

MOOSE TO BEGIN NEW CLUB SOON

MAY ALTER FIRST PLAN OF REMODELING.

Home Talent Play to Be Considered to Raise More Funds—Carnival Success for Moose and for Ladies' Library Club.

(From Monday's Daily.)

Whether to continue in their original plan of remodeling the Dream theatre for a club, whether to erect a new building, or whether to move the theatre building to a new location is the problem which is confronting local Moose, and which, it is expected, will be determined this week. Work will be started immediately on the rendering of a decision, and to raise funds in addition to those secured through the carnival of last week, it is probable that a home talent play may be staged.

With a crowd of more than 1200 in attendance at the evening's total, the carnival came to an end Saturday night, with dancing in a space twice as large as on preceding nights. Confetti and serpentine littered the floor and filled the air, and the guests at the Hippodrome enjoyed themselves thoroughly while waiting for the drawing of prizes.

Sam Elder was the big prize winner of the evening, securing the Ford auto, while Charles Davis drew the diamond ring. In the children's prizes, Helen Rasmussen drew the doll and Howard Davis the sled. The saddle offered by the King Bee dentist went to Miss Marion King, and of the imported rugs raffled by I. Mezrahi, the two on the first prize were won by Fred Becker, and the two on the second prize by Dr. G. L. Cousineau.

The first prize offered by the Ladies' Library club, a Nippon China tea set, was captured by Martin Firestone, and the second prize, a Navajo rug, was won by Jack Tansy. Dr. Cousineau drew the suit of silk pajamas. Mrs. George Bates received the kimono, Miss Alice Rasmussen the mahogany tray, and Mrs. Martin Kenfield the boudoir set.

The ladies of the club were highly pleased over the patronage given them, and announced that while no checking up had been done, a neat sum was assured for the benefit of the public library.

More than 5000 were in attendance altogether during the entire week at the carnival, and Manager Siemsen stated that the affair was a financial success, although no figures could be given as to the exact amount until accounts had been gone over.

CROOK OFFICIALS IN THE CITY LOSE JOBS

Charles W. Erskine, H. J. Overturf, L. A. W. Nixon, and Theodore Aune Must Step Out.

(From Monday's Daily.)

Four Bend men, who held offices in Crook county, are automatically out of jobs, and one of them Deputy District Attorney Charles W. Erskine, this morning received notification from District Attorney Willard H. Wirtz, notifying him of this fact. Mr. Wirtz revoked the appointment for the reason that affairs in this section are no longer within the jurisdiction of Crook county officials, and requested Mr. Erskine in the future to refer all complaints to the district attorney of Deschutes county, H. H. De Armond. He assured Mr. Erskine that relations existing had been most pleasant and satisfactory.

H. J. Overturf ceases to be a county commissioner, but acting on the precedent established two years ago in Jefferson county, will go to Prineville tomorrow to attend the adjourned session of the county court. "If there is any disposition shown not to keep me on, I will of course resign, but otherwise will continue as a member of the court until the end of the year, to aid in winding up the 1916 business affairs," he explained.

Tomorrow's meeting of the Crook county court will be the last of the year, and the main question causing the adjourned session is that of redistricting the county for voting precincts. This was made necessary by the rapid growth of Bend, but was held over from the last meeting because of the county division issue. Now that Bend is in Deschutes county, there will be no redistricting found necessary, it is expected.

L. A. W. Nixon and Theodore Aune, deputy sheriffs, are the two other Crook county officers in Bend who have lost their positions by virtue of the county division.

Drastic Action Is Counseled to Wipe Out Danger of Rabies

(From Monday's Daily.)

Acting on the request of Mayor J. A. Eastes, City Physician U. C. Coe today wrote an open letter to the city council, requesting stricter enforcement of the muzzling ordinance, because of recent developments. The last case to be noted was that of the little daughter of Mr. and Mrs. A. W. Carey, bitten Saturday by a cat believed to be rabid. Dr. J. C. Vandeventer, who is attending the case, reports the little girl to be doing well, and intends to send the cat's head to the state board of health for examination.

Mayor Eastes declared today that he would favor licensing dogs out of existence in Bend. "The steady growth of the city, and the fact that we are bound to have coyotes, the chief carriers of the disease, with us for years to come, makes it necessary that we should eliminate the dogs from Bend if possible," he declared. "I shall advise drastic action to the next city officials."

In his letter Dr. Coe says: "Lately I have had several complaints made to the effect that there were still dogs about town which had not been muzzled and that others muzzled their dogs in the daytime and took them off at night, and I have thought it advisable to call your attention again to our muzzling ordinance which I think should be enforced to the letter."

"Rabies seems to be on the increase at present in the vicinity of Bend. Yesterday a dog belonging to Mr. Armstrong, at Brooks-Scanlon camp No. 2, was bitten by a coyote which was apparently rabid. Saturday a girl was bitten by a rab-

id cat, and stringent measures should be taken at this time, and continue to be enforced until the danger of rabies is over.

"Rabies is an infectious disease chiefly affecting dogs, but to which all mammals are susceptible. The disease is communicated usually by the bites of dogs, cats, and in this section coyotes, the virus being contained in the salivary secretion. It prevails in all countries except England, where the importation of dogs has been prohibited and the infection has been practically unknown for many years. When the symptoms of rabies appear the disease process is already well established. The period of incubation, or the time elapsing after the dog is bitten until the first symptoms appear, in dogs varies from a week to several months; usually the disease manifests itself within three to ten weeks. Although the animals may appear healthy, they are capable of transmitting the disease to human beings prior to the appearance of bation period of rabies in human beings varies from 15 to 60 days, although it must be observed that incubation periods of a year or more have been recorded.

"On account of these things, and the long period of incubation which this disease carries, you can readily see that it is a very hard disease to stamp out. A dog that may be bitten now by a rabid animal may be kept muzzled for six months and when his muzzle is taken off next summer his bite will be infectious to some other dog, and the disease will continue to spread.

"I would respectfully urge a strict enforcement of this ordinance to the letter, and the killing of all stray dogs without owners forthwith."

Surprise Valley is Active in Getting Strahorn Right-of-way

(From Tuesday's Daily.)

With the financial considerations of Bend terminals for the Oregon, California & Eastern Railway Co. now settled so far as the city is concerned, Bend citizens will direct their attention for the next few months to the acquisition of rights of way between Bend and the Harney valley.

Although the Strahorn railroad situation has not been exploited so extensively in northern California, interest in the matter of rights of way has been considerably quickened since the recent visit of Robert E. Strahorn through the rich Surprise valley.

In commenting upon the situation George C. Turner, vice president of the Surprise Valley bank, of Cedarville, in a letter to Mr. Strahorn of recent date, says:

Cedarville, Cal., November 28, 1916. Mr. Robt. E. Strahorn, President, Ore., Cal. & Eastern Ry. Co., Portland, Ore. My dear Mr. Strahorn:

I must write you that you may know how much good your talk here has done us all, and how much easier and quicker we can get the balance of the right of way. We want you to know that we are alive and working. From Rye Patch north to

Fandango (about 70 miles) we have all here signed up except about eight ranchers, and are promised most of them soon. Some deeds have been sent outside to be signed, but we are sure of them. If there should be one or two that are too blind and ignorant to sign, we stand ready to guarantee to you free right of way if condemnation should be necessary. But do not believe it will. One of the toughest cases we have, and a good friend, too, says: "Do you know it takes nearly 14 acres of your best land?"

"Sure, I do, and all that worries me is to think perhaps Mr. Strahorn may not take and build on same. If he does, he makes me thousands of dollars for a paltry few acres of land, and if he wants more land, all he has to do is to say so and I will make him a deed too quick."

South of Rye Patch in Buffalo canyon, Ward & Smith are the only ones that may be slow clear to Flanigan. Duck Lake people are very enthusiastic; some say will give half their land if necessary if Mr. Strahorn will build, and from Ward & Smith's on to Flanigan, I am told, all feel the same.

I hope we will have all ready for you before Dec. 15, and as much coin as it is possible to raise. If every property owner between Bend and Flanigan had good common sense, and could realize what you are doing, this right of way

should have all been signed up in two days.

If there is anything that I can do to help you in any way, please do not hesitate to say so, as it will be a pleasure.

Very sincerely yours, (Signed) GEORGE C. TURNER, Vice president.

The right of way referred to in the above letter is through one of the most highly cultivated farm districts with the finest orchards, alfalfa fields and buildings. The land is said to sell in large tracts at from \$100 to \$200 per acre.

To Stop Self-Poisoning.

For furred and coated tongue, biliousness, sour stomach, indigestion, constipation and other results of a fermenting and poisoning mass of undigested food in the stomach and bowels, there is nothing better than that old-fashioned physic—Foley Cathartic Tablets. Do not gripe; act promptly. Sold everywhere.—Adv.

MARTIN WILL HAVE FAST WRESTLING GO WITH ERNEST MILLER

When Max Martin, whose mat record in Bend is still clear, meets Ernest Miller of Sandpoint, Idaho, he will grapple with one of the fastest little men that ever set foot on a mat. Miller has not been engaged in the wrestling game actively for some time, but he holds an enviable record at 135 pounds, having never been defeated.

Dopesters say he is fast, exceed-the-fastest go he has had since he came to Bend.

The Martin-Miller go is scheduled for December 26 under the auspices of the Bend Athletic club and will be staged at the Hippodrome.

Manager Doudish of the Hippodrome has signed Kid Jeff and Ted Hoke for a fast mat match for the same evening as the main preliminary.

Seats will be on sale Monday at the Wind Mill, Carmody Bros., Arcade, Metropolitan and the Cozy Shine Parlors.

THE GOOD JUDGE APPROVES OF THE DEPARTMENT'S GENERAL ORDERS.

OFFICER, GENERAL ORDERS ARE BETTER APPEARANCE WHILE ON DUTY. BETTER GET UP OF THAT TOOTHACHE. IT AINT TOOTHACHE, BUT I'M GOING TO SWITCH TO W-B CUT, THAT LITTLE SATISFYING CHEW. CAPTAIN, I SALUTE YOU.

GIVE a man a chance—whether he is on the force or a private citizen. It's the satisfaction, the good tobacco taste that wins him over to W-B CUT chewing. There are other things that help—the gentlemanly appearance that the little chew permits; the easing up on so much grinding and spitting; last and not least, the economy—but it's the tobacco satisfaction that turns the trick every time.

Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

Early cold snaps, storms and sleet, snow and slush, cause coughs and colds. Foley's Honey and Tar acts quickly, cuts the phlegm, opens air passages, allays irritation, heals inflammation and enables the sufferer to breathe easily and naturally so that sleep is not disturbed by hacking cough.—Adv.

NEW TEACHER NAMED BOARD ADVANCES PAY OF GEORGE F. HOOVER

(From Monday's Daily.)

To take the place of Miss Lillian Cooper, resigned, Miss Joanna Hislop has been appointed to teach the seventh and eighth grades in Bend, it was announced this morning. She is expected to arrive in the city in time to take up the work immediately after the close of the Christmas holidays.

That the Brooks-Scanlon Lumber Co. has tacitly agreed to pay one-third of the expense of transporting the children living in camp to the city schools, was stated this morn-

ing by H. J. Overturf, of the school board. From now on, instead of \$80 a month formerly paid George F. Hoover for furnishing a conveyance for the children to and from school, \$95 will be paid, the board has decided.
