Valley Tribune.

"The Quest" to be seen Saturday evening, is truly a beautiful picture. The scene laid on the sea coast are extraordinary. The film is an American distinctive film.

"WAIT, BOYS! YOU'RE BOTH RIGHT! W-B CUT IS LONG SHRED, RIGHT-CUT IS SHORT SHRED, BUT BOTH ARE THE REAL TOBACCO CHEW. NOW SHAKE HANDS."

YOU want to remember that the same fine stock is used in both W-B CUT and Right-Cut. The difference is that one is long shred and the other is short shred, both seasoned with a bit of salt.
