

WILL INCREASE GRAZING RATES

FOREST SERVICE TO CHARGE MORE.

Investigations Show That Present Fees are Only One-Third the Value of the Forage—Stock Associations May Discuss.

District Forester George H. Cecil, of Portland, Oregon, announces that after careful consideration the Secretary of Agriculture has approved an increase in the fees to be charged for grazing livestock on the National Forest ranges.

This increase will be made gradually for the next three years, until the charges reach a point equivalent to two-thirds of the charges made by private owners for grazing stock on their land.

Stock associations are being advised of this decision in order that statements regarding the views of their members may be submitted to the Forester by February 1, 1917, in case they desire to discuss the matter.

Investigation of rental values from time to time, says Mr. Cecil, has revealed that the government charges for grazing on the National Forests are only one-third of the market value of the forage. Since timber and other resources of the National Forests are sold at their market value, there is an increasing demand that forage resources should be disposed of in like manner.

The National Forests were created for the primary purpose of conserving the timber and water supply. The grazing use of the ranges, which was found to exist when active control of the forests was begun, was treated as a secondary matter and only a portion of the administrative cost of handling the forests was asked as a grazing fee.

Since the National Forest states are sharing in all the receipts from National Forest business to the extent of 25 per cent, the revenue to these states will be materially increased by this decision.

For the fiscal year ending June 30, 1916, the states of Oregon and Washington received \$32,820.65 as their share of the grazing receipts from National Forests within their borders. Without considering increased receipts from other forest resources this figure would be doubled by the advance in grazing rates.

The Masked Ball of the season. At the Hippodrome, November 29.—Adv. 35c.

OCTOBER WEATHER

Month Has Big Majority of Clear Days—Little Rain.

Clear days were in the big majority in October, there having been 27 in all and only four days partly cloudy. There was almost no precipitation, a trace only being recorded on the 27th and 28th. The mean maximum temperature was 71.9 degrees and the mean minimum 26.7, making the mean 49.3. The highest temperature recorded in the month was 87 degrees on the 15th, and the lowest 13, on the 26th. The greatest daily range was 66 degrees.

The daily temperatures and character of sky were as follows:

1	81	34	Clear
2	79	31	Clear
3	74	33	Clear
4	70	35	Clear
5	91	33	Clear
6	65	38	Clear
7	59	41	Clear
8	58	46	Clear
9	65	34	Clear
10	68	39	Clear
11	69	37	Clear
12	71	51	Clear
13	73	29	Clear
14	78	30	Clear
15	77	34	Clear
16	79	24	Clear
17	81	20	Clear
18	89	21	Clear
19	78	26	Clear
20	82	19	Clear
21	76	18	Clear
22	72	16	Clear
23	68	18	Clear
24	71	14	Clear
25	76	15	Clear
26	71	13	Clear
27	68	17	Clear
28	66	20	Pt. Cloudy
29	67	14	Pt. Cloudy
30	64	18	Pt. Cloudy
31	70	24	Pt. Cloudy

TEAMS PLAY TO SCORELESS TIE

PRINEVILLE ELEVEN IS STRONG.

Burns Eleven Will Play Bend on Local Gridiron Sunday—Visitors Said to Be Fast, Heavy Aggregation—Many Stars.

Prineville and Bend played to a scoreless tie last Sunday afternoon in one of the roughest football games that has been seen on the local gridiron. From the spectators' standpoint the game was not as good as the first 13 to 7 game at Prineville, when Bend defeated the county seaters. Frequent disputes and delays caused by injuries slowed up the speed of both teams.

The Prineville eleven was greatly strengthened, having Barnes and Lister in the line and Bob Lister in the backfield. The visiting team was in the best of trim and were confident of defeating Bend last Sunday.

The visitors opened strong in the first quarter, stealing away with a long forward pass immediately after the kickoff, but were stopped on the 30-yard line. Bend received the ball on the 15-yard line and marched the ball to the middle of the field. In the second period, Prineville was played almost entirely in its own territory. Bend came near scoring in the second period, when the ball was marched up to Prineville's 10-yard line on straight football but the team did not have the kick to put the pigskin over. In the second period Bend gave the Prinevillians a big scare when Boland shot a long pass to Clifford who was waiting in the sage brush just behind the goal posts. The ball was just out of his reach and fell dead. Boland tried a drop kick from the 30-yard line in the second period that fell a little short.

Prineville outshone Bend on several occasions in handling the pass, making big yardage. The Bend line was almost impregnable and smothered big Bob Lister almost every time he attempted to plug the line. Clifford and Stover played a stellar game on ends and prevented fast Brooks, Prineville's shifty left half, from getting away. On offense Boyd and Bennett, guard and tackle respectively, on the left side of the Bend line, had their hands full but held tight every time. Lamberson and Thompson, right guard and tackle, respectively, did strong offensive work, opening big holes for the Bend backs. Bend depended on Steidl, Erskine and Ketcham for most of its gains on line plunges, and Stover and Clifford made two clean get-aways each with the pass. Prineville was after Boland, who played fullback in the game, and Bend gave several of the Prineville team cause for worry. Shumway played a bang-up game at center until he was taken out in the fourth quarter.

Prineville Gives Scare. Prineville was something of a surprise to the Bend eleven. It got away faster, was heavier and its defense was much stronger than in the initial game. The visiting eleven gave the Bend team cause for considerable worry in the last few minutes of play in the fourth period. The ball was advanced by Prineville to Bend's 30-yard line on a fumbled punt. Prineville pushed the ball to Bend's 10-yard line and Estes was making ready for a drop kick that would have been certain had not the whistle blown.

To Meet Burns Sunday. Bend will make a great effort to annex further gridiron glories when it meets the fast and heavy Burns eleven on the local gridiron next Sunday afternoon. Burns, it is understood, is a team with an exceptionally heavy, aggressive line, and its backfield is lightning fast.

Burns was defeated early in the season by Prineville at Burns, 10 to 0, but did not have its regular lineup in at that time. People who have seen the Burns aggregation work say that it is of college calibre and is expecting to make a cleanup of both Bend and Prineville on its next week's tour.

Bend is going to put in some stiff practice work this week in preparation for next Sunday's game. The Bend eleven will be strengthened somewhat this week for speed and accuracy.

C. S. Hudson, of the First National Bank, has offered to guarantee the \$2.00 required by the Burns management to finance the trip to Bend. Sunday's game will start promptly at 2:15 p. m.

Shearings

The Accurate Spokesman. On the face of the returns, county division was lost, but claiming error in the returns from Fife precinct, where the vote was strongly against the measure. Bend has enjoined the county clerk from certifying to the returns to the secretary of state. Several precincts were divided by the proposed county lines and it is a question as to the location of the individual voter. Other questions will undoubtedly arise and it quite possible the matter will not be definitely settled for many months.—Redmond Spokesman.

All Records Broken. During the past ten days the weather conditions of Eastern Oregon have broken all records. On Saturday and Sunday over 12 inches of snow fell and since that date the thermometer has registered below zero most of the time.—Crescent News.

Would Trade in Portland. While here Mr. Cheney told many interesting stories of the offers of support made by the different communities visited and their great willingness to aid the project. One striking illustration was seen at Cedarville, Cal., where in an audience of 102 men, 90 signified their desire to trade in Portland in preference to California cities if rail transportation could be had in this direction. All points visited wish to do all possible to hasten the day when construction work will begin.—Chewaucan Press.

Rails Benefit All. Little do those living at a distance from the Strahorn survey realize what those living on the survey are doing for them. The person living a mile from the survey is benefited as much as the one whose place is crossed, yet one gives a strip of good land through probably his best field while the other gives nothing. Think of this and appreciate it when your neighbor signs a right-of-way deed.—Fort Rock Times.

Worse and More of It. In addition to the general confusion of the local election and questionable propositions, the Madras election board failed to sign their election returns as required. There has been considerable agitation over the matter, and just how it will be disposed of is not definitely known. It is reported that the returns of two other precincts were not in full compliance with requirements.—Jefferson County Record.

Silver Lake on Map. Silver Lake is on the map to stay. It is growing both in population and in the number of buildings to house the increasing populace and business. Quite a number of very creditable bungalows and cottages have been built and the good work is still progressing.—Silver Lake Leader.

To Boost Project. About 50 live-wire business men and stockmen from the Prineville section are going in a body to Portland during the week of December 4 to 9, to boost the Ochoco Irrigation District, Prineville railroad, Ochoco steer, artesian wells and the many other resources of this country.—Crook County Journal.

Early cold snaps, storms and sleet, snow and slush, cause coughs and colds. Foley's Honey and Tar acts quickly, cuts the phlegm, opens air passages, allays irritation, heals inflammation and enables the sufferer to breathe easily and naturally so that sleep is not disturbed by hacking cough.—Adv.
