

# \$15,000 LIMIT ON PROTECTION

## MATTER IS REFERRED TO COMMITTEE.

Council and a Few Citizens Discuss Need of Fire Fighting Material—Some of City's Ladders are Now in Redmond.

(From Thursday's Daily.)  
If Bend is to have a fire department, and is to purchase equipment for use of the department, the total expenditure, including a building to house fire-fighting apparatus, will not exceed \$15,000. This was the decision of the city council in a special session last night, when the police, fire, and liquor committee, composed of Councilmen Bennett, Brosterhaus and Silvia, was instructed to investigate and report at a later meeting as to the type of apparatus advisable, and plans for a municipal building. Mr. Bennett precipitated the action when he ended a lengthy general argument with the statement, "It is of no advantage to say we want fire protection. The question is, what will it cost?"  
Aged Petition Filed.  
The lack of interest taken in the question was shown by the fact that only 15 citizens of Bend were present in answer to the general invitation for residents of the city to be on hand to discuss the proposed move.  
An aged petition, asking for the organization of a volunteer fire department and the purchase of apparatus, was brought before the council, but as none of the men who backed the plan last year were in attendance, the document was merely ordered to be placed on file.  
Debt Now Heavy.  
A. J. Kroenert, Frank Inabnit, E. D. Gilson, Paul Garrison, Charles Brown and W. C. Birdsall were among those speaking for the securing of better fire protection, declaring that Bend is in a helpless condition at present, that the lack of protection might prove an obstacle to the investment of outside capital here, and that the milling industry should be given city help in this respect.  
Another of the speakers advised that the exact effect of the proposed plan on fire insurance rates be ascertained, whether the increased city tax would be balanced by this, pointing out the heavy debt under which the city is now laboring, with no provision made for paying the \$2000 interest on the Strahorn bonds, and embodying the issue in the question as to whether the city should compromise with debt or with fire risk.  
Mayor Caldwell declared that one fire truck would not be enough, and that at least 1000 feet of new hose would be necessary. Councilman Silvia gave it as his opinion that a building could be put up for \$3000.  
Long Scores City.  
A. G. Long, dealer in fire-fighting apparatus, from Portland, stated that he would allow the city three years' time, at six per cent, on equipment purchased, and declared as good measure, that Bend is unparalleled in the state for an "unprotected, foolhardy, helpless condition," in regard to fire.  
Councilman Steidl asserted that there had only been one fire in the history of the city which had not been of benefit to Bend, diverting the discussion from a more serious vein. It was declared that four of the city's fire ladders are now in Redmond, and Chief of Police L. A. W. Nixon was instructed by the mayor to recover them. Councilman Edwards was asked in regard to the matter, but could furnish no information as to how the ladders were taken out of the city. A few minutes after the putting of McKay's motion referring the purchasing question to the committee, the meeting adjourned.

## REDMOND DEFEATS BEND, SCORE 36-24

Local Five is Out-Classed by Faster And More Experienced Team—Small Hall Slows Quintet.

(From Saturday's Daily.)  
The Ben high school basketball team was defeated by the Redmond high school five on the Redmond gymnasium floor last night by a score of 36 to 24. Bend was out-classed by the Redmond quintet which is much heavier and more experienced. The local team was handicapped by the smallness of the hall and the slower floor. A return game is planned for sometime this coming week.

## HENRY KETCHAM TO AID IN RELIEF WORK IN BELGIUM

Leaves For New York to Qualify For Executive Position Before Sailing to Europe.

(From Friday's Daily.)  
To join in the work of the commission for the relief of Belgium, Henry H. Ketcham, of this city, left last night for New York, in response to a telegram from his father stating that an opening in the executive force of the commission is waiting to be filled. Mr. Ketcham will be examined as to his qualifications on his arrival in New York, and if successful will sail about February 1 for Belgium.  
It is improbable that Mr. Ketcham will see either field or hospital service, as the work of the commission is in the distribution of supplies to those not engaged in war.  
Mr. Ketcham has been a resident of Bend for the past six months, holding a position with The Shevlin-Hixon company. In case he should fail to qualify in New York, his situation here will be held open for him. He is a Yale graduate of 1914, and was mentioned by Walter Camp in his recent All-American football eleven for all time.

## EMPLOYEE IS CAUGHT IN SHAFT AT MILL

Tom Robinson Suffers Dislocated Shoulder, and is Disrobed Before Machinery Stops.

(From Thursday's Daily.)  
Tom Robinson, an employee of The Shevlin-Hixon Company, sustained a dislocated shoulder this afternoon, when his clothes became caught in a shaft, whirling him rapidly through the air. Practically every stitch of clothing was torn from him before the machinery could be stopped.  
Dr. U. C. Coe, who attended the case, reports that the young man is not in serious danger. Robinson is being cared for at the Bend hospital.

## SATHER RETIRES FROM BUSINESS

Interests in Drygoods Store is Transferred to Son and Daughter, Who Took Charge This Week.

With the transfer of his interest in Sather's store to his son, John A. and daughter, Cora E., E. A. Sather, one of Bend's oldest and best known merchants retires from active business. The transfer took place this week and the drygoods department, which was assumed exclusively by Mr. Sather with the sale of the grocery department to L. Baird will now be under the supervision of Mr. and Miss Sather. John Sather will be manager.  
For several years the new proprietors have been actively engaged in assisting their father in his business and have acquired a thorough knowledge of the business. Both Mr and Miss Sather are accommodating and well known, not only in Bend, but also in the surrounding country.  
Several extensive changes are contemplated in the store with the addition of new lines and the improvement of others.

## SCHOOL DAYS ARE HERE

See to it that the children's shoes are well cared for. Money is saved in doing so.  
Our shoe repairing ranks the best. Only the highest quality leather used.  
WE GUARANTEE ALL WORK TO BE SATISFACTORY.

# MANY RALLY TO CHURCH WORK

## LYON REVIVAL HAS BEEN SUCCESS.

Converts in Three Weeks Total 120, of Whom 50 are Men—Interest by Local People Has Been Pronounced, Indeed.

(From Saturday's Daily.)  
"Very successful, far better than the average," said Dr. Elwood Lyon, when asked regarding the results of the work which he and his co-workers have been conducting for the last three weeks in Bend churches, and which close tomorrow evening.  
One hundred and twenty people, of whom at least 50 are men, have been converted to church work since Dr. Lyon took up his work here, a record he believes one of which not only the churches should be proud, but one of which he himself is proud to look back to. In proportion to the size of Bend, Dr. Lyon says his revival meetings have been more fruitful than they were in Portland a few weeks ago. The people, he says, have taken hold of the work vigorously, have shown a keen interest in his endeavors and have rallied earnestly to the development of church activities in Bend.  
Attendance Surprises.  
"The attendance at the meetings has been a happy surprise to me," said Dr. Lyon. "The average attendance for the afternoon meetings has been about 150, the week day evening meetings about 400 and the Sunday services about 600. Nothing has pleased me more than to see the interest that has been shown by the young and older men of the community who have made up from one-half to two-thirds of my attendance at the evening sessions."  
To Go to Prineville.  
Dr. Lyon and his assistants open a series of meetings in Prineville a week from tomorrow. They have been prevailed upon to remain in Bend for a few days and Dr. Lyon will give a series of lectures each evening until Thursday evening, on Bible studies and evening lectures on "Temptation and the Way to Victory." The afternoon lectures will begin at 2:30 in the afternoon and the evening lectures at 7:30 p. m.  
Assisted by local talent, a sacred concert will be given in the Presbyterian church Monday evening. The program will be announced Monday.  
See Edwards for good house painting.—Adv.

Attendance Surprises.  
"The attendance at the meetings has been a happy surprise to me," said Dr. Lyon. "The average attendance for the afternoon meetings has been about 150, the week day evening meetings about 400 and the Sunday services about 600. Nothing has pleased me more than to see the interest that has been shown by the young and older men of the community who have made up from one-half to two-thirds of my attendance at the evening sessions."  
To Go to Prineville.  
Dr. Lyon and his assistants open a series of meetings in Prineville a week from tomorrow. They have been prevailed upon to remain in Bend for a few days and Dr. Lyon will give a series of lectures each evening until Thursday evening, on Bible studies and evening lectures on "Temptation and the Way to Victory." The afternoon lectures will begin at 2:30 in the afternoon and the evening lectures at 7:30 p. m.  
Assisted by local talent, a sacred concert will be given in the Presbyterian church Monday evening. The program will be announced Monday.  
See Edwards for good house painting.—Adv.

(From Saturday's Daily.)  
"Very successful, far better than the average," said Dr. Elwood Lyon, when asked regarding the results of the work which he and his co-workers have been conducting for the last three weeks in Bend churches, and which close tomorrow evening.  
One hundred and twenty people, of whom at least 50 are men, have been converted to church work since Dr. Lyon took up his work here, a record he believes one of which not only the churches should be proud, but one of which he himself is proud to look back to. In proportion to the size of Bend, Dr. Lyon says his revival meetings have been more fruitful than they were in Portland a few weeks ago. The people, he says, have taken hold of the work vigorously, have shown a keen interest in his endeavors and have rallied earnestly to the development of church activities in Bend.
