## Don't subscribe to popular fallacies FACE THE FACTS

Meat contains 60 per cent water.  
 Potatoes, 75 per cent water.  
 Milk 80 to 90 per cent water.  
 Flour, 13 1/2 per cent water.  
 A pound of meat costs 20 and 25 cents.  
 A pound of flour costs four cents. And yet there is more energy in a pound of flour than in a pound of beef.  
**REAL ECONOMY MEANS THE USE OF MORE FLOUR**  
**WHEAT FLOUR**—Cheapest and best food. U. S. test proves it. Deschutes Spray and True Blue Flours make the finest tasting bread on the market, because they are made from the highest grade wheat obtainable.  
**FARMERS:** Inquire about our re-cleaned seed before you do your Spring seeding.

## IF YOU TOIL FOR A LIVING

### READ THIS:

Do you know that the State of Oregon has spent approximately half a million dollars in reclaiming several thousands of acres of the best land in Deschutes county, so that YOU may have a place to call home, and at the same time be independent of boss or landlord?

There is absolutely no guesswork as to the value of these lands. Loan companies are right now making loans on lands in this project, and placing a value of \$75.00 per acre thereon. This means that every acre which carries a water right is actually worth \$100.

The State of Oregon is today offering 40, 80 or 160 acres at \$40 per acre for land that is irrigated; one-tenth down, the balance spread over 20 years, and with two full crop years coming between the first and second payments.

**COME TODAY** and make application. I assure you that the offer cannot long remain open, for the lands to be sold this year will soon be taken.

**JUST THINK!** First class IRRIGATED LAND, seven to ten miles from Bend, for \$40.00 per acre. This is an opportunity that will present itself only once in a lifetime.
