MORE BURNS FRAISE

News Says Treatment of Football Team Cements Bonds.

Now comes another Burns paper, the Harney County News, and says more kind things concerning the treatment accorded the Burns football team on its recent visit here. Says the News: "So well did the Bend people treat the Burns team that all disappointment regarding the failure of Prineville to stay with their agreement, majestically disappeared. All clubs and social functions in the city were lavish in their deference and showering of courtesies upon the visitors from this city. "Burns has always considered Bend a very considerate business neighbor, but now the mutual bonds have been cemented solidly. Burns' team of football players were made up of young business men and those interested in the business life of our city, and this consideration by the sister city has amalgamated the business issues and there will always be the kindest of feelings in Burns for Bend and her wide awake citizens."
