Bend Theatre.
 "A Lass of the Lumberlands."—The Bend Theatre announces its new chapter play, "A Lass of the Lumberlands," to begin Thursday and Friday of next week. Helen Holmes is the star of this new serial, which is a worthy successor to her last success, "The Girl and The Game." "A Lass of the Lumberlands" was re-

leased only last week by the producers and will be shown by the Bend Theatre when only 10 days old. This chapter play, as the name implies, is a story of the great out-of-doors in the wonderful timber regions of the north woods, amid the mighty sequoias, pines and cedars which make that country famous. As the story unfolds, every detail in the operation of the great lumber industry will be revealed. The lumber camps, the sawmills, the swirling river, the log jams, suggest some of the backgrounds that make "A Lass of the Lumberlands" a sensational motion picture work. Miles of rail-

of the star, George Beban, as Pasquale. As the small grocery store owner whose life is filled with great happenings this well known portrayer of Italian types renders a part that is his greatest achievement. The very clever acting of the child who plays the part of his niece, and Myrtle Steadman, as Mrs. Martinella, add to the play. Mention, too, should be made of Colombo, the oldest living horse, who plays the part of Pasquale's closest friend. A new Paramount photograph will be shown with Pasquale.

Tonight is the last night of "Alien Souls," featuring Sessue Hayakawa, the Japanese, who was seen here with Fannie Ward in "The Cheat." The "Feud Girl" is coming next week, Tuesday and Wednesday, at the Bend Theatre.

Dream Theatre.
 "The Scarlet Runner," the latest serial for the Dream Theatre, will open Friday night with the first episode of 12 complete chapters of the play. Action in this play moves quickly. The interest is kept up at every stage. There are a wide variety of scenes and new actors for every complete chapter. The scenes take the play fans through all kinds of country, through all kinds of scrapes, and situations almost incredible. Every chapter waxes with intensity and earnestness as the serial advances. "The Scarlet Runner" will be shown every Friday evening. This week in addition to the first episode the first of a series of Tom and Jerry comedies will be shown. The first one will be "Bachelors."

"Lonesome Heart," featuring well known Margarita Fischer, probably one of the most fascinating of the Mutual's galaxy of film stars, will be shown Saturday night. Miss Fischer will be featured in this splendid film as Smantly. With this film will be shown a two reel Keystone comedy and a Bostwick animal feature, with William Clifford, and also a Pathe News feature.

Virginia Pearson, known as the "Modern Cleopatra," who is starring in the latest picture produced by William Fox, "A Blazing Love," to be shown at the Dream Theatre Sunday and Monday, is inventor of an innovation in society fads which already has had imitators in cities from coast to coast. From the ordinary "beauty spot" this talented actress now appearing in "screen life" has evolved something with more art in it.

This famed film beauty cuts out in black silhouette the outline of a human face. This she wears on her face or breast as a "beauty patch." The effect, as may be fancied, is striking—and may mean more than a mere patch of black to bring out the color of fair skin.

This film is rich with dramatic situations. Miss Pearson has a personality that pleases and startles. She has worked out many details in film technique developed by no other artist. She is considered by critics to be a wonder.

EMBLEM IS DECORATIVE

Club Device Used on O'Kane Building, Also by Shevlin Company.

One of the attractive features of the O'Kane building, which is now rapidly nearing completion at the corner of Oregon and Bond streets, is the use of the Bend emblem of the Emblem Club. The emblem is set in the transom over each window in leaded glass and also is placed in the stairway window at the rear of the building.

The Emblem.

The emblem is also being used by The Shevlin-Hixon Company to mark a part of its product, being stamped on the pine, which is being called Bend Shevlin pine. The company is also using the emblem in its advertising.

SWEET CLOVER SUCCEEDS

Dry Railroad Fill is Covered With Hardy Plants.

When here last week Robert E. Strahorn was showing a newspaper clipping describing the remarkable growth made by sweet clover on the O. W. R. & N. fill in Spokane. The article was illustrated by a photograph of a clover plant 16 feet high. According to Mr. Strahorn the clover was planted on the south side of a fill 150 feet high and a fourth of a mile long. "One could hardly find a drier, hotter spot in the summer time," Mr. Strahorn said, "and yet this clover has shown a remarkable growth, covering the whole side of the fill."

After describing the growth of the clover the article concludes: "During the last two years the farmers have begun to realize the importance of this crop. Some are using it for pasture, while others are harvesting it for hay. They are thoroughly satisfied with it."

This is in complete accord with the statements made by former County Agent A. E. Lovett, who frequently urged that Crook county farmers plant sweet clover.

roads and fleets of freighters are brought into play. In this production will be found even more sensational scenes and greater thrills than in "The Girl and The Game." This chapter play will come regularly to the Bend Theatre every Thursday and Friday at popular prices.

With every chapter of "A Lass of the Lumberlands" will be shown one of the late L-Ko comedies. The L-Ko's have proved the most consistent laugh-getters on the market, and are popular the world over.

"Pasquale," the Paramount feature coming to the Bend Theatre next Sunday and Monday, is a story in which laughter, tears, estrangement and suffering, hilarity and joyousness are, fascinatingly blended to make a masterpiece of this original film story. The plot carries up from the Italian quarter of New York to the Italian-Austrian battle front, and shows intimate details of trench warfare and mountain batteries. The appeal of the story, however, is through the superb character work

HAZEL DAWN—THE FEUD GIRL
 FAMOUS PLAYERS

THIS WILL TELL YOU HOW TO SAVE DOLLARS ON YOUR FUEL THIS WINTER.

Do you know that the soot on the inside of your furnace or stove and chimney increases day by day until it forms a crust which is almost heat and fire-proof and that eventually almost half of the heat value of your fuel is wasted and lost in getting through this crust? The draught is poor and you can't get results.

A chimney sweep will clean out this sooty crust for you for two or three dollars and make a lot of work, dirt and muss, and yet it is worth it if you can't get it done any other way.

However, one package of "ZIP," a chemical compound, will accomplish the same result in five minutes without work or dirt and for only twenty-five cents. Your grocer has a package for you now, waiting your order. Tell him to send it over at once and stop that fuel waste today.

BOND STREET

YOUR HEALTH

A recent investigation made by the United States Public Health Service in connection with studies of rural school children showed that 49.3 per cent had defective teeth, 21.1 per cent had two or more missing teeth, and only 16.9 per cent had had dental attention. Over 14 per cent never used a tooth brush, 58.2 per cent used one occasionally and only 27.4 per cent used one daily.

Defective teeth reduce physical efficiency. Dirty, suppurating, snaggle-toothed mouths are responsible for many cases of heart disease, rheumatism, and other chronic affections. The children are not responsible for the neglected state of their teeth. The ignorant and careless parent is to blame for this condition—a condition which hampers mental and physical growth and puts a permanent handicap on our future citizens.

School teachers can and are doing

much in inculcating habits of personal cleanliness on the rural school child, but this will fail of the highest accomplishment unless parents co-operate heartily and continuously. This is a duty which we owe our children.

LARSON IN BURNS

(Harney County Tribune.)
 J. Edward Larson, of Bend, is in the city looking after the interests of the Burns Steam Laundry. Mr. Larson is very well pleased with the management of this branch of his business and has just shipped to Burns a complete outfit of machinery for ironing collars, and also a new

washer. This new machinery puts the plant at Burns in the first rank of laundries, and the people of Burns will appreciate the advantages of having their laundry done at home in first class manner by giving the laundry good patronage.

Clean up and paint up. See Edwards.—Adv.
